

Requirements For MOTORISTS!

Public Liability, Property Damage Insurance Indispensible to Car Owners

However much one may be justified in priding himself on the care and skill with which he operates his car, the fact remains that there are no perfect drivers. Experience proves that every motorist displays some fault at some time in the operation of his car, and there is no guarantee that the slip-up will not occur at the wrong time with disastrous results.

Reproduction from a Clipping in The Porcupine Advance Thurs., May 5th, 1938

\$4,000 In Damages

Mrs. _____ Receives Award; Husband Killed Struck by Car.

HAILEYBURY, May 6—Damages to the amount of \$4,000, with costs, were awarded to Mrs. _____ of Englehart, against _____ of the McIntyre Mine at Schumacher, for the death of her husband in an automobile crash last September 10th, when he was struck and almost instantly killed by the car driven by the defendant while riding a bicycle on the highway about two miles north of Englehart. No damages were awarded to the daughter, Mrs. _____, a co-plaintiff in the suit which was for \$20,000, that action being dismissed without costs.

No Man Or Woman IS Perfect

Errors of judgment are the causes of many motor accidents. However careful a driver may consider himself to be, he can hardly claim that he is perfect in matters of judgment. At a critical moment the slightest error in judgment as to distance, speed or clearance space, may involve the motorists in an accident which will result in the

LOSS of His Car, His Home, His Life Savings

unless he has protected himself against such a contingency by means of an adequate amount of public liability and property damage insurance.

If You Can't Afford Insurance, You Can't Afford To Drive!

EVERY CAR OWNER SHOULD HAVE

1. INJURIES TO PERSONS—(Public Liability Insurance) pays the cost if damages are awarded against you in an action.
- 2.—DAMAGE TO PROPERTY OF OTHERS—(Property Damage Insurance) pays for the damage done if you are liable.

BEFORE COMING TO A DECISION TO DO WITHOUT AUTOMOBILE INSURANCE, THE MOTORIST SHOULD ASK HIMSELF THE FOLLOWING QUESTIONS:

1. How would I raise the money, if I had an accident, to pay a lawyer and other costs, and the judgment if one were awarded against me?
2. Can I pay \$5,000 or \$10,000, or perhaps more, from my savings or checking account?
3. Would I have to sell my securities, my home or my business in order to meet such a judgment?

There is no getting away from it—that is the situation which the motorist must face when he considers driving a car without insurance protection. While it is admitted that many persons in these times have had to reduce their personal budgets when it comes to certain insurance costs, the question is whether anyone can afford to take a chance of driving a car without at least public liability and property damage.

For those who can afford to do so, it pays to take out additional coverage against loss or damage to the insured automobile through collision, fire and theft.

The Cost of Security Is SO SMALL!

Public Liability and Property Damage are the most important coverings as there is no limit as to the amount you may be called upon to pay in the event of an accident causing injuries to any person or any person's property.

Second Twins Born at South Porcupine

Double Birth on Friday the Thirteenth. Other South Porcupine and Dome News

South Porcupine, May 14th.—(Special to The Advance)—The second pair of twins to be born in the Porcupine General Hospital arrived on Friday, May 13th, and were born to Mr. and Mrs. Colin Campbell, of Broadway. Both babies are bonny boys and all are doing well.

Mr. and Mrs. Frank Reynolds left on Thursday for Montreal prior to sailing on the S.S. Duchess of Richmond for Liverpool on Friday.

Many of their closest friends were at the station to see them off on their journey and to wish them a happy holiday and a safe return. They are staying in England for three months, visiting relatives whom Mr. Reynolds has not seen since he came to Canada twenty-four years ago, this being his first trip back to the Old Country.

Mr. and Mrs. Cliff Brooks, of the Dome, are being congratulated on the birth of a son, which arrived early this week to Mrs. Brooks in Toronto, where she is visiting her mother, Mrs. G. Johns.

Mrs. M. D. Shaw, who has been visiting her son, Mr. Martin Shaw, in South Porcupine, for some time, left on Thursday for North Bay. After a few weeks' visit with relatives she will sail once more for her home in Scotland.

Dr. and Mrs. Somerville left no Friday for a holiday in Toronto, Peterborough and other points east. While in Toronto Dr. Somerville will attend the Dental Surgeons' Convention. Dr. Woods also left on Friday to attend the dental convention.

The children's choir, under the tutelage of Miss Theresa Burns, and sponsored by the Educational Committee of the Consumers' Co-operative So-

ciety, has settled the date for the concert for which they have been preparing. It is to be on Friday, May 27, in the High School auditorium, and will have other artists of note helping—Mrs. Stanlake, Mrs. Bessette and Mr. Hunkin, also Mr. T. Nixon, of Timmins. Keep the date open, as the children's choir singing is something you should not miss.

