

Illegal Sale Conviction Brings 3-Month Term

Louis Pollon Sentenced to Three Months Hard Labour. "Appears to be Blind Pig Lay-Out," Says the Magistrate. Other Police Court Cases on Tuesday.

Convicted of selling liquor, Louis Pollon, 258 Cedar street, was sentenced to three months hard labor by Magistrate Atkinson in police court on Tuesday afternoon. Pollon's house was made a public place and a quantity of liquor found in it will be confiscated. "The lay-out of the place appears to be that of a blind pig," said His Worship, passing sentence.

Pollon will appeal the sentence passed on him by the Magistrate.

Sergeant Olson told of searching Pollon's premises on July 25 and of finding five men in the house, all of them with bottles of beer in front of them. Eleven pints of beer were on ice in a wash boiler and there were 29 pints in cases. Eleven pints of stout were found in one part bottle of brandy. On that occasion eleven men were found in. As the police went to the front door, Sergeant Olson said, he heard someone say, "Police." There was a rush for the back door and some of the men poured their beer down the sink.

A raid was made on July 22. Constable Devine testified. Some cases of beer in the cellar were marked. Two days later when the other raid was made only one marked case remained.

Pollon said that he had a bowling game in his back yard where his friends played. At the time of the raid on July 25 a group of men were playing cards in his home. They had gone in to escape the heat and he had given each one a bottle of beer.

C. Lego testified. Attorney for the defence asked him if Pollon's was a popular place. The Magistrate cut in, "Sure its popular," he said, "they have free beer there." Lego swore that he never bought any beer.

Pollon said that there was no beer there when the police found eleven men in his house. He denied that he sold liquor.

Hollinger Constable Injured in Accident

Receives Head and Leg Injuries When His Bicycle Hit by Car Driven by Henry Tremblay, 130 Wilson Avenue.

Frank Melville, a Hollinger Constable, received lacerations about the head and legs and a general bruising on Tuesday evening when the bicycle he was riding was struck by an automobile.

Melville was travelling west on the Hollinger road when he was struck by the automobile, owned and driven by Henry Tremblay, 130 Wilson avenue. The impact smashed the bicycle and sent Tremblay to the hospital. His physician, Dr. Kelly, said yesterday, that he received cuts about the head, an injured leg and a general shaking up. X-ray photographs were being made to locate possible fractures of the skull and leg.

Received Minor Injuries in Head-on Collision Here

Mr. and Mrs. Adrian Van der Rassel, 49 Bannerman avenue, received minor injuries in a motor accident which occurred just beyond the Fourth Avenue subway on Monday evening.

The automobile, driven by Van der Rassel, was in a head-on collision with a car driven by Albert Randle. Mr. Van der Rassel received cuts about the head and one hand. His wife was not badly hurt nor was Randle seriously injured. Mr. Van der Rassel received treatment at St. Mary's Hospital.

Period of Rain Doesn't Bother Kiwanis Campers

Average Gain of Four and Eleven-Fifteenth Pounds in Weight Seems to Indicate Boys Thrive on Wet Weather. Activities Somewhat Curtailed.

The thirteen days at the Kiwanis camp, between the dates of July 18 and July 29, were spent, "alternately treading water and swathing ourselves in blankets," read a boys' work report of the camp period, presented at the regular weekly meeting of the Kiwanis Club on Monday by William Burns.

Despite the fact that there was almost continual rain, continued the report, the period was a success: one and the boys did little complaining although their outdoor activities were considerably curtailed.

The water was too cold for swimming, and as the result, only about half a dozen boys learned. However, many fishing, exploration and berry picking trips were taken. The boys have taken up first aid as a hobby, and there was much activity in track and field sports.

On Monday, July 19, the District Governor, Gerald Martineau, of Quebec City, along with Messrs. King, McDowell, Molesley, Burns and Rymer, paid an official visit to the camp.

The average gain in weight for each boy was four and eleven fifteenth

pounds. That gain was an increase of about a pound a boy over the last party at camp.

Mr. W. O. Langdon was to have spoken at the meeting but it was decided to hold his address over until another date. An estimate of the receipts of the Kiwanis Carnival was given by Jack Fulton but the net sum could hardly be arrived at as bills had not yet been turned into the club. From indications on Monday it appeared that the two nights of Carnival held this year in uncertain weather, would just better last year's one night held in fine weather.

