### Prizes and Awards for Best Gardens

Horticultural Society Announces Annual Competition.

Timmins Horticultural Society has again announced the annual garden competition held under its auspices. Full particulars of this competition are given in the prize list issued some days ago. As usual there is a special section for Hollinger townsite gardens. This eliminates the possibility of two prizes being awarded to one garden, and so extends the prize list, but it does not alter the possibility of a townsite garden being the best garden of its size in town. There is also a section for Buffalo-Ankerite home gardens and also for Schumacher, Gold Centre gardens.

The following are the classes in the garden competition:

- Hollinger Townsite Gardens Only
- 1st prize—Donated by Hollinger Mine
- 2nd prize—Donated by Hollinger Mine
- 3rd prize—Donated by Hollinger Mine
- 4th prize—Donated by Bertram Bros.

**Gardens 30 Feet and Over**

- 1st prize—Donated by Gamble-Robinson.
- 2nd prize—Donated by Mrs. D. Cameron, agent Watkins products.
- 3rd prize—Donated by the Timmins Flower Shop.

**Silver Cup—Donated by Mayor J. P. Bartleman for best garden, to be won two years in succession before becoming the property of the winner. Won by W. Irving, 1936; L. Laakso, 1937.**

**Kirkland Lake Delegate Protests "Steam Roller"**

One of the interesting features of what was largely a routine affair—the Ontario convention of the Conservative party—was the protest lodged at the gathering by G. D. O'Meara, one of the delegates from Kirkland Lake. When the constitution was being discussed Mr. O'Meara, a member of the constitution committee, expressed his opposition to "any steam roller from Toronto or elsewhere."

### Barry's Bay Couple Observe Anniversary

Silver Wedding of Mr. and Mrs. Paul B. Mask.

Relatives and friends of the family resident in the Porcupine district will be interested in the following reference in The Eganville Leader to the twenty-fifth anniversary of the wedding of Mr. and Mrs. Paul B. Mask, of Barry's Bay: "A celebration of great interest took place in Barry's Bay on Friday, June the 24th, when Mr. and Mrs. Paul B. Mask celebrated the twenty-fifth anniversary of their marriage at their Island home there."

"At 10 a.m. a High Mass was celebrated for their intention by Mrs. Mask's brother, Rt. Rev. Mgr. Biernacki, P.P., in St. Hedwig's church. The sacred edifice was beautifully decorated for the occasion, in a twenty-five effect formed with rose blooms. Mr. and Mrs. Mask, together with all of their nine children, were in attendance and received Holy Communion in a body."

"Mrs. Mask was charmingly gowned in a silver grey triple sheer and lace combination jacket dress with a grey sailor hat to match; she also wore a silver corsage."

"After the ceremony, Mr. and Mrs. Mask and their family returned to their island home where a banquet dinner was served to about a hundred of their immediate friends and relatives. The rooms were beautifully decorated with white and silver streamers and silver beile and peony rose cut flower blooms, also a table centre of twenty-five silver roses in a silver basket—the gift from their nine children."

"During the dinner speeches were given congratulating the jubiliarians by Rt. Rev. Mgr. Biernacki, Rev. Father George of Cormac, Rev. Father McNamara, P.P., Rev. Father Kulas and Mr. Henry Chapeskie, Reeve of Barry's Bay; Dr. Maloney, Mr. W. K. Pope and Dr. V. Byrne. Mr. Mask very graciously responded and thanked the speakers and paid glowing tribute to Mrs. Mask's many good qualities as a wife and helpmate."

"Later in the evening, Mr. and Mrs. Mask entertained hundreds of friends at a reception in the town hall. They were assisted in receiving their many guests by their daughters, the Misses Evelyn, Florence, Teresa and Dollie; Mask and son, Raymond. An enjoyable evening was spent by all and later lunch was served to the many guests."

"Mr. and Mrs. Mask were the recipients of many beautiful and useful silver gifts, also congratulatory telegrams from Mr. B. L. Biernacki, Saskatchewan; Mr. and Mrs. Jack Anderchick of Cobalt, Mr. A. Olson of Chicago, Mr. and Mrs. T. E. Wright of Ottawa, Mr. and Dr. and Mrs. C. H. Archibald, also of Ottawa."

