TEN YEARS AGO
IN TIMMINS
 From data in the Porcupine Advance Files

The Holy Rees could do nothing much with Garner's support ten years ago in the softball game, except in the third inning when they got 6 runs on 6 hits, 1 error and 1 sacrifice. The Arrows plugged away and clinched the game in the 5th, getting back the six runs they lost. D. Brown was back in the line-up and showed it by getting three hits and scoring three runs. The score was 13-8 in favour of the Arrows.

In The Advance ten years ago:—"Previous to leaving town for Montreal last week, Mr. F. J. Wolno, for nearly seven years band leader of the Timmins Citizens' Band, and a popular member of the staff of the machine shop at the Hollinger, was the recipient of several presentations expressing the appreciation felt for him and the popularity he enjoyed. Reference was made in last week's Advance to the presentation by the members of the band of a gold watch, suitably engraved, to Mr. Wolno. Last week the staff of the shops at the Hollinger presented him with a handsome set of military brushes, together with good wishes for his success and progress in his new location. The Hollinger Mines expressed its appreciation by a cheque. Mr. Wolno, as leader of the band, and as a good citi-

zen of the town has given very generous and very efficient service here and his good work has been appreciated."

The Lances, and McIntyre teams clashed ten years ago in a P.D.F.L. fixture which ended in a draw, 2-2. The match on the whole was a poor one, and ended in a fiasco in which the McIntyre were ordered off the field. The two players mentioned had been rubbing shoulders pretty well during the match and finished when Loberg made what looked like an unfair charge.

On Friday, June 29th, 1928, the L.O.B.A., No. 677, Timmins, held a special meeting in honour of the Grand Provincial Mistress, Sister Kennedy, of Toronto, and Past Mistress Sister Rogers, of Cobalt. The hall was decorated for the occasion. Four members received the Scarlet Degree, after which a beautiful banquet was put on when W. M. Sister M. Gordon presented Sister Kennedy with a beautiful linen tea set and a bouquet of roses. A presentation was also made to Sister Rogers, and Sister McLeod also received a lovely present.

A large tarantula spider was on display ten years ago in the Hollinger Stores Limited Grocery Department.

The spider was captured by Mr. Brown, who, while parcelling up some bananas, was surprised to see the large insect come out from the centre of the stalk and race to the top. A large glass-covered dish was secured and Mr. Spider safely imprisoned in this.

At police court ten years ago a local lady was fined \$100 and costs, in her absence, for permitting drunkenness in her house. Provincial Officers Delves and Craik laid the charge, following "what appeared to be a noisy party on the premises. The lady did not answer to the charge so the fine was imposed in her absence.

The possession of the Geo. Lake shield for 1928-1929 was decided ten years ago on July 2nd, when Mr. W. S. Macpherson was awarded the trophy. Mr. J. W. Wray was second in the list, while Messrs. J. W. Fogg, G. N. Ross and C. G. Williams tied for third place. The Geo. Lake shield had been won in previous years by Mr. J. W. Wray, by the late Mr. W. H. Wylie, by Mr. F. Auer, by Mr. J. A. MacDonald and Mr. V. H. Emery. The shield was emblematic of the open championship at the Timmins club.

A very pretty wedding took place on Monday, July 2nd, 1928, at the United Church, Timmins, when two popular people of the town and district, Miss Elizabeth Reta Jones, daughter of Mr. and Mrs. Jones, of the Coniaturum Mine, and Mr. Wm. Mackie, of Timmins, were united in marriage by the Rev. J. D. Parks, minister of the church. The ceremony was at six o'clock in the evening, and was attended by a large number of friends.

The chief feature at the weekly luncheon of the Timmins Kiwanis Club ten years ago was the report by President Keddie of his trip to Seattle and the twelfth annual convention of Kiwanis International. There were 5000 Kiwanians and their ladies at the convention. The delegates came from all parts of Canada and the United States. They were inspired by the Kiwanis ideals for the betterment of communities and helpful work for all. Such a gathering, Mr. Keddie pointed out, could not help but be inspirational, educational and deeply interesting. The various conferences were especially attractive. They were opened by outstanding speakers and the discussions brought out much helpful information and inspiration. The reports from the International secretary, treasurer, and the various chairmen showed a year of great progress for Kiwanis. The chief

branches of Kiwanis activity—community work, child welfare, vocational guidance, etc.—were all given due emphasis at the convention. Mr. Keddie quoted selections from the summary of the convention to show how those in the gathering left Seattle "with an enhanced conception of the ideals of Kiwanis, a greater understanding of its objectives, a broader knowledge of its problems, a deeper appreciation of its good fellowship and a heightened pride in its prestige and accomplishments."

Mr. J. W. Wray manager of the A. E. Moyses & Co. office at Timmins, was promoted ten years ago to Toronto to be office manager in the head office of the firm, and Mr. Gordon Black was made the new manager at the local office.

Tuxis won their protest of their previous game ten years ago, but when they faced the Arrows once more they lost out. After the first innings the Tuxis were only able to get one hit and one run which Ray brought in, getting a walk. The score was 18-8 in favour of the Arrows.