Gordon Archibald will replace Bruce Millar on the Juvenile Court Committee. He will work with L. Fortis, Joseph Sullivan and J. T. Jackson, chairman.

In future when the Kiwanis meeting falls on a holiday it will be postponed until the following day. The decision was made by motion. Another resolution thanked the citizens of Timmins for their patronage of the Kiwanis Carnival. Members of the Christmas Cheer fund will be William Langdon, George Lake and William Rinn.

Sunday Accidents Hurt Timmins Youngsters

Gerald Stitt, 2, Injured in Rea Hill Crash and John Gauthier, 10 years old Receives Internal Injuries in Accident at Golden City.

Two children were seriously injured in accidents which occurred on Sunday, one on Rea Hill between Schumacher and South Porcupine and the other in Golden City. The injured boys are Gerald Stitt, aged 2, son of Mr. and Mrs. Stitt, of Timmins, and John Gauthier, aged 10, son of Mr. and Mrs. A. P. Gauthier, also of Timmins.

James Stitt, father of the injured boy, was driving toward Timmins. With him in the car were his wife and son. He intended to turn to the right near Rea Hill and came towards the centre of the road, although still on his own side, in order to do so.

Coming in the same direction behind the Stitt car was Valentin Paulim. He turned out to pass and crashed into the side of the automobile ahead of him. The Stitt car was thrown on its side and skidded along the road. The small boy was on the outside of the front seat. He was half thrown out of the shattered window and skidded along between the car and the ground. He was badly bruised, cut and abraded. After being treated in the hospital for severe lacerations he was allowed to be removed to his home yesterday.

In the second accident the ten-year-old Gauthier lad was hitch-hiking. He

was given a ride by Tony Woloschuck, who was driving out of Golden City toward Timmins. While they were still in the city the accident occurred.

