Absolves Local Station of Any Blame in Matter

Timmins, Ont., Jan. 31st, 1938

The Editor of The Porcupine Advance, Timmins.

Dear Sir:—A misunderstanding has occurred as a result of an article in your issue of Jan. 24th in which the statement was made that the Timmins Citizens Band was crowded off the air. In order to absolve our local station CKGB who in the past have always

PROPERTIES FOR SALE

FOR SALE—Newly built apartment house showing good returns on investment. Apply Sullivan & Newton, Insurance and Real Estate. -7-8-11

MINERS, PROSPECTORS, Find Gold, Silver, all metals, with scientific instrument. Particulars, Gold-o-Meter Magnetite Ltd., 219 Sherbrooke St. East, Montreal, Quebec. -10-12-14

co-operated 100 per cent. in making our broadcasts possible. I felt an explanation was necessary.

Now that our local station is carrying so many of the CBC's national advertising hook-ups, they are more or less subject to dictation in regard to time allotment to the CBC's own sustaining programmes. In this particular case when we were forced to relinquish our band broadcast, all arrangements had been made with our local station CKGB. During the afternoon of the same day as we were to broadcast a telegram was received from the CBC taking that particular time which had been allotted to us and further stating that these times could only be changed by giving the CBC four weeks notice.

I feel sure you would like to know the real facts of the case in order that our many friends would understand the cancellation.

Thanking you in anticipation Yours very truly,
F. J. Wolno, Bandmaster,
Timmins Citizens Band.

Globe and Mail:—A Winnipeg youth is said to be grave-digging his way through college. It might help him also when it comes to bonin for examinations.

CARD OF THANKS

Mr. and Mrs. Jas. Brown and family desire to express their sincere thanks to their many friends and neighbours for their kindness and expressions of sympathy during their recent bereavement. -10p

Snowfall For January Sets All-Time Record

Total of Four Feet and Eleven Inches Recorded for Past Month According to Report of S. C. Wheeler, of Hollinger Observatory. 27 Below on January 17th, is Coldest Day.

Establishing an all-time record for January or any other month, four feet and eleven inches of snow fell in Timmins during January, according to the official weather report for the month, issued by Sydney C. Wheeler weather observer at Hollinger meteorological office.

Mr. Wheeler is inclined to disbelieve a claim by several old timers that a worse storm took place here just twenty years ago that eclipsed the 30-inch fall from 10 a.m. on January 23 to 9 p.m. on the 24th. "I think that it will want a lot of delving into old time memories before it is beaten as a record" the report adds.

Considerable interference in telegraphic, telephone and radio communication as the result of sun spots and the aurora borealis was noted, being greatest from January 15 to 20. The lowest temperature recorded during the month was on January 17 when the thermometer was 9.7 degrees below zero, almost three degrees below the average of the last ten years which is 6.8 degrees below.

The complete report for the month appears below:

Minimum Temperature
The lowest temperature recorded over the past month was on the 17th when the thermometer registered 27 below zero. This was also the coldest day of the month with a MAXIMUM temperature of 8 below zero, and a MEAN temperature for the day of 17.5 degrees below zero.

There were 6 days with the minimum temperatures above zero and the remaining 25 days were all below zero. The mean minimum temperature over the month was 9.7 degrees below zero and, as an average over 10 years is 6.8 degrees below zero, the minimum has been lower than average.

The mean temperature over the month was 3 degrees below zero, and although a little colder than an average over 10 years is not as cold as last year.

Maximum Temperatures
The highest temperature recorded over the past month was 39 degrees on the 23 with 35 degrees on the 24th running it close second. The 24th was the warmest day of the month with a minimum of 39 degrees and a mean temperature for the day of 32.5 degrees.

The lowest high temperature was on the 31st and 27th with a maximum for the day of 11 below zero on both days. The mean maximum temperature over the month was 9.0 degrees. There were 2 days only with the maximum over 32 degrees and there were 9 days with the maximum below zero.

Precipitation
Snow fell on 17 days during the month with a total snowfall of 4' 11". This is a record for all time so far as is officially known. The next highest being in February 1924 with a snowfall of 4'-9" according to our records.

The storm of the 24th and 25th with a total snowfall of 30" is a record for any single snowfall over a similar period.

The only rainfall observed during the month was on the 25th when some sleet was mixed with the snow during the early morning hours.

