

# Neat New Compact Case is Also used as Whisk Broom

Neat New Gadget is a Compact Cover and Whisk Broom in One. One of the Fashionable Devices that is Proving Unusually Popular This Spring.

(By Elsie Pierce, Famous Beauty Authority)  
 Good grooming gadgets are always welcome. Particularly in the spring when a woman's fancy naturally turns to novelties. Particularly, too, when efficiency and utility are packed in such small space and cost so little that the purse has no trouble carrying its little load.

over whisk brush for very little, and for three times as much, which is still very little, an attractive loose powder compact, either square or oblong, in plain enamel, gold or silver finish plus the compact cover and brush.  
 As a birthday or bridge gift, or for your Easter list, this little gadget should be grand. And you'll want to treat yourself to one, too.

Think what happens every time you open your compact to powder your nose. Confess, now, isn't it the rare, meticulously careful woman who does not get a few powder grains on the front of her frocks—without fail? Perhaps you've been driven to distraction to the point where you vowed you would carry a whisk broom with you. That's just what you can have in the neat new gadget—a whisk brush, pocket edition.

It also doubles as a compact cover, keeping your favorite case from unwelcome and unsightly nicks and scratches.

### Brush and Comb

Carrying the idea further, a full-size comb folds up and slips into a moire case equipped with the handy brush at one end. And, believe it or not, the entire brush portion is not much more than one and a half inches long.

It's aptly called "Whisker" because it whisks those annoying powder particles away in no time. It is also ideal to use after combing one's hair.

Sweaters are returning to popularity, to be worn with sports and business suits particularly.

### Do You Want to be in Mode? Well, How About These?

- How would you like—  
 To wear a little-girl dress with a dusky pink silk blouse and a box-pleated black wool skirt?
- To wear a silk shirt that looks as though it were made of hodge-podge newspaper clippings beneath your classic suit?
- To wear a set of three evening rings on your little finger—one next your hand, one at the knuckle and one at the finger-nail? Schiaparelli approves.
- To wear a necklace of feathers attached to a beaded collar?
- To wear your skirt seventeen inches from the floor? A few daring souls are doing it in Paris.

### Taylor's Esquire Shop Has Fashionable Display

Taylor's Esquire Shop is resplendent with what the fashionable man will wear this Easter. Their stock is complete from the smallest accessory to suits and topcoats.

### "Love-Bug" One of Latest in This Season's Fashions

Probably one of the newest raves of this season's fashion, is the "love-bug". And being made of tiny stones, with numerous long legs, it is not likely to bite. Remus' jewellery store shows these dangerous "cupids" in all settings and sizes.  
 Another item that you will see a lot of this spring and summer is the lapel watch for that new spring suit. This season the watch has flowered into an attractively ornamental, and at the same time practical, "must" accessory. A lapel watch on display at Remus' of

which they are very proud, is designed in a curious "round-square" shape, and delightfully ornamented with countless jewels. To the more practical mind, the fact that this is a Swiss movement, will doubtless appeal, and with assets of attractive appearance, and practical usefulness, the watch will soon find its way to some fashionable lady's heart and lapel.

A silver fox, snug-fitting tailored suit, a crisp white blouse, and a pill-box hat give mademoiselle that suit-able look.

### Beaver Furs Specializes in Modish Accessories

To give that "suitable" appearance this spring, the new spring suit must have a fur neckpiece to add further glory to its beauty. You may choose from such a wide range—Russian sable, silver fox, martin, Kolynsky, mink, and squirrel, as well as many another flattering neckpiece. The silver foxes this year have found great favour, but for the smaller woman, who does not wish to appear out of proportion, the fashion experts advise a neckpiece of a fur that is smaller in size. The Beaver Furs are showing all the most recent styles in fur accessories, an especially smart accessory being a silver fox bolero style cape that is sure to bring admiring glances and envious sighs.