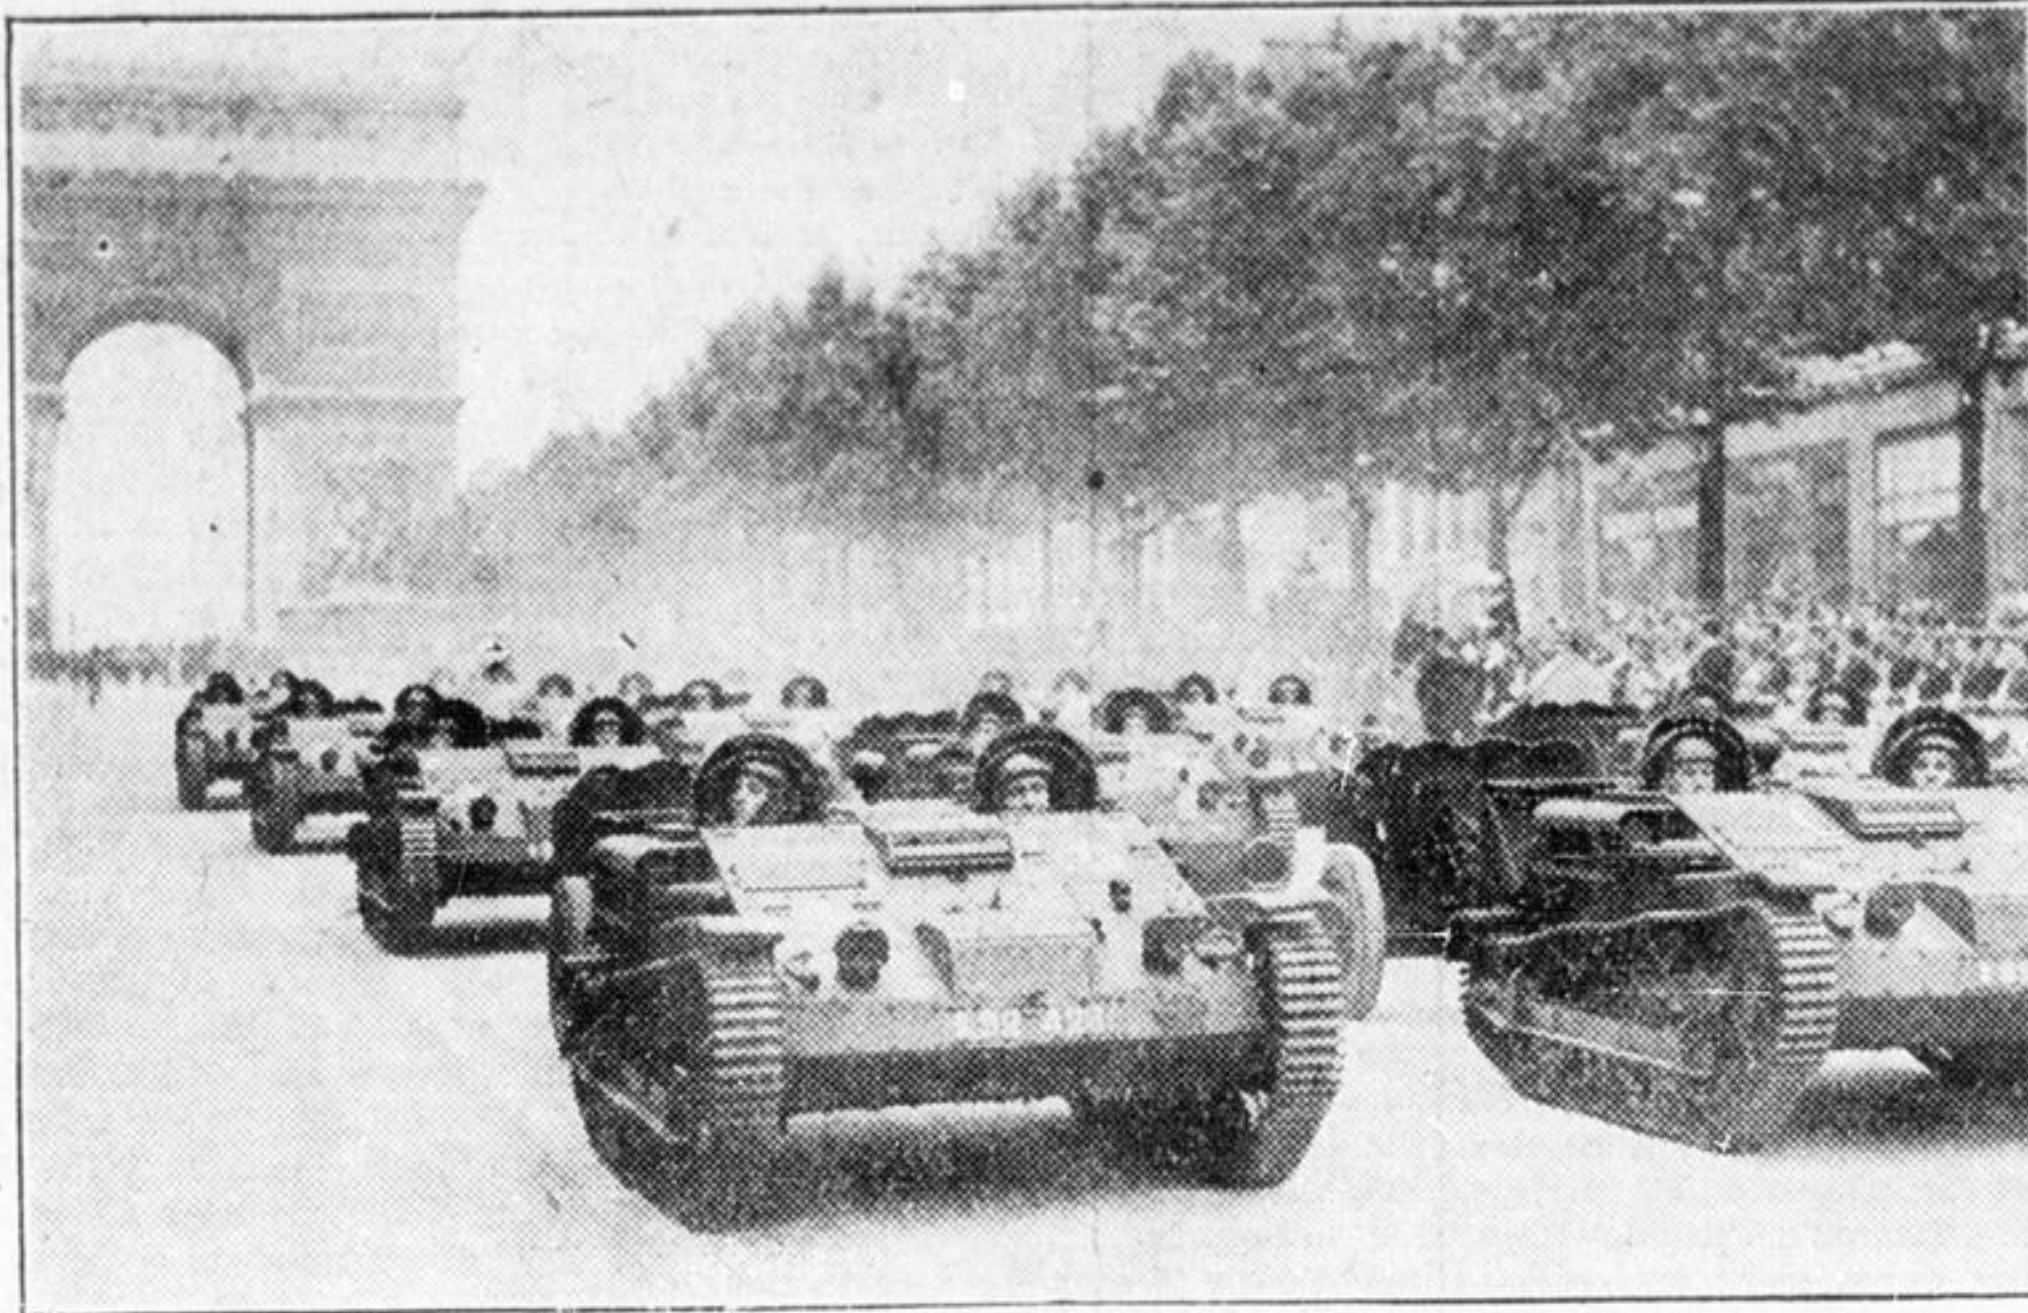

Woloschuck was driving on the left side of the road to avoid the dust raised by automobiles ahead of him, police said. His automobile crashed head-on into another driven by Charles Young. The small boy, in the rumble seat was given a blow hard enough to cause internal injuries and to break his arm. He is in St. Mary's hospital here.

The first accident was investigated by Tisdale Township and Timmins Provincial police, the second by Timmins Provincials and Whitney Township police. Charges are pending in both cases.

SECURELY ANCHORED

Stratford Beacon-Herald—A wife and eleven children were accepted as ample bail for a Montreal man appearing in court there on a charge of defrauding the relief commission of \$98. With a dozen good reasons for not running away, the learned judge probably reasoned that this family man was a perfectly good risk as a stay-at-home.

McIntyre Field Day One of Most Successful Yet

Big Crowd Enjoy Remarkable Programme of Sports, Athletics, Contests, Amusements, Baseball, Soccer, Mucking and Drilling Contests, Field Events Among the Special Features.

Fine weather, a varied programme of well run off events and many other factors all contributed on Monday to make the annual McIntyre Field Day one of the most successful ever held. Huge crowds thronged the athletic grounds all day long, where there was never an idle moment. Often two or three events were being run off at the same time.

Pestivities began early in the morning with the drilling contest. It was held on the foundations of the old mill just outside of the grounds. By noon there were more than a dozen new holes from four to five feet deep in the rock face to one side of the foundations.

At ten o'clock the soccer game got under way. The Old Country people turned out in good numbers to see England and Scotland play. Part of the track and field programme was also run off in the morning.

In the afternoon Margaret Eastman's pupils gave a dancing demonstration. Music was supplied by a piper. The Tisdale Township Band was in attendance at the park all during the day.

Mucking Contest a Big Feature
In the afternoon the mucking contest occupied part of the time and at 4:30 o'clock there was a baseball game.

The children were kept amused by clowns, who cavorted all day, by balloons and an abundance of ice cream and candy. Small serious heads of all colors could be seen everywhere busily engaged working their way through ice cream. If there were not some stomach aches in Schumacher, Timmins and district on the night of August 2 it was not the fault of many little children who did not care to see beyond the immediate pleasure of ice cream or candy.

