Stumbling through two periods of weird hockey, if such a term could be used to describe what was dished up, Coniaurum Flyers went out in the third period of a scheduled Mines League game here Thursday night and swarmed all over Pamour Dynamiters to win out 7-5. The last period was the only saving grace of the entire evening. At the end of the second period Pamour were leading 4-2 but a five-goal onslaught by the Flyers in the last period drove Pamour into a disordered retreat. as one printer said, "we can't-and

The first two periods produced the most ragged display of hockey seen here this winter. Everyone wanted the puck at the same time. Every player on the ice seemed to have a brain trust complex that prompted him that he was the only person on the icc rivals. that could handle the disc satisfactorily. From the standpoint of the spectators, both teams looked like a couple of high school squads, keen and fast but having little or no knowledge of the recognized rudinents of the with a bigger handicap, but a couple of game. Allegedly both clubs are well coached but from the exhibition they showed Thursday night their coaches must have added considerably to their ever-increasing gray hairs. The difficulty may lie in the fact that the teams are top heavy with stars, and any coach with this trouble on his hands. is deserving of every sympathy.

The same trouble exists to a greater or lesser degree in all the teams in the league. Where they learned their style of hockey is unknown but to say the least the cash customers have been consistently baffled by the unorthodox style of hockey as seen in these parts recently. The first essential of any team is for the players to play their positions but in this league the idea seems to be to play everyone else's but your own. Hockey, like any other just couldn't shake the jinx. game, is just as good as the players make it and vice versa.

Sufficient to say of the first two periods is the fact that Pamour were leading 4-2 when the final twenty minutes was started. Conjaurum, with their backs to the wall, lashed out with everything they had and before five minutes had elapsed Joe McNulty had scored twice to tie the score, assists going to Dundas and Evans. After twelve minutes of play Dundas and Kerr combined for a nice goal on a fast-passing combination play, while three minutes later Jack Young put Coniaurum two goals up. Joe McNulty had been through alone with no one to beat but Bentley came cut and robbed him of a sure goal. In a scramble that ensued Young picked up a loose puck and flipped it past Bent'ey "Shorty" Harmon, who plays left wing for Pamour and skates miles, fast ones at that, had been close to scoring a number of times and finally took Tracey's pass to score from close in and cut the lead held by Conjaurum to one. Just before the game ended Dixor sccred the last goal of the night for Coniaurum, Young and Neddow getting assists on the play.

Schumacher took the lead after five minutes of play when Luchen went through on a solo to score. In as many minutes Joneas took the disc down and put over a perfect pass to Hongisto who bulged the twine to tie it up. Schumacher went ahead again on a combined effort of Luchen and Smith, the latter making the score.

The second period was wide open hockey and fast, with both goalies the cops having the better of the exchanges, and it looked as though there a handicap of a departed player, so would be no score. With three minutes the game went to the fruitiers and left of the period, Alex and Mike Kalenchuk got a break and Mike netted his brother's pass to tie it up again.

In the third stanza, the cops put on the pressure and kept the play in the Schumacher territory with their fine back-checking. Tuxis vs Cubs

This game started out fast, but neither team could split the defence. The Tuxis were the first to get a shot on goal, when Hornby sent in an ankle high shot from the boards on Baker's pass, but the rubber hit the post. A couple of minutes later he did the same thing on a pass from Lake.

The first counter for the Cubs came on a combined effort of Miller and Mongeon, Miller skated into the corner and passed the disc to Mongeon who was standing in the crease. This goal should not have been allowed, but Dunn's protest went unheeded.

The Tuxis tried hard to even things, and Black was nearly successful with a high shot which Watts cleared, Black tore in for a possible rebound.

The second game was marred by poor refereeing and the Cubs took advantage of it.

The Cubs are a fine aggregation, fast combine well and know just what to do with the rubber when they get it, and there was no need to rough it up.

The Tuxis boys played good hockey until the third period, when they got fed up with the rough stuff and started handing it back. They were unlucky with their shots on goal and should have had at least three goals. On the
