Christian Science Monitor:—Alaska is being planned as an outpost of defence for the United States. The usual coastline guns will probably be placed, but it is rumored that the government is counting mostly on the mosquitoes.

Wounds Prove Fatal to Employee of Camp

Court Session at Iroquois Falls Last Week

Iroquois Falls, Ont., Aug. 19.—(Special to The Advance)—Emile Lidaux succumbed on Thursday morning in the Anson General hospital from the accidentally self-inflicted abdomen wound which he received while preparing ice for drinking purposes at the Wood's Department Camp, Twin Falls, where he was employed as chore boy.

The accident occurred on Sunday, about noon, when Mr. Lidaux was chopping ice. His cutter slipped and cut open his stomach. The best of care and attention was administered both by the doctors and fellow workmen who rushed him here to the hospital. The nasty gash was reported to have gone quite deep, cutting much of his intestines, and although hopes were held for his recovery, yet it was realized that he was in great danger.

Mr. Lidaux, who was 47 years of age, was well-known throughout the Wood's Department having been employed fairly regularly during the past 8 or 9 years, doing various jobs in the lumber camps.

Although he had made many friends in Ansonville, he had no immediate relatives here, the nearest being his father, Mr. Raymond Lidaux, of Three Rivers, Quebec. Mr. Lidaux was a single man.

Burial took place on Friday morning, from St. Anne's Catholic Church, the Rev. A. A. Peltier conducting the last rites. From the church he was borne to the Iroquois Falls cemetery, and laid to rest.

Court Summary

Magistrate E. R. Tucker, presided over the court session held here on Thursday, in which three men were meted out a total of seven months for violations of the law, for which they were charged.

Robert Young, who gave his home address as Moncton, New Brunswick, was sentenced to three months in Halleybury jail, for having assaulted an officer. The charge arose when Young was questioned if he was riding on the tender of a freight train going through Cnnaught, by the T. & N. O. officer, L. Richardson. Officer Richardson apprehended the tramp, who said "no," but when the officer was leaving he retorted in a smart way, "Thanks for the ride." Richardson, returning to the man, was about to question him further, when Young drew his knife, in an attempt to stab the officer, who was too quick for him, and administered a blow, later placing the hand cuffs on his wrists. He was brought to court here, and will serve his time in jail, having ample time to think the matter over.

Napoleon Bolduc, who gave his home address as Timmins, was caught at Porcupine Junction, in an attempt to steal a car. Watched by police, he managed to connect the ignition wires of a car belonging to a resident of the Junction, and was about to start away when caught. Bolduc was also given three months at Halleybury for his misdemeanor.

William Smith, a resident of Iroquois Falls, will serve thirty days for being in charge of a car while under the influence of liquor. Allegedly caught driving in a zig-zag fashion by Provincial Officer Stringer, he was apprehended and brought to court.

William Smith, a resident of Iroquois Falls, will serve thirty days for being in charge of a car while under the influence of liquor. Allegedly caught driving in a zig-zag fashion by Provincial Officer Stringer, he was apprehended and brought to court.

Heavy Fines Follow Highway Accident

Suspension of Permits Added to Other Penalties at New Liskeard.

New Liskeard, Aug. 22.—(Special to The Advance)—Sequel in part to a serious accident on the main highway north of Dickson's Creek in a fierce storm last winter, and outcome in part to another charge of similar nature that followed on an incident on the same road a short distance north of the same place last Tuesday night, Lawrence Newton, young man whose home is here, was fined \$250 and costs on two charges of reckless driving and had his driver's permit suspended for a year. He appeared before Magistrate Atkinson on Friday, was represented by D. G. Dean, Halleybury barrister, pleaded not guilty on both charges and was convicted on both.

On the earlier count the fine was \$200 and costs, with six months' suspension of the license, and on the latter one, laid by provincial constable William Gilling following an alleged race between accused and Frank Miller, also of New Liskeard, the penalty was \$50 and costs and a year's suspension, the latter to be consecutive with the other lifting of the permit. Miller also was convicted on the reckless driving charge against him arising out of the Tuesday incident, and he, too, paid \$50 and costs and had his permit suspended.

The accident last February occurred in a snowstorm and as the result of the collision which happened at that time Charles Johnston, of New Liskeard was in hospital for more than four months, while Newton himself and his companion, named MacLaughlan, both were under medical care for many weeks. Johnston returned only recently from Toronto. Out of the same incident, Newton also had been charged with drunken driving and taking a car without the owner's consent, but both of these counts previously had been dismissed.

