Vimy Night Banquet by Legion at Iroquois Falls

Large Attendance at Event on Vimy Night. Progress of Iroquois Falls Branch of the Legion Outlined. Reminiscences of the Battle of Vimy by Men Who Were There.

Iroquois Falls, Ont., April 10, 1938. Special to The Advance.

The Iroquois Falls branch of the Canadian Legion celebrated "Vimy Night" in the form of a fine banquet held in the Iroquois hotel on Saturday evening.

Invited to this outstanding event were the members, the town council, the mill manager, townsite manager, fire chief and their wives. With a large attendance on hand, the evening proved most successful, everyone having joined in the fun and celebration.

The first item on the programme was the mess call of all ranks; after which the chairman, Comrade President W. J. Grummett, extended to the guests a cordial welcome.

Officiating over grace was Comrade Rev. F. Joy.

A toast proposed by Comrade Past President C. S. Jessup was given to "The King," and was answered by all joining in singing the National Anthem, followed by a toast proposed by Comrade First Vice-President J. D. Burton, to "Our Fall Comrades."

A toast to the ladies by Comrade G. J. Morrisette.

Comrade Past President C. S. Jessup gave a very interesting address on "Our Branch and Its Efforts." In this address Mr. Jessup outlined the progress of this branch, particularly stressing the commendable work that had been done for Comrades by this branch, since coming back from the front. It was also noted that the members had always worked in harmony to achieve these results, and through the combined efforts of all its members, its success had been assured.

Particulars of the "Vimy Fight" were outlined in an address given by Comrade Rev. F. Joy, and many interesting facts were revealed to the audience. The details of the memorable occasion were given, and covered the preparations, attack and after-effects. To those who did not see this great attack, it was brought forcibly to mind that the Canadians had won the greatest victory during the war.

The mayor of Iroquois Falls, Mr. T. J. Hogg, was then called upon to speak. He thanked the Legion, on behalf of the town council, for their invitation, and felt that it was a great honour to be able to attend this marked occasion. He also extended congratulations to the Legion on their work and fine organization.

Between the speeches, songs were

rendered by various members, and were heartily applauded by the audience. Many memorable songs were rendered by Comrade (Scotty) Cuthell, and highly enjoyed. The "Limy Quartet," a nickname given to four Comrades, Mr. Cuthell, Mr. Stone, Mr. Ingby, and Mr. Righton, sang several old favourites, to the complete satisfaction of the gathering. At several points in the programme the entire assembly were called upon to sing, and as they gave vent to their feelings, the songs were sung with one accord. Comrade Rev. Joy accompanied the singers on the piano, and put considerable pep into the entertainment. An enjoyable duet was rendered by Comrade D. St. James and his daughter, Geraldine.

A very interesting talk on the "Vimy Pilgrimage" was given by Comrade First Vice-President J. D. Burton, who attended this mass gathering in France last year. His talk was of high interest to those who had been overseas and also to those who had not. It was told that this is the only piece of foreign land owned by Canada, and was given to the Canadians, where a Vimy Memorial was erected. Mr. Burton outlined his trip, and mentioned the many high-lights of his trip. This last trip across was an entirely different trip from the one in which he went over first, and the gathering listened enthusiastically to his notations.

During the evening Mr. Albert Delean and his string ensemble rendered several melodies, adding to the enjoyment of those assembled. This fine music was highly appreciated, and favourable comments were audible.

The committee in charge, who had spent considerable time preparing for this event, was composed of Comrades G. L. Whiting, H. Powers and J. Armstrong. The efforts were well rewarded by the great success of this event.

North Bay Man Wins Draw of Schumacher Lions Club

Schumacher, April 14.—(Special to The Advance)—W. Gibson, of North Bay, representative of the E. B. Eddy Co., Ottawa, held the winning ticket in the Stanley Cup hockey sweepstakes recently held by the Schumacher Lions Club.

Bowmanville Statesman:—Timber is becoming scarce, but the family tree continues to flourish.