The total precipitation of water, including rain, sleet and snow equalled practically 6 inches, also of course a winter record.

The Weather Generally
Although, as noted in temperature reports, the past month has been colder than average, temperatures have generally been about normal and sub-zero weather, together with cold winds, are always to be expected during January and February. One point worth noting is that we did not get a January thaw this year, which is something out of the ordinary. Sometime during January it is usual to get a few exceptionally warm days and also some rain, but during the past month the only rain was in the form of a slight amount of sleet on the early morning of the 25th but there was no actual rainfall. Also, although the maximum temperature on two days, the 23rd and 24th, went above 32 degrees it failed to stay warm enough to thaw, excepting on the roofs of buildings for a few hours, and in places exposed to the sun and out of the wind.

Snowfall, as noted is a record, for any January, and also a record for any month so far as official records go, and in spite of what old-timers say about a certain snowfall in 1918, I imagine that conditions of transport in those days, and the lack of facilities and labour for clearing the streets of snow, really made conditions appear worse than what they really were, but a snowfall of 30 inches from 10 a.m. on the 34rd to 9 p.m. on the 24th is quite a snowstorm and will I think want a lot of delving into old time memories before it is beaten as a record. The total snowfall for the month of 4 ft. 11 ins., or very nearly 6" of water, is quite a problem for the Town Engineer's department to handle in addition to the officials of the various mine properties to clear roads and keep transportation moving. It must have cost a lot of money both to the town and to the mines.

A notable phenomenon over the past January has been the electrical disturbances in the atmosphere, due to sun spots and the Aurora Borealis. From the 11th of the month to the 15th the interference was quite noticeable and from the 15th to the 18th or the 20th was at its maximum; it was almost impossible to get good radio reception over the period of the 16th to the 24th or 25th, and local, continental, and transatlantic communications were completely disrupted on several occasions. The amount of sunshine over the

month has been quite normal and a total sunshine of 130 hours, gave us an average of just about 4 1/4 hours per day over the 31 days. There were 10 days totally overcast and without any sunshine and 6 days with the skies all clear and the full amount of sunshine, 8 hrs. The remaining 15 days were partly cloudy or overcast skies during part of the day.

At the first of February the sun rises at 7.30 a.m. and sets at 5.00 p.m. and will very slowly increase during the month, the hours of daylight at about the rate of one minute each day till the end of February.

Lighting-up time for vehicles should be not later than 6 p.m. or sooner, if visibility is poor.

On the 31st of January a new moon will appear which will be at the Full on the 14th of February.

Sydney C. Wheeler,
Weather Observer.

Meeting of Nurses to be Held Tuesday, Feb. 15th

A meeting of the R.N.A.O. will be held in St. Mary's hospital, Timmins, on Tuesday evening, February 15th, at 8 p.m. One of the chief features of the evening will be a discussion on Nurse Education. All nurses are invited to be there. The date—Tuesday, February 15th, 1938.

Big Fleet of General Motors Buses and Cars

(From Automotive World)

There are few people in the mining country—especially in Timmins and vicinity—who have not heard of John Dalton. One of the pioneers of that area, Mr. Dalton has been engaged in the taxi and bus business since 1909, and has fifty employees on his payroll at the present time. A native of Godfrich, Ont., he is married and has one son. His keen business acumen is reflected in the steady growth of his lively enterprise. Mr. Dalton's fleet includes 26 buses, 21 being GMC, while he has also 15 Oldsmobiles. Only recently he purchased three new GMC units from Marshall-Ecclestone, General Motors dealer at Timmins.

Japanese Given the Cold Shoulder in London Club

(From The Ottawa Journal's London, England, Bureau)

There is a pathetic story going the rounds in London's clubland at the moment. A golf club somewhere in the suburbs has on its membership list three or four Japanese, who are feeling the iciest of cold-shoulders as the result of the behaviour of their power-that-be in China. The latest report has it that they are compelled to play by themselves, a covey of strangers now bored to death with each others form.

This casual treatment of the Japanese is a profound mistake, and I do not believe for a minute that it represents the attitude of all clubs that have Tokio men in their midst. It is, of course, elementary to point out that foreign nationals in this country's actions, and it is regrettable, and a little distressing that anything should be done to make them feel uncomfortable.

But this golf camaraderie has queer results "We met General Franco," said an M.P. after a visit to Spain. "He is a nice man. He is a keen golfer, with a handicap of two."