Toronto Telegram:—Watchman at a paint plant is accused of helping himself to the paint, which is rather an off-color proceeding.

Claims Timmins Water Supply is Unpalatable

Opinion Is Expressed by Dr. E. A. Berry of Ontario Health Department, at Weekly Meeting of Lions Club. No suggestion Water is Contaminated. Hollinger First Aid Team Give Demonstration

"The water supply in Timmins is the most unpalatable I ever drank," was the comment of Dr. E. A. Berry, director of the Sanitary Engineering Division of the Ontario Department of Health, in an address to the local Lions Club at their weekly dinner last Thursday night.

Dr. Berry, in making this observation, however, hastened to say that there is no suggestion that the water is in any way contaminated. The taste, he explained, is surprising to a stranger as well as the light brown color. The latter condition can be remedied, he told the meeting, by filtration. The Timmins water supply has one redeeming feature in the fact that it is much softer than water found in Southern Ontario. Dr. Berry declared, only a small amount of soap being required to make a lather. The speaker, in referring to swimming pools, complimented Schumacher Lions on the fine new pool which was opened recently.

Another feature of the meeting was a visit from the Hollinger Mine first aid team, the members being T. H. Richards, B. Ash, J. D. Reid and R. B. Dunsmore. They were introduced to the gathering by Lion Walter Greaves, Mr. Ash acting as spokesman.

He described first aid as a bridge between the patient and the doctor. Members of the St. John Ambulance

Brigade are taught the proper methods of forming this link between an injury and medical attention. The St. John Ambulance Brigade was first formed in 600 A.D. and since that time has spread its organization over the entire British Empire. Mr. Ash related. The Timmins branch was formed in 1926 by T. H. Richards and has enjoyed a steady growth ever since that time. Last year alone over 400 cases were attended to on the sport field and other occasions. Reference was also made by the speaker to the good records made by the Hollinger team in different first aid contests throughout the Dominion.

The team gave a demonstration of dealing with a broken leg case when no proper medical equipment is available. Ties, belts and handkerchiefs were pressed into service and the "patient" was successfully looked after. Dr. M. J. Kelly, president of the club, complimented the Hollinger team on their efficient work and expressed the opinion that the St. John Ambulance Brigade is not merely a bridge but a complete organization in itself.

During the evening Past President Ray Hughes presented Lion George Francis, who recently joined the ranks of the Benedicts, with a set of glassware on behalf of the club.

Visitors for the occasion included A. E. Belanger, of Kapuskasing, and E. C. Binkley, of Winnipeg.

Croatians of District Honour Dr. Krnjevic

(Continued From Page One)

and service alike were perfect and were a decided credit to the Pearl Lake hotel. Among the guests present were:—Dr. Krnjevic, the guest of honour; V. H. Evans, of South Porcupine, reeve of Tisdale township; Rev. Fr. Martindale; D. E. Keeley, of the McIntyre; S. A. Wookey; A. H. Cooke; J. R. Todd; Joseph A. Bradette, M.P.; Geo. A. Smith, of Cochrane; John Krzmaric, vice-president of the Croatian Peasants' Party of Canada; Andrew Sever, president of the Schumacher Croatian Peasants' Party; Mike Heilmovich; Frank Bonich; Frank Viecevic.

After grace had been said by Rev. Fr. Martindale, the delightful full course dinner was enjoyed, delicious fruits being a feature of the dessert. Mr. D. E. Keeley acted as toastmaster and master of ceremonies. The toast to the King had been duly honoured, Reeve V. H. Evans was called upon to extend greetings and welcome to the distinguished guest. Reeve Evans gave sincere welcome to the guest of the evening and incidentally spoke of his own pleasant experiences with the Croatian people in this camp. He had found them a fine type of citizen, and he had sincere pleasure in welcoming Dr. Krnjevic to Tisdale on this occasion.

Mr. Keeley added good words for the Croatians. He had many associations with the Croatians in Schumacher and district and had always liked them well and found them good citizens. There were black sheep, perhaps, in every family, every race, but Mr. Keeley said that the Croatians in general were fine citizens and were taking a good part in building up their adopted country.