A very nice and attractive setting for the Junior Catholic Women's League tea, was Mrs. George Starling's home on Dome avenue on Saturday afternoon. Tables were daintily set on the sun porch, as well as in the living and dining rooms, and a steady stream of patronesses came and went from 3 to 6 p.m., thoroughly enjoying the delicious food and tea, enjoying the social contact with friends in town and from Timmins, and adding their quota to the cause. Daffodils and tulips brightened the tables, adding a pleasing and colourful touch. Mrs. Starling received the guests, and assisting her at serving were Misses Lynch, Donlevy, McKeown, Burns, Leney, Paolini, LaFurgy, Smith, Cecconi, Mona and Pat Laforest, and Mrs. O'Grady.

Mrs. Thomas Woods, of Cecil avenue, and children, left on Wednesday to visit in North Bay for a month.

We were indeed sorry to learn of the death on Wednesday of Mrs. Charlie Carr, one of the pioneers of the Porcupine, remembered kindly by all who were in the camp in the early days. Mr. Carr was postmaster and one of the first fire chiefs of South Porcupine and Mrs. Carr is remembered as assisting in every cause that was for the good of the town. The family left South Porcupine in 1922 to take up farming in Leamington, and Mrs. Carr visited her old friends here as recently as the summer of 1936. A memorial card sent to a friend reads:—"Died—In Mersea township on Wednesday, May 11th, Mrs. Catherine Carr, wife of Charles Carr, aged 50. The funeral service will be held at her late home, Talbot Road West, on Saturday, May 14th, at 3 p.m. Interment in Evergreen Memorial Park."

Mr. R. Connelly and four daughters motored back from Shawville on Friday. Mrs. Farrell and Mrs. Johnston came back on Thursday after attending the funeral of Mrs. R. Connelly.

Mrs. Wm. Batek, who has been visiting relatives in Sprucedale and Bracebridge for the past month, returned home on Friday.

Our sincere sympathies are extended to Mrs. White, of the teachers' residence, who was notified on Friday evening of the very sudden death of her father in Port William. Mrs. White left on Saturday to attend the funeral.

The eclipse of the moon on Friday night—or rather early on Saturday morning—was witnessed by some of our friends in South Porcupine. They tell us it started about 5 minutes to two, and continued for about three hours. The face of the moon was not at any time completely eclipsed, but the light given by the moon was of a dark orange color. The night was a splendid one to witness the phenomenon as the moon was at the full in almost a cloudless sky.

Those United Church scholars who were given a copy of the "Canadian Girl" leaflet on Sunday last, could not fall to be struck by the very clever drawing (which won first prize in a competition) by Annie Michaluk of Okla, Saskatchewan, a girl who gained her early knowledge of drawing in South Porcupine public school, and whose talent has been noted and commented on many times here. The drawing "In School" undoubtedly shows that Miss Michaluk has not forgotten South Porcupine for the face of the teacher is unmistakably that of our school's principal, and is splendidly drawn.

The proceeds of the first football match between Dome and McIntyre at Dome on Tuesday next, are to be given to our town Scout hall.

Girl Guide News
The South Porcupine Guide Company met on Wednesday in the Scout hall. They had planned a hike and open air campfire, but the weather

having turned colder they had to give up the plan. After practising "tumbling" under Mrs. Mayers' direction, they used the mattresses for practising bed-making, the bed clothes being brought by some of the girls for this purpose. Six passed the test for this. They then had their open-air campfire in the hall. With sticks they roasted bacon and themselves prepared campfire biscuits—a concoction of flour, salt, baking powder and water—which they made into dough and roasted in the coals after wrapping around sticks. The girls then had their "feast" and thoroughly enjoyed it.

Papermakers Dance at Iroquois Falls

Very Pleasing Social Evening Held on Friday the 13th.

Iroquois Falls, Ont., May 14.—(Special to The Advance)—Friday the thirteenth was a lucky day for the many who were in attendance to enjoy the dance and social evening held in the town hall on Friday evening, which was sponsored by the Papermakers' Union, No. 109.

This evening of entertainment was one of many which are put on by the union for its members and their wives during the short time operation at the mill, which enables everyone to attend. The persons responsible for its marked success deserve great credit, and the work entailed is duly rewarded when everyone responds with high enthusiasm.

Dancing features of the evening included round dancing to the rhythmic tunes of favorite popular pieces, played by Al Pierini and his orchestra, swaying all the merry-makers to participate. Square dances, which were ably called by Mr. Pat Walsh, and Mr. Julian Larocque, went across well, and kept fine time to the music supplied by Mr. Blondeau, Mr. G. Decote and

Mr. F. Bernier, Mr. Mousseau and his daughter also rendered music for square dances later in the evening.

