

MONTGOMERY IS A CRANK! Yes he's certainly a crank when it comes to cleaning and pressing clothes. Nothing but the best work is good enough for him. His critical inspection of all work assures you complete satisfaction. And because he is so fussy about his work you need not worry at all about sending him your finest things for cleaning and pressing.

Kirkland Man Given Two Years Less Day Sentenced for Falsifying Books of Separate School, \$13,000 Involved

Kirkland Lake, Feb. 5.—(Special to The Advance)—Two years less one day in the common jail was the sentence passed by Magistrate S. Atkinson in police court Thursday on J. V. Trudel, former separate school treasurer, who pleaded guilty to a charge of falsifying books. The entries falsified by Trudel amounted to a few cents more than \$13,000.

Musical Treat at Event Here Tuesday

(Continued from Page One) Introduction to the people of Timmins. She was the accompanist at the concert here last year when the noted Russian violinist, Adolph L. Koidofsky, and the Canadian contralto, Miss Jean Chown, were the artists on the programme. At that event Gwendolyn Williams made a very decided hit by her charming personality.

Counsel Makes Appeal

An eloquent appeal for "as short a sentence as possible" was put forward by the counsel for the defence, Albert St. Aubin. In a moving appeal, he set for the good character of his client, and the unfortunate happenings which had befallen him in the past few years.

Fire at South Porcupine Store Soon Extinguished

Firamen Given Pleasing Appreciation for Good Work. Pleasant Students' Night at High School. Education Week at the Dome. Valentine Tea by A.Y.P.A. Other South Porcupine and Dome News

South Porcupine, Feb. 5th, 1933.—(Special to The Advance)—A fire alarm sounded during the court session on Tuesday morning, somewhat disturbing proceedings, as the fire hall is so close. The response was immediate, the call coming from the Porcupine Hardware store on Golden avenue. They found smoke coming from underneath the floor where an employee had essayed to thaw out some frozen water pipes.

as usual, and past work on display. For Wednesday afternoon special programmes will be presented in grades 3 and 4. On Thursday Grades 2 and 5 and 6 will be in the limelight, while on Friday Grades 7 and 8—seniors are taking charge of their own programme and staging particularly a debate which will be judged by visitors present.

The Valentine tea staged by the A.Y.P.A. in the parish hall to-day (Saturday) was a bright and cheerful affair with decorated tea tables, nice food and excellent service. Under the supervision of Misses Wilkins, Woodall and Jones, and Messrs. D. and G. Lee and G. Ross the tea was a success.

Students' Night at the High School on Friday was marked by a fast and evenly matched game of basketball between ex-students who practise under the tuition of Miss Lucas, and the regular High School team of girls. The ex-students came off victorious with a 30-24 score but it was a closely contested game.

We spoke in the last issue of Education Week, mentioning the special programmes and work offered by our South Porcupine public school. To-day we are asked to mention the work the Dome School is doing next week. Invitations have been sent to parents, telling that the school will be open for inspection anytime during the week.

Keep Off! United States Stations on!

Comment by Newspaper on Cartoon in Financial Post

(From Bowmanville Statesman) "Hello Canada! This is Uncle Sam speaking to you over your own national hook-up." These words appear below a clever and timely cartoon, in the Financial Post, of Uncle Sam speaking over a CBC microphone. Outside of the glass encased studio may be seen the figures of Canadian speakers, educationists, musicians and other artists who have been forced from the Canadian airlines, and manager Gladstone Murray of the Canadian Broadcasting Corporation, pointing a finger at them to be quiet while Uncle Sam is speaking.

Few people realize the extent to which the Corporation has sold out to American interests. Nearest to local people is the new commission station CBL which replaced the Bowmanville station CRCT. R. A. Farquarson of The Financial Post made a survey and found out that CBL features American originated programmes for 44.3% of its time on the air. It reaches the peak on Saturdays when 53.1% of the time is taken up with American programmes, and the low point is reached on Sunday when 37% of the time is given over to the American programmes.

At the time of the Royal Commission, headed by Sir John Aird, was investigating radio, evidence was presented from all parts of Canada of the growing danger of Americanization of Canadian speech, Canadian manners, and the Corporation was brought into being to offset this United States penetration. Now we find the Corporation actually selling 43 per cent. of its time to these same interests.

About the only way one can tell a Canadian station now is to hear the National Anthem, and even that is no sure proof for it might as well be "My Country 'Tis of Thee" that is being played to the same tune. Canadians are now forced to get dressed to American music, breakfast to an American orchestra, listen to the latest news and official time from Washington and by 10:30 a.m. the good housewife is supposed to be ready to learn how to bring up her children in the American way.