Mr. Joseph A. Bradette, M.P., extended sincere thanks for the kind invitations to this pleasing banquet. He knew the Croatian people well and so held them in high esteem. They were valuable citizens for Canada because of their ability, their industry and their sincerity. Mr. Bradette also had good words for the guest of the evening, Dr. Krnjevic and his work for Croatia and its people, his good efforts following them here to their adopted country and continuing interest in their success and welfare. Mr. Bradette referred to Dr. Krnjevic's representation of his native land in the League of Nations, and the member for this riding took occasion to show the value of the League of Nations and to express the belief that its continued work would eventually bear fruit for the nations of the world. Mr. Bradette looked forward hopefully for the day when the brotherhood of man would be more generally recognized and observed throughout the world.

Dr. Krnjevic, in expressing his thanks for the honour conferred on him by such an event as the banquet, said that he felt that it was an honour also to his people. He was grateful for the kindness shown him by Canadians and still more thankful for the kindness and friendliness to the Croatian people coming to Canada to make their homes. He urged his people to be loyal to their adopted country—a country that stood so fairly for opportunity, for liberty, for democracy. Dr. Krnjevic referred to the situation in war-torn Europe to-day. He described the issue as really one between liberty on the one hand and oppression on the other—between dictatorship and democracy—between tyranny and freedom. The Croatian Peasants' Party, he said, was on the side of liberty and western civilization, seeking for progress, for peace and for comfort for the ordinary man. In Europe to-day the smaller nations felt they were in danger. Their hope was in Britain and France, the gallant upholders of democracy and western civilization.

Mr. Keeley thanked Dr. Krnjevic for his enlightening address and referred to the benefit not only to the Croatian

people but also to the district in general from the visit of the guest of the evening.

Rev. Fr. Martindale paid his respects to Dr. Krnjevic, referring to the latter's visit here three years ago, and his earnest advocacy of all good principles. Because of the high standards of life held by Dr. Krnjevic his visit was of unusual benefit. Father Martindale made special reference to the younger generation of New Canadians and their entry into Canadian citizenship. He spoke of their special success in their school studies. They were usually among the leaders in their studies at school and he believed this was due not only to natural ability and the desire to learn, but also to excellent home influences and the discipline and ambition to be the best possible citizens urged upon them by their parents.

G. A. Macdonald, editor of The Advance, spoke briefly of the value of New Canadians like the Croatians, and the influence exerted by the guest of the evening in forwarding the ideals of liberty and progress.

During the evening more than one of the speakers mentioned the loyalty and goodwill of the Croatian people here as evidenced by such incidents as their active and able part in patriotic parades and demonstrations.

After the banquet the guests had a pleasant hour in discussion. Dr. Krnjevic's knowledge of the European situation being very wide and complete and his opinions being most interesting. He has high hopes that further war may be averted and the cause of liberty and progress advanced by the alliance of Britain and France, to which now seems to be added the probable support of the United States in a bold front against further aggression and oppression of the nations seeking a continuance of freedom and the development of their countries and the advancement of their peoples along the lines of democracy and western civilization.

Woman is Charged With Breach of Liquor Act

Following a raid early Sunday morning by Provincial police on premises in DeCora Township, Dorothy Durval is charged with a breach of the Liquor Control Act. She will appear in police court before Magistrate Atkinson here to-morrow afternoon.

Tours Across Canada are Proving Popular This Year

Taking advantage of a series of "Across Canada" tours, which have been so popular with Old Country people this summer, a party of twelve persons recently disembarked from Cunard-White Star liners at Quebec to commence a pleasure trip over Canadian National Railways through centres as far as the Pacific Coast, and return via Niagara Falls and New York.

These escorted tours are designed primarily to afford the maximum variety of scenery, sightseeing, amusements and comfortable travel within a reasonable limit and expense and under ideal conditions. The inland itinerary has been carefully planned to cover the most interesting cities in Eastern Canada, and the scenic wonderlands of Western Canada, the Rockies and the Pacific Coast.

Recognizing that Canada is a country where the British tradition went forth with the pioneers, these "Across Canada" tours are being recognized by Old Country people as leading to one of the greatest playgrounds of the Empire.

Montreal Star:—But it is a great mistake to say that the last Great War was fought in vain because it did not end in permanent and universal peace. If it had not been fought by the allied and associated defenders of liberty, we might indeed have had peace—the sort of peace they are enjoying to-day in harried and hag-ridden Austria.
