

### Bilingual Inscription on Hall Discussed

(Continued from Page One)  
Request Grant  
St. John Ambulance Association communicated with Council asking for a

grant to assist them in their work here. It was referred to the finance committee.

Later in the proceedings a resolution was passed to the effect that any requests for grants must be accompanied by the financial statement of the organization for the previous year before any consideration will be given.

### Sidewalks, Sewers

Two residents appeared before Council, one asking that at least a temporary sidewalk be provided for the North end of Tamarack street for the convenience of four families and the other that sewer accommodation be made for Cameron street north. Both were referred to the public works and engineers departments.

### Clean-up Campaign

The Timmins Kiwanis Club wrote to inform council that they would be most willing to co-operate with the town and other organizations in a Spring clean-up campaign. This question was referred to the chairman of the public works department.

### Progress Estimates

The architect P. J. O'Gorman, advised Council that work is rapidly nearing completion on the new Town Hall with some outdoor work which can not be finished until warm weather. Council authorized the payment of \$4,400 to the general contractors, Hill-Clark-Francis, and \$300 to the architect.

### Seeks Report

Councillor Wren inquired from Council if any report had been received regarding the condition of Sylvester East, who had been sent to a clinic in Southern Ontario for an examination following the refusal of the Compensation Board to indemnify him for silicosis. The Board contended that the man was suffering from tuberculosis and not silicosis. The relief department were asked to make the necessary inquiries and report back to Council.

### Town Hall Fountain

Authority was granted for the installation of a drinking fountain inside the main entrance of the new Town Hall on the first floor.

### Ropes from Crowds

The heads of the fire and police departments were instructed to get together and make arrangements for the purchase of ropes to handle crowds during downtown fires. It was suggested that the ropes could be carried on the ladder truck which is sent to all fires in the downtown area where large crowds gather in the event of a blaze of any proportions.

### Lifesaving Boat

The matter of providing boats at the Mattagami River and Gillies Lake for life saving purposes was left in the hands of the fire and light committee for consideration.

### Kirkland Contest Brings 225 Songs

Winner to Receive \$150. Song to be Sung at C. I. M. M. Convention Next Week.

As noted on more than one recent occasion in The Advance, Kirkland Lake has been calling for a theme song—a song about Kirkland—a song that will fill the same need for Kirkland Lake that "The Best Old Town I Know" does for Cobalt, or that the "Porcupine Song" does for this camp. In the hopes of securing the "Kirkland Lake Song", The Northern News, of Kirkland Lake, and The Northern Miner combined together with an offer of \$150 for the poet who could do the trick. The result of the publicity given the contest idea was that on the closing date—Monday of this week—no less than 225 Kirkland Lake songs had been submitted. Of this number it is understood that there are several from Timmins and district, presumably from former Kirkland Lake people. One entry, according to an item in The Northern News this week, was sent down to Kirkland from Timmins by special messenger. This shows the serious interest taken by many in the hope of assuring a good theme song for the Lake Shore town. The songs submitted are said to be from all sections of the province, with an extra special amount of answers from various sections of the North. The judges certainly have a very serious and difficult piece of work before them in selecting the winner from the 225 songs submitted. The judging committee includes the following Kirkland Lake people:—Mrs. A. L. Blomfield, Mrs. A. Boyd, Mrs. W. C. Rumball, M. W. Hotchkiss, R. L. Healy, C. Earl Rodgers, Archie Howes and Bob Bryce. The judges expect to complete their cnerous work of picking the winning contestant. Before they read any particular number of the poems they believed that they would be able to finish the judging by Friday of this week. If they are unable to do so, no one will blame them very much, for 225 poems constitute a very large number in anyone's language.

The winning entry in the contest will be announced formally at the Canadian Institute of Mining and Metallurgy convention to be held at Toronto next week. The selected theme song will also be officially sung at that gathering.

### Porcupine Camp Will be Represented

(Continued from Page One)  
James W. Doherty, mine superintendent at Hollinger, is representing the Porcupine branch on the reception committee appointed for the occasion. Those who have signified their intention of attending from here are as follows:—

### To Demand Cancer Remedy Formulas

### Minister of Health Submits Bill to Probe Treatments

Toronto, March 9.—Legislation which would compel revelation of the formula and details of cancer treatments was proposed to the Ontario Legislature yesterday by Hon. Harold Kirby, Minister of Health, as he introduced a measure which will create a commission to investigate cancer treatment. Sweeping powers to inquire into any sort of treatment of the dread disease are provided in the legislation which Mr. Kirby submitted to the House. A major clause provides that "any person who advertises, offers for sale, holds out, distributes, sells or administers, either free of charge or for gain, hire or hope of reward, any substance or method of treatment as a remedy for cancer may be required by the commission to submit samples of such substance or a description of such treatment."

The proposed legislation also includes a provision that the commission may also require submission of a description of the treatment together with the formula of the substance employed in the treatment.

### List of Penalties

For violation of this provision penalties of not less than \$100 and not more than \$500 and, in default of payment of the fine, a prison sentence of not more than 30 days. A second subsequent offense carries a penalty of a fine of not less than \$500 and not exceeding \$2500 and in default of payment, a prison sentence of not more than six months.

However, for the protection of those who submit cancer remedies for investigation by the Commission, the bill also provides that "the Commission shall not divulge any information relating to the composition or formula of any substance received by it."

The Commission would be required to

make a finding as to the "value and merit" of any remedy which it investigated.

The proposed legislation is intended to permit investigation of such cancer remedies as those sponsored by Dr. J. E. Hett, of Kitchener, and Miss Rene M. Caisse, of Bracebridge, both of whom have, before the House, private bills which would give them the right to practise their treatments.

### M.O.H. Age Limit

Dr. Hett has already refused to divulge his formula to the Medical Council, but under the legislation which Mr. Kirby proposes he could be forced to make a revelation to the commission.

Ferrellson of the commission has not yet been decided, Mr. Kirby has indicated. The members will be appointed by order-in-Council.

Another amendment proposed by Mr. Kirby would provide that a municipal medical officer of health must retire at the age of 70 years except where his continuation in office was particularly requested by the municipal council and local board of health. In that case the bill provides that he will hold his post until he attains 75 years.

Another amendment proposes to give medical officers of health power to restrict the movements of persons who are suspected of being "disease carriers." If, as the result of quarantine, they are deprived of employment, the Provincial Health Department is empowered to compensate them.

New York Times:—A large body of American slang and grammatical error is always in circulation, having little or no meaning to British ears. The same will be true of British slang and uneducated usage in American ears. If these two vocabularies on either side of the Atlantic maintained themselves, and multiplied, and steadily drove from the market the English words and forms which the two nations have long held in common, it is obvious that in the course of time there would arise an American language and a British language.

### Canadian-Born Peer's Romance

Viscount and Viscountess Greenwood, on the spot at the Constant Spring hotel, Jamaica, B.W.I., where they first met 31 years ago. In the picture (left to right) are Viscountess Greenwood, F. H. Robertson, Chairman of the Jamaica Tourist Trade Development Board, who greeted the peer and his wife, Henry Hewer, manager of the Constant Spring hotel, and Viscount Greenwood who, it will be recalled, was born in Whitby, Ont., and graduated from the University of Toronto.
