Suggests Building Health Aristocracy

Overeating More Harmful then Alcohol or Tobacco, Says Noted Doctor.

(By J. W. S. McCullough, M.D., D.P.H.) At a banquet of the People's League of Health, in London, England, the Bishop of London, by the way a Can- the "19th hole" adian, presented himself as an example of abundant health. As he said, "at 79 he was doing the work he had done at 29 and rather better." He ascribed his good condition to four simple rules: no tobacco, no alcohol, moderation in eating and regular exercise.

Health aristocracy is red-blooded. It is who struck luck in the Irish sweepcharacterized by physical, mental and stakes when asked what they would of Mrs. Thomas Hobin, who died Wed- ist".