"Among the out-of-town guests were Dr. and Mrs. Maloney and son, Henry, of Eganville, Mrs. A. Yercha, and Mrs. A. Olson, of Hammond, Indiana; Miss Beatrice Biernacki, R.N., of Chicago; Miss Martha Biernacki, R.N., of Hammond, Ind.; Mr. and Mrs. Peter Cybulskie and Mrs. Frank Mask of Wilno, Dr. McPhee, Miss K. B. MacDonald, Mr. and Mrs. Paul Cybulskie, and Mr. and Mrs. Anthony Cybulskie of Killaloe."

### Moose Fatally Hurt When Struck by T. & N. O. Freight

Friday morning section men on the T. & N. O. railway shot a big bull moose lying beside the tracks near Temagami, and thus put the poor animal out of much misery. The big bull moose had its back broken and was otherwise injured but apparently had lived several hours after receiving the injuries. It appears that the moose had strayed on the T. & N. O. track at Mileage 79, just south of Temagami on Thursday afternoon. Struck by the engine of a T. & N. O. freight train, the animal was thrown down a 20-foot embankment. The crew of a northbound train on Friday morning noticed the head and forelegs of the big moose as they were passing a swamp near Temagami. The animal was nearly 60 feet from the railroad track, and this fact indicates the force with which the animal was thrown clear of the track. On reaching Temagami the crew of the northbound train reported on the injured animal. A section crew in charge of Section Foreman Sam Constante went down the line to investigate. Finding that the big bull moose was injured beyond chance of recovery, the animal was shot to end its sufferings. The body of the dead moose was then carried back to Temagami, where arrangements were made for its disposal.

### Army Worm Visits Kapuskasing Farm

Experimental Farm Being Troubled by Insect Pests.

(From Northern Tribune, Kapuskasing) We had a story last week obtained chiefly from Mr. E. T. Goring, assistant superintendent of the Experimental Farm, about the unusual invasion of army worms this year, which we were headed off from using last issue; but as the worms are still much in evidence, the story is still timely.

Mr. Goring informed us that the worms have done a lot of damage at the big government farm this year, and that they may be expected to remain a nuisance for perhaps two weeks longer. They will continue their depredations on practically all vegetation until they reach the stage of metamorphosis into brown moths, which is the adult stage; and then if they survive the winter they will be with us again in 1939 in another cycle of worms. Nature takes a drastic hand occasionally in controlling such confounded pests as these, which is a good thing of course; but when they may happen cannot be predicted in advance with assurance.

Our citizens are familiar with the sight of great numbers of these crawling worms; they seem to be almost everywhere, yet the damage done is not uniform. At times the grass in Riverside Park seemed to be alive with them—but the grass is as green as ever, and the park flowers do not seem to be harmed. We heard of one gardener who was rolling a drum over the turf one day when the worms were bad, and he was so sickened by their mangled remains on the roller, constantly turning up before his eyes, that he took violently sick and had to lay off work.

As anti-dotes Mr. Goring recommends the familiar plan of digging a straight-edged ditch on the side of a garden patch to be protected. The worms fall into this and can't climb out; then the job is to destroy them at the bottom of the ditch, which is easily done.

A strongly recommended poison antidote (which of course must be guarded from children and animals) is made up from 25 pounds of bran or sawdust, one pound of paris green, and one quart of cheap molasses. A cheap grade of molasses smells sweeter, and it is this sweet smell that attracts the worms to eat and die. The above mixture will treat two acres. It should be spread along borders and plot edges, best about sundown, and should be repeated daily for best results.

### Beseech All to be Good at Kirkland Lake on July 27th

The police of Teck township by inference at least have issued a special appeal to all citizens of Kirkland Lake and the rest of the township to be good on Wednesday evening, July 27th, or at the worst be as good as they can. On July 27th the Teck township police want to be merry-makers and so beseech all others not to be law-breakers. On that night the annual policeman's ball is to be held at Culver park, and it would be a fine gesture on the part of the rest of the population if the policemen were left free to attend the dance without duty calling in the shape of a drunken voice, or breaking and entering the joy of the dance by breaking and entering elsewhere.

### Regretting the Days When Hon. A. Beck was at Helm

(Peterborough Examiner) Hydro has not had a strong hand on it since the days of Sir Adam Beck, the man whose child Hydro was. Sir Adam in his day may have been somewhat of an autocrat, but his hand was firm. He knew exactly what should be done and he refused to do anything else. He took the advice of competent engineers and acted on it. This province cannot hope to produce another Adam Beck, and if it did we doubt whether the members of our Legislature would be inclined to leave him alone and allow him to work.