Five teams entered for the Ontario Cup qualifying competition in the Northern Ontario Football Association district, ten years ago. They were the McIntyre, Holly Rees, Dome Mines, Lake Shore and Teck-Hughes football clubs.

The funeral took place at Timmins on Thursday, June 28th, 1928, of Marion Joyce, only child of Mr. and Mrs. Stanley Martyn, 62 Lake Shore Road. The service was held at the United Church, being conducted by Rev. J. D. Parks. The hymns sung at the service were "What a Friend We Have in Jesus," and "Safe in the Arms of Jesus." The bearers were F. Masters, R. Webber, D. A. Morrison and B. Odgers. Interment took place in the South Porcupine cemetery.

"Stan Stanley, who gives rather unusual exhibitions of strength and skill," said The Advance ten years ago, "is at the Goldfields theatre this week. His car on which is painted particulars of the feats he can do and the places he has given exhibitions, has created considerable interest. Stan Stanley is a man of medium build who is able to do stunts that few strong men can equal. He has a standing challenge that no six men can hold him and so far he has made good in this. Tuesday evening he broke the holds of policemen and firemen who were holding him. Of course, he stipulates the hold to be used, but nevertheless the stunt is a clever one. Tuesday evening W. Stanley, of the fire hall staff, gave him the most difficulty, but Stan Stanley succeeded more or less easily just the same. Stan Stanley has travelled all over the world giving his exhibitions. He served in the Great War and in town he met a former companion of overseas. Mr. P. A. Macaulay, who knew Stan Stanley in France. Stan Stanley's ability to throw his hips apparently out of joint, apparently lengthen his arms and legs, extend his chest in remarkable way and other feats have attracted much attention."

Mr. and Mrs. J. T. Cuthbertson and family left ten years ago to take up residence in Montreal. The family were very popular here, having been resident here since the early days and being generous in helping on all good causes. Mrs. Cuthbertson took an active and helpful part in I.O.D.E. work here, as well as in many other lines of social and church work. Previous to leaving Timmins, the I.O.D.E. presented Mrs. Cuthbertson with a handsome leather purse and expressions of sincere appreciation and good wishes. Mr. Cuthbertson was one of the pioneer diamond drill men of the camp and well-known and highly regarded in the district.

The novelty day for the kiddies, presented ten years ago under the auspices of the Holly Rees, Cornish One-and-All and Lancashire Football Clubs proved a remarkably pleasing event and reflected the highest merit on the three clubs and especially on the committee in charge who carried everything along in the most efficient way. There was something doing every minute, and it was a wonderful day for the kiddies. The attendance was not as large as it should have been, this being due to so many counter-attractions, and so many being away on holiday, but all attending were delighted.

In the South Porcupine news ten years ago (in part): "Mother nature could not have smiled more kindly than she did for the Boy Scouts for their big field day here on July 2nd. The most perfect of weather favoured them throughout the day. Before 8 a.m. the Scouts from other troops began to arrive by bicycle. Every home with a Scout in it was aroused early that morning for at last their big day had come and now was to be seen the results of their practice and planning. The flag break at nine a.m. was a most imposing and picturesque opening. Then came the parade with Girl Guides of Timmins and South Porcupine in the lead. They formed a most orderly and impressive line of fine straight-shouldered youth. After reaching the ground again the jumping events took place. Cattarello, of South Porcupine, and Finkleman, of Schumacher, making particularly fine showings. By the time the water events were staged a large number had gathered at the dock. Possibly the race that caused the most unusual happenings was the junior boys double canoe race. These boys had not the control of their canoes the senior boys had, some took the wrong course, some four or five canoes got jammed together, one boy lost his paddle and to cap the climax, Master Rupert Martin in his excitement to get turned properly went head first into the water himself."

South Porcupine Fire Department covered themselves with glory in the events at the New Liskeard tournament ten years ago bringing back with them the shield which they won on points and the cash prize which goes with it.

Among the local news in The Advance ten years ago were:—"Miss Olive

Stauf, of Detroit, formerly of Timmins, is visiting her father, Mr. Chas. Staaf here, and renewing acquaintances in town and district." "Mr. and Mrs. F. J. Wolno and baby left on Friday last for Montreal to take up residence in that city. Their many circles of friends here, while regretting their departure, will sincerely wish them the best of happiness and success in their new location." "Mr. E. Pritchard and family are visiting in Brockville for a holiday." "Mrs. J. R. Walker and little son, Billy, are visiting Mrs. Walker's parents, Mr. and Mrs. S. A. Macdonald, in New Liskeard." "Mr. Henry, assistant principal of the Timmins High School, was in Kapuskasing last week as supervisor of the department examinations there." "Mr. G. L. McCormick, formerly of Timmins, but now of Rouyn, Que., was a visitor to the camp on Dominion Day." "Mr. W. Mitchell, formerly on the staff of the Hollinger Mine, but now in Rouyn, was a Timmins visitor on Dominion Day." "Mr. C. G. Keddie returned on Saturday evening from a trip to Western Canada and the United States. While away Mr. Keddie attended the Kiwanis International convention." "Mrs. P. Carson and children came up last week from Haileybury to join Mr. Carson here. Mr. Carson is manager of the Swift-Canadian Co. here."

