Five cases of neglecting to stop at a stop sign resulted in a fine of \$1 and costs.

Five owners of dogs who allowed them to stray and commit a breach of by-law No. 90 paid \$1 and costs.

Eight drunks paid \$10 and costs. One Finn looked puzzled as the Magistrate read the charge—"You were unlawfully intoxicated in a public place contrary to the Liquor Control Act of Ontario?"

"Get an interpreter," said the magistrate.

Accordingly one in court obliged and read the charge to him in Finnish. Accused still looked blank, till one of the policemen said in English, "Were you drunk?"

"A little drunk," said the interpreter. \$10 and costs was his sentence, plus one dollar for the interpreter.

A taxi driver, accused of reckless driving by passing four cars on McDonald Hill when more cars should have been exercised, asked the policeman, "Why didn't you stop me till I was 1 1/2 miles past there?"

Magistrate imposed the minimum penalty \$10 and costs, and as his means of livelihood depends on driving a taxi, suspended his license for one week only.

Counsel asked that car be allowed to drive the accused's wife and child back to Noranda (his home town) but this was not permitted.

"I'd like to help out, but am afraid I can't," was his worship's comment. The car is automatically seized by police with no magistrate's order.

The Crown Prosecutor said: "High-grading in this country is a serious matter, it is easy, and a lot of it is going on. Cases are treated severely on this charge."

"I come from a part of the country where there is no high-grading," said his worship.

"A similar case to this, tried by Magistrate Atkinson, was given 4 months," said the Crown Prosecutor.

## Girl Guides Enjoy Life at Night Hawk Lake Camp

### Many from South Porcupine and Timmins Visited the Girl Guide Camp on Sunday and were Delighted with the Happy Time Enjoyed by the Girls. Kirkland Lake Guides There This Week

South Porcupine, July 13th—(Special to The Advance)—Night Hawk Lake drew many people from Timmins and South Porcupine on Sunday last. Mothers and fathers of Girl Guides, who are camping there, motored down to see how their offspring came through the storm of Thursday. They need not have worried. We had a talk ourselves with the Commandant and were told that only two of the smaller Guides were affected in the least, and the Camp mother, Mrs. Jay, looked after them and calmed their fears.

Guides must take storms and other things as they come when they are camping! The whole company gathered in the recreation hall and watched the storm play over the lake and learned more of the beauties and wonders of nature through their leaders.

They have had a wonderful two weeks these Guides; some of the lucky ones are staying on with Mrs. Letterman and are being joined on Friday by twenty-five Guides from Kirkland Lake under Commissioner Smith and leaders.

On Sunday all the "cottages" were open for inspection, and all the Guides nice and smart in uniform to greet the visitors, usually the rule is slacks and "halters" and the chef spotless in white. Only the camp guard, Nick, usually a great pet, seemed not as popular as usual.

Nick had been on the job the night before and had spied a depredatory skunk round the supply tent. He had caught the thief, but not before the skunk had shown his contempt for Nick. Repeated washings had had little effect on the dog and he refused to be buried!

This camp life is a perfect example of community work. They live and eat by schedule, play and work by schedule. Each takes part in the perfect working of the Camp machine, and they love it. We saw the day's schedule (Sunday) hanging on the wall of the dining hall and copied it for you.

At 7.30 the whistle blows, and they all take a morning dip.

8.30—Home to breakfast.

9.30—Patrol duties—free time.

10.30—Cabin inspection.

10.45—Flagbreak, Horseshoe, Uniform Inspection.

11.00—Guides Own Service.

Kirkland Lake Young Man Recovering from Wound

Guelph, Ont., July 13.—Teddy Gabriel, Kirkland Lake youth, is progressing favourably here in the medical ward of the reformatory after being released Saturday from St. Joseph's hospital, where he had been under treatment. Gabriel was shot through the lung by prison guards as he was attempting to evade capture after breaking away with Eugene Leblanc of Ottawa nearly four weeks ago.

The wounding of the prisoner followed an all day search for him and his companion. They were found walking along a railway track near the reformatory. When ordered to stop, Gabriel made for the bush while Leblanc surrendered. The escaping man was shot through the back. He was kept under guard while in the hospital.

Gabriel was sentenced in Kirkland last May on a charge of theft.

Hon. Dr. Manion Said to be Very Popular in the North

One of the Northern delegates at the recent Conservative convention at Ottawa has given out a statement to the effect that the North Land backed Hon. Dr. Manion almost to a man in the balloting for a new leader for the National Conservative Party leader. This delegate, while admitting that the Conservative party recently does not seem to have the strength and solidarity that it could muster some years ago, still has lots of life and enthusiasm and under able leadership, like that of Dr. Manion is expected to be, should regain in full its former popularity.

Globe and Mail—Canadian Fascists have decided to meet in Kingston instead of Toronto. Some of them may have the idea of becoming acclimatized.

Electric clock donated by the International Lithographic Co. Second Prize—One dollar.

15. Hand-hooked Rag Rug. First Prize donated by Mrs. Shepherd.