Between dances, a scheduled programme was put on for the audience, and as the evening progressed it became quite evident that the commendable achievements of those participating were only the result of many hours of practice and excellent coaching on the part of the teachers, Mrs. S. Hornell and Mr. E. Columbus. Through their efforts, the pupils added to the success of the evening.

The children who took part, as well as the adults, made an unusually fine display of their developed talents, and were given high accord by those who so thoroughly enjoyed the entertainment.

Following is the program which took place:

Excellent tap dancing and singing by Lillian Perron, Rea Mousseau, Dolly Mousseau, and Bazil Columbus, which included the Military Tap Dance, "Way Down South," and "Waltz Time Tap."

Toe Dancing and the Sword dance were well displayed by Nancy Cuthell and Dorothy Mitchell, and they looked quite attractive in their acts.

Dolly Mousseau and Allan Columbus were fine in the Irish Jig and Dutch Dance, and drew great applause as they bowed at the finish.

Miss Myrtle McGrath rendered the music for the tap dancing.

Several solos, bringing back fond memories, were sung by Mr. J. Cuthell, accompanied on the piano by Mrs. P. Falter, and given high applause. The papermakers' quartette, consisting of Mr. A. Elliott, Mr. D. McKendry, Mr. A. Soucy, and Mr. T. Stnoe, and accompanied on the piano by Mrs. A. Elliott, was very well done and appreciated highly.

Mr. E. Ayoite and Mary Zepotoczney, dressed in native costume, gave a good exhibition of the Russian Dance.

Step dancing by Mr. F. Bernier, who boasts of the age of 68, was notably well done, and as he was able to keep up the fast pace set by the musicians

was evident that he is far from ailing yet. His agile ability would make many of the younger ones envious.

An accordion solo was rendered by Mr. E. Marceacchi, and given great accord, as was the solo by Mike Mitchell.

Red spot-lights playing on the stage during the programme added to the colour effect, and made it quite easy to see.

Mr. Eddy McGrath, president of the Union, thanked the audience for their support, and expressed sincere thanks, on behalf of the Union members, and officers in charge, for those who so kindly contributed in making the evening such a success.

A lovely lunch consisting of many delicacies, which had been prepared by the committee in charge, was served, and heartily enjoyed by all.

Many thanks are bestowed upon the committee in charge, who worked many hours preparing for the occasion. They are: Mr. Parker Falter, chairman; Mr. E. McGrath, Mr. P. Clark, Mr. M. Mitchell, Mr. J. Tremblay, Mr. F. McGrath, Mr. P. Dolan and Mr. E. Duffy.

Among the invited guests were many prominent citizens, who voiced their approval of the fine entertainment.

Murder Looked Like Supernatural Affair

But Detective-Inspector Insisted on Looking for Human Agency.

The serial stories published in recent years have won popularity on their thrilling action and interest, and the new serial to start in The Advance on Thursday of this week promises to outdo in thrills and suspense the gripping stories of the past. This new story is entitled "The Ebony Torso" and the author is John C. Woodiwiss, author of the noted yarn, "Mouse-boat." "The Ebony Torso" is described

as a "super-thriller," and those who read it will agree that this is an apt description. It concerns the murder of Frederick Davis Scott. All the clues and circumstances seem to suggest that the crime was committed by supernatural agencies. Rev. Charles Galesbourne becomes strong in his expressions of conviction along this line. Even Divisional-Inspector Carlingford comes to agree with the clergyman.

But Detective-Inspector Hopton has a maxim that ghosts don't kill people. He refuses to accept the spirit theory or the supernatural. Instead he goes out determined to find some human responsible for this crime. While he is working on the case he is mysteriously attacked, but still refuses to blame the spirits for earthly evils.

Even while convalescing from the attack upon him, Hopton continues to struggle with the few clues he can pick up in the case, and when he goes back to active work on the job of discovering the criminal or criminals concerned he meets enough other strenuous adventures to satisfy any lover of thrills. There is action in every chapter of this story. General instalments will be published in each issue of The Advance, commencing on Thursday, May 19th. Read the opening chapters on Thursday of this week, and then follow this exciting mystery story to its unexpected conclusion.

DECORATION OF THE MANTEL

Three ornaments are sufficient for a mantel 50" long; five will take care of any length over 50". Objects on either end should give the effect of the weight and size. It is less formal when they are different. The centre object should be lower, and should also be the nicest piece.

North Bay Nugget.—The weatherman batted 1000 per cent in his "cool showers" forecast for Easter Sunday. Here's hoping he can find a better outlook for future holidays this year.