RINN BROS.
Semi-Annual Sale
 commencing
THURSDAY, JULY 7th
 and continuing throughout the month

It has been a custom with us to have but two sales a year, and when we put on a sale it is genuine in every respect, the idea being to clear balance of reasonable merchandise as well as many discontinued lines which collect during the season.

During this sale you can buy quality merchandise at genuine reductions, and nothing quite takes the place of quality

CURTIS DRUG COMPANY
 14 PINE ST. N. "We Save You Money Every Day" PHONE 835

New Chairman of N.Y. Stock Exchange
 \$150 a Year. Not to Mention the Loch Ness Monster.

(By Thomas Richard Henry)

Blushing honours fall thick and fast upon William McChesney Martin, Junior.

William McChesney Martin, Junior, will not be 32 years of age until next December, but he moves up from chairman of the Board of Governors of the New York Stock Exchange to be the first full time paid president of that exchange.

Every time we think of this 32-year-old boy boss of the Wall Street wolves we think of a little fluffy kitten leading a pack of cantankerous catamounts.

We often wonder why William McChesney Martin, Junior, was chosen to lead the Wall Street pack.

We may do him injustice. He may be a strong man ready to swat the first bold, bad broker who breaks an exchange rule.

As we say, he may be, but we doubt it.

We don't think William McChesney Martin, Junior, has lived long enough to be able to keep up with the boys who play with the big blue chips.

We think maybe the decision was made, after Whitney had turned backward, that the big board needed a sweet and unsophisticated policy.

The opposite to Whitney had to be applied to the public until Mr. Whitney was forgotten.

So William McChesney Martin, Jun-

ior, was the sacrificed offering.

This feeling grows as we see Chairman S. E. C. Douglas getting all enthusiastic about William McChesney Martin, Junior.

Now we will wait patiently for enough time to elapse to see whether William M. M. Junior, is equipped to give the orders or take them.

Meantime he can't lose. He is being paid to do whatever he finds it necessary to do—whether he turns out to be the Company "O.C." or just the adjutant.

"For the benefit of a younger generation we will point out that "O.C." is "Commanding Officer."

\$150 a Year

There is quite an interesting custom followed in one of the agricultural districts of the land of wine, women and wine.

Hired men around Rochefort, France, are auctioned off for the next year's work.

We see it reported that unemployment made bidding low last spring and the average paid (including food and shelter) was \$120 to \$150.

Young farm workers went for less than \$100 and shepherds ranged from \$41 to \$68.

This may not sound like much money but we can remember in our youth, farmhands were paid around \$150 a year with food and shelter thrown in.

The food was important but the shelter didn't matter so much because there was so little time to take advantage of it, between the finish of the last chores at night and the alarm in the morning.

A hired man who received \$300 a year was considered to be a highly paid aristocrat in the neighbourhood.

We are not sure what a hired man gets these days, but we can well realize that an expert relief catcher much prefers to stay on relief.

There are still plenty of people on relief and farmers are complaining that they can't get help.

We can appreciate how true it all can be.

Imagine asking a man to give up a meagre living with nothing to do—for a meagre living acquired by working like—we mean working from dawn to dark.

It is useless to expect this from people who have no aversion to accepting charity.

Loch Ness Monster

Somebody wants to get up an expedition to investigate the Loch Ness monster.

This seems to us just another question of a busbody pushing in where he is probably not wanted.

We have no doubt that the good people around Loch Ness conjured this monster.

And we think that it was a pretty fair job of conjuring, because they have received publicity in all corners of the world.

We expect it has been quite profitable conjuring, too. Many people have gone to Loch Ness to see what kind of monster they could see.

And it doesn't take many drinks of the kind of nectar you can buy around Loch Ness before you can see one or several sea monsters.

The Loch Ness monster idea has been imitated at many places but not with the entire publicity success of the Loch Ness venture into the realm of imagination.

However, if they send a scientific research party up to Loch Ness, the Loch Ness people will only have to supply "McDougall's dew of Kirriemuir" free, and the scientists will see the sea monster.

But how that necessity will hurt the good people around Loch Ness.

Loses Motor Boat Race by a Flapping Shirt Tail

(From Picton Gazette)

From now on, Bill O'Brien of Findlay, Ohio, is going to see that his shirt-tail is safely tucked in before he enters a race.

Why? Because it landed him in the hospital here on Friday, but fortunately he was able to leave shortly afterwards, when he had received treatment.

Bill was sending his sea flea at a mighty speed around the west buoy in the C Class, shirt-tail flying in the breeze behind. It seems there is air suction in the carburetor of the motor and Bill's shirt tail was sucked into it. Jam went the motor. Stalled became the motor, engine then ups and strikes Bill knocking him out of the boat, boat doesn't upset and Bill crawls back in and awaits the rescue party.

The mishap occurred out of view of most spectators—the only accident on Friday.