Ansonville School Holds Fine Concert

Other News of Iroquois Falls and Ansonville.

Iroquois Falls, Ont., April 2, 1938.—(Special to The Advance)—A most enjoyable concert was held in the Ukrainian hall, Ansonville, on Tuesday evening, being sponsored by the Ansonville Public School.

The evening was a marked success, there being an unusually large attendance on hand to witness the fine plays put on by the pupils of school age.

Hours of rehearsal and preparation were necessary to complete the work to such a notable point, and great credit is due to the school staff, who have relinquished their spare time to the training of the scholars. The funds realized by this entertainment, will be utilized to purchase some improvement in equipment for the school.

Starting the programme at sharp, the "Girls' Choruses" got under way, and sang four fine selections.

Following this opening number, the chairman, Mr. W. J. Grummett, was called upon to give an address. In addressing the audience, he extended a cordial welcome, and assured them of an enjoyable evening. He also commented on the work that had been necessary to complete this concert, and thanked the teachers for their efforts. He also thanked the gathering for their kind interest.

The Primary Room put on an act called the Rhythm Band, and this was very delightful. Keeping excellent time to the music, they sang songs and played their instruments.

This was followed by the "Girls' Club Singing" display, which was well timed, and interesting to watch. At no point did any club hit, and physical form was necessary to carry out this drill.

The orchestra consisted of Clifford Burdette, Natti Fruka, Mary Olorinoff, George Gregorczuk, and Roger Sisko, accompanied on the piano by their teacher, Mrs. Natilla K-silla, was greatly enjoyed, and their music was splendidly rendered during the programme. These children are all under the age of 12, and they display great talent in handling their instruments.

The tap dance, by Joyce McDowell and Hazel Brindle, dressed in appropriate fashion, was heartily applauded, and they were asked to do an encore. Hazel, who was dressed as a gentleman of high state, tipped her hat in appreciation of the audience's clapping.

The Boys' Display of Wand Drill, Tumbling, and Pyramids, was a great fete, and as they progressed through their instructions, their skill in this work became quite evident. Their instructor Mr. R. Shaw, gave the signals, and the boys followed them without a hitch. Strength, balance, and agile bodies was the secret of their success.

A piano solo by Louise Lafortune followed, and drew great applause.

While preparations were being made for setting of the stage to act "The Inn of the Golden Cheese," the orchestra played several favourite tunes. The characters in the play—included pupils from all classes, and was indeed excellent. Victoria Elleko, a young schoolgirl played the leading role, and the parts in which she sang, were beautiful. She was most competent in her acting, and contributed to the success of the play. This act related how, fearing that the white men are going to steal their hunting grounds, the Indians plan to attack the "Golden Cheese Inn," and thereby disrupt its reputation. However, through the kindness and bravery of the children who were left in charge of the Inn, they were able to make friends with the Indians, and all turned out well. "Ferry Winkle", a character in the play was very humorous and drew great laughter from the audience as he boasted of his merits, but at the critical moment, found himself unable to live up to his standards.

The evening was brought to a close by singing of the National Anthem.

Women of the Moose Hold Initiation Night

After the regular meeting of the Women of the Moose, Chapter No. 551, held in the Ansonville town hall on Monday evening, two new members were initiated into this great organization.

About 30 members were on hand to witness the occasion of Mrs. Ed Campbell, Degree Captain, and her staff, perform the official ceremonies of bringing new members into the Chapter.

After the regular business of the meeting had been disposed of, the ladies indulged in a delightful lunch served by them, and spent the balance of the evening in social activities.

Spaghetti Supper

A good number turned out to enjoy the fine spaghetti supper held in the Ukrainian hall on Monday evening, and thoroughly enjoyed the delicious meal. Cooked in Italian style, the supper was most delicious, and all participants voiced their approval.

Caution Again Urged in Use of Gasoline at Home

Coinciding with the death of a young Toronto woman burned while using gasoline to clean floors came warnings this week, says The Globe and Mail, from two official sources against the use of the fluid for domestic purposes.