Sudbury Star:—By the way, did you hear about the Sudburian who always goes to Toronto to have his teeth attended to. He contends that it's not safe to open your mouth in this town.

Fingerprint Specialist

Constable G. A. Archambault Timmins for some time past has had a complete system and equipment for taking fingerprints and photographs in connection with its police work. The department is in charge of Constable Archambault who has made it of very decided value and advantage in the work of the police here. (Advance Engraving Dept.)

Why Westinghouse Washer Sales Have Increased 130% Is An Interesting Story

It is positively the finest finished, closest precision-built Washer. It will wash clothes faster with less damage to fabrics. Requires no oiling, is rust-proof and sells as low as \$79.50, or on our Budget Plan \$7.95 down—\$4.50 per month.

LOCALS

Miss Jeanette Neill, of Hamilton, was a visitor to Timmins this week.

Treat your credit as a sacred trust. It pays to pay promptly. -83-841f

Rev. W. M. Mustard is spending the week in Toronto, and will return on Saturday.

Mr. Chas. Jarrett, of the Argyle Flower Shop, left on Tuesday for Toronto.

Mrs. Andy Cangiano who has been quite ill at St. Mary's hospital, is reported as being much better to-day and getting along very well.

Mrs. A. J. Shragge left on Sunday to spend an extended holiday in California.

Mr. and Mrs. James R. Simpson, of Toronto, were the guests this week of friends in Timmins.

Miss May Sullivan, of the T. Eaton Co., Toronto, is visiting relatives and friends in town.

Mr. and Mrs. Fred Curtis arrived back in Timmins on the Tuesday night train from a very enjoyable Christmas holiday in Cardiff, Wales.

Mr. J. E. Sullivan, of the firm of Sullivan and Newton left on the early afternoon train to-day to spend about a month's holiday in Florida.

Mrs. A. Shaheen was operated upon for tumor and appendicitis at St. Mary's hospital a few days ago, and to-day her friends will be glad to know that she is making excellent recovery.

Mr. Ed Leslie who has been holidaying in Toronto returned to town this week. On the return trip Mr. Leslie stopped off in Gravenhurst and spent the day with Mr. Maynard Raycroft in the sanitarium.

The usual inquest customary in the case of deaths from mining accidents will be held at the St. John Ambulance hall to-morrow (Friday) in connection with the death on Thursday morning last of Donald Gordon Fraser, following his injury by a fall of loose rock at the Hollinger Mine.

Blairstown Enterprise: Home is where we are treated best and grumble most.

Salvation Army Brought Joy to Settler's Family

Last week Adjutant Cornthwaite made appeal through The Advance for clothing needed for a settler's family north of Porquis Junction. The response, as usual, was prompt and generous and a big box containing groceries as well as clothing was sent to the worthy people who had happened upon ill-fortune. Adjutant and Mrs. Cornthwaite express sincere appreciation and thanks for the kindly response given to the appeal. "The people of Timmins are always kind and generous," said Adjutant Cornthwaite.

From the family aided, there also came a sincere letter of thanks. In the mother's letter to Mrs. Cornthwaite there are touches of humour as well as of pathos. "When we opened the boxes and started taking out the clothes," says the letter, "one of the boys exclaimed: 'This is better than Christmas!'"

When the smallest youngsters in the family was fitted out in some of the clothing sent—the child insisted on going outside to play—the first time the youngster was able to go beyond the house because of a lack of the necessary warm clothes and shoes.

High-Grade Samples from Week's Run of the Press

St. Mary's Journal-Argus:—Noisy soup-imbiber (in restaurant as neighbour turns around)—"Watcher looking at?" The Other: "Sorry! I thought you'd fallen in."

Powassan News:—The mills of the gods grind slow. And that's also the way the old head works when you're trying to think up a snappy retort to somebody's wisecrack.

North Bay Nugget: Insofar as action by the Hepburn government is concerned, developments proposed for Northern Ontario are definitely "off the records."

Toronto Globe and Mail: It is maintained by most psychologists that as many women as men can fairly be described as being out-spoken.

Judge: The Indians used to broadcast messages by holding a wet blanket over a fire. Now we have radio, and the wet blankets talk in person.

North Bay Nugget: Jones (meeting an old friend on the train): "If you ever come within a mile of my house, I hope you'll stay there all night!"