Week ago Saturday C.B.L. featured a solid block of American programmes extending from nearly morning until noon, and heaven knows how many of the records played, as sustaining features, were made in the United States. The Corporation has seemingly ignored the fact that many Canadians can tune in to American stations just as easily as they can Canadian stations, and that if they do desire they can listen to American programmes without paying the Corporation a \$2.50 license for them to subsidize these programmes at the expense of programmes originating in Canada over independent stations.

The National Broadcasting Company in an announcement of its "Canadian Supplementary Facilities" boasts of the way it has secured coverage over Canadian stations. The C.B.C. claims it cannot afford to compete with American programmes and so throws its hands in the air and decides to do the next best thing, turn the Canadian air over to Americans and reap enough income to offset the deficit. The Corporation forgets that Canadian newspapers and magazines are faced with similar competition from imported American magazines, but the fighting, loyal Canadian publishers face this opposition and gain strength in the struggle to present Canadian ideas and ideals.

Slot Machine is Seized by Police

Week-end Brings Three Serious Charges for Violation of L. C. A.

Chief Leo H. Gagnon and Inspector A. M. Olson, seized a slot machine in a store at 315 Pine street south, at 11:15 this morning, in the course of a police raid. The store is operated by Frank Marsorin and is located in the part of the town recently annexed from Tisdale township, where slot machines are operated under licence. Marsorin will face a charge in police court on Tuesday.

Police had a busy week-end and in addition to a number of drunk charges, three other charges have been laid for more serious infractions of the L.C.A. Tony Krazz, a roomer at 111 Elm street north, is charged with illegal possession, the premises having been declared a public place some time ago by Magistrate Atkinson. Arnold Chabot, 60 Avenue Road, is charged with keeping for sale following a raid by police early Sunday morning. A charge of vagrancy was laid against Yvette Lalonde, of 7 Wilson avenue. Joseph Cecchini, 109 Laddlaw street, was arrested at 4:10 a.m. to-day and was charged with being drunk in charge of a car. Albano Andriagnetti, who was with Cecchini at the time, is charged with disorderly conduct. He is alleged to have used abusive language to the officer who arrested his companion. A juvenile has also been charged with breaking, entering and theft of \$12 in cash on January 30 from the Workers' Co-operative Bakery.

Schumacher High School Concert will Please All

Three-Act Swiss Musical Comedy, "Green Cheese," a Special Feature. Miss Vieno Kautto, Miss Katherine Phyllis, Earle Cavanagh and Bill Gilbert Among Outstanding Singers

With the date of the annual concert of Schumacher High School set for this Friday, February 11, at 8 p.m., all is busting activity around the Schumacher High School these days. Every available minute—before classes, during the noon hour, and after four o'clock—is being used in rehearsal. Songs, dances, dialogue and action—all have their appointed times, and indications are that this year's effort will prove much superior to that of any previous year.

Fire Damages Plant of Gambles at Rouyn

Serious Loss Through Fire Last Week

Noranda, Feb. 5.—Fire of unknown origin broke out in the large warehouse building of Gamble-Robinson, Ltd., on Ninth street Wednesday night, doing considerable damage to the building, especially the top floor, and destroying huge quantities of merchandise. The roof was completely demolished. The fire was discovered at 7:30 p.m. while several of the staff, it is understood, were engaged in checking over the stock. Smoke was noticed coming from the lower part of the building and suddenly flames shot up the elevator shaft, reaching the top floor where extensive stocks of toilet and tissue paper were kept. The flames were soon through the roof, 20 feet high, with both the Noranda town fire brigade and that of the Noranda Mine fighting the blaze with streams of water from seven lines of hose. The upper part of the building was impenetrable through dense smoke.

Is Beaten Back Chief Ernie McCormick endeavoured to force his way between the stacks of merchandise on the top floor but had to retreat from the fumes, so that it meant dousing the fire in the upper part from the outside. The brigades were still playing water on the building well past midnight with their waterprofs stiffened with ice as the spray from the hose settled on them. Everything froze solid with the forming ice cementing the hose and other equipment to whatever it touched. There was, however, a retreat close by for the firemen to get thawed out, the home of R. Eder, where in relays as they could be spared the men obtained warmth and a drink of coffee. The George Taylor Hardware building next to that of Gamble-Robinson was untouched, in fact the fire was completely confined to the one building. Firemen were on guard all night patrolling the interior with flashlights to watch for any further outbreak. While quantities of the stock became water-soaked it is believed a fair amount can be salvaged. Little is left of the roof though the machine house on top of the building did not collapse, but is leaning at an angle of 45 degrees. The cellar of the building which has an area of 3500 square feet, had several feet of water in it the following morning with much of the stock submerged. No estimate could be obtained last week from Manager Eddie Bull as to the extent of damage to building and merchandise in dollars and cents, but it might approach the \$10,000 mark.
