

The Porcupine Advance Amateur Photography Contest

RULES & REGULATIONS

1. This contest is open to any person living in the Porcupine District, other than professional photographers.
2. Contestants may enter as many pictures as they wish any week.
3. Pictures to be entered in the contest must be taken to one of the stores advertising in the contest section for developing and printing, and be entered at that store.
4. All pictures must be finished during the term of the contest: July 18 to September 22, 1938.
5. Each week's entries must be made before 4 p.m. Thursday. Pictures received after that time will be included in the next week's judging.
6. Contestants are cautioned against placing names or initials on pictures entered. A number will be used by the Contest Manager to identify each entry.
7. In the event of several particularly good entries being made in any one week, the judges reserve the right, after selecting the winning picture for the week, to re-enter any of the remaining pictures in any future weeks.
8. Prints entered in this contest become the property of The Porcupine Advance.
9. Glossy prints are required and negatives less than 2 1/4 x 2 1/4 inches must be enlarged.
10. Employees of The Porcupine Advance and their families are not eligible to enter the contest.
11. The decision of the judges shall be final.

See the New Model "Brilliant V6"

VOIGTLANDER mirror camera

It is unique because no other camera has such a large, bright and clear view in the finder. You can see at a glance whether the shot is worth-while. For a sport scene where the picture must be taken at the exact moment, the front section of the finder hood is simply pressed back by the finger, thus giving an ideal sports frame-finder. With the apertures of F 6.3 and F 7.7, it is not necessary to estimate distance in focussing, owing to the Voigtlander "Three Point" focussing. Just set the lens at "Portraits," "Groups" or "Landscapes" and a sharp picture is obtained. With apertures of F 3.5 and F 4.5 focussing is done according to the feet

scale. In winding on the film it stops automatically at the right distance ensuring proper spacing of the twelve 2 1/4" x 2 1/4" exposures that are obtained on one film. Another feature is the unbreakable, unbendable moulded body with a handy built-in compartment for spare lenses, filters, etc. The crowning feature is the celebrated Voigtlander lens with its sharp definition as standard equipment.