A warning from the Accident Prevention Association, not prompted in any way by the Toronto tragedy, was issued at approximately the time the victim died. The association described gasoline, when used as a cleaning agent, as "liquid dynamite."

From the Ontario Fire Marshal, William Scott, came another warning to people who would use gasoline to

clean floors, revive fires in stoves, or other domestic uses.

In 1937 there were 429 fires in Ontario directly attributable to gasoline, causing a loss of \$637,000; eleven persons died as a result of using gasoline or other petroleum products in the home, eighteen persons were injured.

In 1936 the toll was far higher, with twenty-nine dead and fifty-five injured. The large reduction in fatalities and injuries in 1937 was due, the Fire Marshal stated, to legislation passed in 1936, and made effective in February, 1937, making it difficult and expensive to purchase gasoline for domestic purposes. A fine of \$25 is provided for any gasoline retailer who sells the fluid to a customer in a glass container. The statute stipulates that a safety can of special construction must be used.

Special Summer Visitors to Ontario

Birds Come First and Then Other Visitors to Welcome

In connection with the Essay contest sponsored by the Ontario Federation of Anglers—to which reference has been made repeatedly in these columns—The Toronto Globe is publishing a series of articles on conservation, written by members of the staff of the University of Toronto. The Advance has been republishing these articles for the benefit of interested readers in the North. The following is the sixth in the series:

Summer Visitors
These lovely spring days make us think of holidays and getting out of doors more. The release from winter means release from school and we look forward to being free to wander through the fields and woods and go fishing.

When the last of the snow is melting in the "bush," the ice has all gone from the lake, the pussywillows are out and the tree tops are hazy with bursting buds, we look for the awakening of life in the streams and woods. Soon we will be welcoming our summer visitors.

The first of these visitors are flocks of birds which are already appearing and will soon be filling the air with their gay songs. Soon after they come

from the South they begin building their nests and settling down happily for the summer. Many of them like to nest in bird houses in our gardens and we can encourage them a great deal by putting up the right kind of houses for their use.

Many of our people will soon be getting ready to welcome other summer visitors, holiday-seekers who follow the birds north to enjoy the many attractions our beautiful country has to offer them. From the town and cities of Southern Ontario they come, and from every part of the United States, for rest and recreation. They are happy to come because they find in Ontario streams and lakes which are unpolluted and rich in fish, trails through the woodlands protected against fire, in which they may see deer, beaver, mink and many other creatures of the wild, in their natural state.

These visitors are welcome. They are pleasant and generous as well. They usually spend their money freely, and this is good for business. In fact, many towns in the summer resort districts are busier during the tourist season than at any other time of the year. We would not want anything to interfere with their coming each summer.

Of course all summer visitors do not like the same sort of holiday. Some of them just want a quiet time at a comfortable resort on one of our lovely lakes. Some like to motor through out North country, or take canoe trips or hikes through the woods and fish a bit. Others go hunting with a camera, in search of pictures of wild animals and beautiful scenery. When a fisherman catches two or three good bass or a few speckled trout he is delighted—but when one lands a twenty-pound lake trout or a four-pound speckled trout it is a thrilling day to be remembered for the rest of the year and talked about for many months.

No wonder these visitors talk to us about keeping our lakes and streams well stocked with game fish. They do not like to see the trees cut down, especially near the lakes where they spend their summers, nor our streams filled with sewage and waste matter from mines and mills. This spoils the country as a holiday ground, and may force them to go elsewhere. It seems just plain common sense to look to the fu-

Modes of Spring

JEWELLERY Lovely lockets, reminiscent of grandmother's day but infinitely smarter, tastefully fashioned of natural gold or sterling silver on a link chain. Gold engraved crosses are also much in vogue. Then too, those who want something more colourful will find a thrilling collection of costume jewellery to choose from at Remus.

NEW BAGS Truly fine imported bags in a variety of genuine leathers. Attractively styled to complement your Easter costume. Nicely fitted with plenty of room for all your things. Neat small styles too. On the lighter side is an early collection of colourful fabric bags in gay prints—the kind you'll carry right through summer. Choose yours for Easter.