Drilling Contest
The drilling contest was one of the most dramatic contests of the day. The drills started to thunder early in the morning and continued their staccato music until after noon. There were a good many contestants out after the \$100 first prize and all had to have their chance at the drills.

Couple of Accidents
York Williamson had some hard luck.

He got his finger caught in the exhaust of the machine he was using and it was badly gashed Norman Martison had a close call when his clothing got caught in the revolving steel bar. Martison was not hurt but he did an impromptu strip act. The steel ripped the shirt and trousers off him and left him standing in front of the large crowd in a state of near nudity.

Winner of Prizes

Winners of first prize of \$100 were William Saunders and L. McBain. They assembled their machinery and drilled five feet, two and five-eighths inches into the solid rock in four minutes. Second prize of \$50 was won by G. RaJaek and H. Cowden, who drilled four feet, eleven and five-eighths inches. Perkovitch and K. Kvachmeister drilled four feet, eleven and one-eighth inches to win third prize of \$25.

Fools and Forest Fires Featured Felicitously

"The season for fools and forest fires is here," says the Montreal Star. "A stretch of rainless, hot weather has left the forests across Canada like dry kindling, ready to send up roaring flames at a touch of fire. And so the fool has his chance. He can flick a match into a patch of grass as he walks by, and start a fire that will eat up scores of square miles of standing timber. He can toss a burning cigarette aside, and a little later the spruce trees around will be exploding with roars as the fire sweeps through the bush. Or he can leave smouldering ashes under the camp fire he thought was out, and wonder that evening where the cloud of smoke in the sky is coming from."

"The forest protection services in this province and in the rest of Canada have done tremendously valuable work in organizing means of fighting the menace of fire, and in educating the public. And, of course, many of the fires are set by nature and not by man. But people who go in or near the woods should try to train themselves to be ever more careful. When the stake is great stretches of Canada's timber land and probably homes and lives as well, nobody can overdo his precautions. In particular it is important to bring up children to do the safe thing automatically."

Lord Tweedsmuir Meets Santa Claus at the Circle

(From Toronto Globe)
What more delightful bit of foolery could be planned than the official meeting at the fringe of the Arctic Circle between Santa Claus and Governor-General Tweedsmuir, and Santa's solemnly-given permission to the traveller to proceed further into his special domain. The little skit was well acted, and revealed that in the Far North there are lively and imaginative souls.

To Decorate Graves Sunday Afternoon

Ex-Service Men Will March to Decorate Cenotaph and Then to Cemetery to Decorate Graves.

Sunday will be Decoration Day. All ex-service men, whether members of the Canadian Legion or not, are cordially invited to participate in the ceremonies connected with the day.

Ex-service men will march to the Cenotaph, where a wreath will be placed and from there to the cemetery where graves will be decorated with flags. The Canadian Legion plot has recently been put in good order and is marked with posts and chains.

There will be two bands in attendance, the Timmins Citizens' Band and the Porcupine District Pipe Band.

TAXES AHEAD OF FOOD

Edmonton Journal.—According to a report issued by the Twentieth Century Fund after a two-year study, the people of the United States now are paying more in taxes each year than they spend on food. The annual tax bill is said to be \$12,500,000,000, of which the Federal Government takes \$5,500,000,000, the States \$2,500,000,000 and local governing bodies \$4,500,000,000. The annual food bill is estimated at \$11,500,000,000 a year. The tax bill is more than double the annual clothing bill, estimated at six billion a year.

May Take Bartholomew From Motion Picture Work

A despatch from Hollywood, California, this week says that Miss Myllicent Bartholomew, dissatisfied with the refusal of the producers to increase the salary of her ward, Freddie Bartholomew, to \$2500 a week, has "practically" decided to take him out of the movies.

Miss Bartholomew said that unless the salary demand was met she would return to England with the boy star and place him in school. He now receives \$1100 weekly from Metro-Goldwyn-Mayer.

The studio appeared determined to stand on its last offer of \$2000 a week. Since that offer there have been no further negotiations, Miss Bartholomew said.

She said if the retirement step is taken, she and Freddie will go to Vancouver, B.C. to visit her brother and his namesake, Frederick Bartholomew, before sailing for England.

When originally disclosing that the screen's "Little Lord Fauntleroy" may give up film work, his aunt said he would return to his native land so he could "grow up like a normal boy."
