The inquiry into the death of James Horner, aged 23, who met with a fatal accident on Friday night last at Connaught Bridge is to take place in the council chambers, South Porcupine, on Friday of this week at 9 a.m.

The deceased, who was working at the Hallnor Mine, went with friends to a dance at Connaught. As they were returning the car in which they were travelling ran into a government truck and two of the occupants—a Finnish girl and Horner—were hurt. They were brought to the Tisdale hospital, and Horner, who had severe head wounds, died as they were entering the hospital.

The body was removed to Hunkin's Undertaking Parlours and shipped next day to Portage-du-Fort, near Shawville, for burial.

The new Recreation hall at the Dome in the same building as the new Dome offices, is almost ready for opening. It is a lovely large, air-conditioned hall—about 60 by 40 feet with modern up-to-date lighting, and two large cloak rooms—one for men and one for women, fitted up with every convenience.

Two billiard tables are installed and one for table tennis. The hall looks a first-class building, admirably suited for what it is intended to be, a hall where the Dome employees may go for rest, recreation and social enjoyment. A red light with telephone box is installed at four points in town—top of Railroad street, corner of Golden avenue and Moore street, Helmer Townsite, north corner of Cecil and Moore, and corner of Crawford street and Broadway.

When a night call is put in for the police, these lights flash on, and the policeman on his beat gets to the nearest phone for information.

All calls are connected with the Chief's residence.

The same system is installed in Schumacher.

that a hydrant would be installed, grew quite wrathful. He did his cause no good by voluble complaints that the council was not doing anything for the "working-men." They were favouring the aristocrats of the town, he said.

Another complaint he aired was the condition of the roads in his section of the town. Said Councillor Wren: "Do you know any town where the council starts building the roads from the outside of the town in? We are doing the best we can building them from the centre out."

A lady who spoke French at a high speed, and who used members of the council as interpreters, had a grievance. She complained of floods this summer which caused sewers to back up and damage her home.

When the council told her that they could do nothing for her as she and other residents had been warned when they started to build their houses that they might have trouble with floods, she went away angry.

United Church Ladies Aid Bazaar to be Held Nov. 27

The annual bazaar of the Ladies' Aid of the Timmins United Church has been for many years an event of especial interest and looked forward to with keenest attention by the increasing numbers who patronize it from year to year. It will accordingly be of general interest to all to note that the bazaar this year will be held on Saturday, Nov. 27th. This year's Ladies' Aid bazaar will have the usual features that have made it so popular for so many years, and in addition it is planned to have many new and original additions to increase the interest. The quality of the goods offered for sale at this bazaar makes the occasion one of special attraction, and many watch for the event with the particular purpose of securing fancy work or other articles that prove of special usefulness as Christmas gifts.

Pretty Detroit Bride Wore \$35,000 Wedding Gown

Recent issues of the Detroit newspapers have had many references to the marriage last month of Miss Betty Monaghan, a charming young Detroit belle, to Louis Colombo, Jr., solicitor of Detroit. The references and the many group and other photographs of the bride and groom and members of the bride and groom in view of the fact that the groom is a nephew of "Gene Colombo, manager of the Timmins theatres. Louis Colombo, Sr., brother of "Gene Colombo, is the solicitor for Henry Ford, who had special prominence recently on account of his success in coping with the C.I.O. Pictures of the bride featured in Detroit newspapers show her as a very charming young lady. One picture displays her in her wedding gown which the newspaper values at \$35,000, its beautiful trimmings of gold and silver and its striking adornment in the way of precious stones and gems making it one of the most costly of bridal gowns, but so rich in appearance as to justify the estimated cost.

Schumacher Y.P.A. Enjoy "Cook's" Tour

Delightful Evening Enjoyed by Young People of Trinity United Church.

With no other luggage but the clothes in which they sat, the Young People's Association of Trinity United Church, Schumacher, were whirled away on a veritable "Cooke's" Tour through tropical seas to the sunny Isle of Bermuda. They boarded the magic carpet Monday evening about eight o'clock, under the capable guidance of one of their members, Miss Gladys Cooke, (after whom, you will remember, these famous tours were named). For the better part of an hour, the young people played deck tennis, danced under a tropic moon with the ship's officers or charming fellow-passengers, as the case might be, visited crystal caves and perfume factories, luxuriated in beautiful salt-water swimming tanks, and finally returned safely with the enviable record of not a single case of mal de mer! (Various tested and reliable remedies and preventatives will be gladly furnished to any who may request them).

Following this delightful event, the members took sides for a friendly contest at shuffle-board in the true seagoing fashion, after which the stewards or rather, two of the young men present, served light refreshments on deck.

The evening was brought to a highly successful close with plans under way to extend a cordial invitation to the Young People of St. Matthew's Anglican Church, Timmins, to join them at their next meeting, Monday, October 18. An evening of fun and happy companionship is assured, and a large turn-out anticipated.

Pioneer Residents of Timmins Move to South

There will be very general regret here at the loss to the town from the departure of Mr. and Mrs. W. D. Watt, and their younger daughter, Miss Francis. Mr. and Mrs. Watt, who are among the pioneer residents of Timmins, recently sold their house and property on Tuke street to A. G. Luxton, another pioneer of Timmins and the North, who has recently been residing in northwestern Quebec. Mr. and Mrs. Luxton and family moved into their new home some days ago and have added a small store building to the property. Mr. Watt returned last week to Larder Lake where he is on the staff of the Martin-Bird Mine, while Mrs. Watt and Francis left on Sunday for Toronto where the family will have their home in future. Miss Jessie Watt is remaining in Timmins for the present. Mr. and Mrs. Watt in their long residence in town have made many friends, having been active in church, fraternal and other circles. Both Mr. and Mrs. Watt were prominent officials of the Caledonian Society here and in more recent years were active in establishing the Sons of Scotland Group in Timmins. Mrs. Watt was a prominent worker in the I.O.D.E. and held various important offices in the local Chapter of the Order.