C. A. REMUS

ture and plan so that this will not happen.

As these summer visitors are so pleasant and are contributing so much to keep our Northern towns and villages prosperous, should we not do our part by keeping our lakes and streams clean and preserving our forests and wild life, so that they will come back year after year, as they have in the past? If we want to have good fishing in the future for our summer tourists, we should do something about it now. We should practice conservation.

The good sportsman thinks of tomorrow.

North Bay Nugget:—Il Duce is to stage an "aerial circus" for Herr Hitler when the German dictator visits him in May. Could it be that Mr. Mussolini seeks to impress his war pal with the uselessness of opposing Italian ideals?

No. 47 was Once the Milk Train for the Quintuplets

Callander, Ont., April 14.—When the Dionne Quintuplets were very young and fighting for their five lives in the incubators, they depended for their very existence on a Canadian National train which left Toronto for the north every night at 11. No. 47 carried a precious cargo of mothers' milk supplied at Toronto hospitals. The insulated refrigerator boxes were taken off the train at Callander before dawn.

When the need of human milk was over, Dr. Dafoe paid sincere tribute to the Canadian National Express and its employees for so expeditiously handling the shipments.

The Quints still have many requirements, however, and the booming little town of Callander, catering to the thousands of tourists who go up every summer, needs supplies and the new Canadian National station, just across the way from Dr. Dafoe's home, is a sign of the times.

NOW YOU CAN KEEP MEAT Fresh

WESTINGHOUSE Imperial Series REFRIGERATOR

The MEAT-KEEPER... A sensational and exclusive Westinghouse Advantage!

The new Meat-Keeper is the greatest improvement in years! A feature of the new 1938 Refrigerators—exclusive with Westinghouse... This covered, ventilated, porcelain meat compartment really keeps meat fresh! Retains the natural juices and moisture! Preserves the full flavor and appetizing goodness of steaks, chops, roasts, etc.! Keeps your meat at the correct temperature... just a few degrees above freezing... much colder than is desirable in the general food-compartment.

The Meat-Keeper is just one of the sensational advancements Westinghouse adds to refrigeration for the home this year. Come in and see the new glass-topped Humidifier for humidity-storage of fruits, vegetables and salads; the beautiful new heat-proof Thermaware dishes for left-overs; the bigger, smarter Stor-Dor with more space for frequently used items—the improved Sanalloy high-speed Froster with new Ejector Instant-Release Ice-Trays.

Come in! We have a Westinghouse model in operation... the Meat-Keeper fully stocked with fresh meat—a whole week's supply at a saving in price.

Proved
DEPENDABILITY
PLUS
improved
CONVENIENCE

Behind all the added conveniences in the new models stands the famous Westinghouse "Super-Power" Mechanism... the first and only Dual-Automatic, Hermetically-Sealed Refrigerator Mechanism with Forced-Draught Cooling and permanent Self-Lubrication... with a record of Kitchen-Proved dependability and economy unsurpassed the world over. Remember that's what Westinghouse means when you choose your refrigerator. It will save your FOOD... It will save your TIME... It will save your money—New Models priced from \$ 159.

Tired All the Time Describes exhaustion of the nerves

The usual treatment for fatigue is rest. But when the cause of tired feelings is nervous exhaustion you are restless, sleepless and irritable and cannot rest or sleep.

You can worry and fret, you can be impatient and ill-tempered, you may suffer from indigestion and headaches. But rest or calmness or sleep are well nigh impossible.

It is necessary to build up the reserve of nerve force by such restorative treatment as Dr. Chase's Nerve Food. Your nerve-

ous system has become bankrupt and new energy and vigor are necessary.

Dr. Chase's Nerve Food is recommended on the strength of its time-proven record of effectiveness in many thousands of cases similar to yours. New nerve force is created from rich red blood and Dr. Chase's Nerve Food is composed of the very ingredients which go to enrich the blood. For this reason every dose you take should help you in regaining health and strength and new vitality.
