### Heavy Penalties on Lightless Vehicles

#### Car Driver Also Dealt With at Kapuskasing Court.

Kapuskasing, Sept. 14.—Imposing the maximum fine on a farmer for travelling at night without lights, Magistrate E. R. Tucker took a serious view of the offence in view of the accident which developed, and stated that "if the extremely dangerous practice of farmers driving without lights at night continues it might become necessary to change the law giving courts the authority to prohibit drivers of horse-drawn vehicles from using the highways in the same manner that car drivers are prohibited when they lose their licenses."

The magistrate regretted that the law did not give him that authority in the case in question which involved two drivers of vehicles travelling without lights and took place on the main highway in the Township of Idington, between Kapuskasing and Hearst, when F. Charpentier, of Hearst, driving his automobile, crashed into the rear of a

farmer's wagon driven by Ferdina Belanger.

In the collision the rear wheels of the wagon were broken and the horses bolted in the wake of Charpentier who continued on his way until he met another car, both automobiles coming to a stop.

The horses, however, in their fright did not stop, but bounding the Charpentier car crashed into the front of the second car, one of the team disembodying itself and the other breaking loose from the wagon, to continue on its way home. Two occupants in the car had a narrow escape when the tongue of the wagon passed completely through the windshield and drove its way into the car, directly between them. Had the tongue been a matter of inches on either side, serious if not fatal injuries would have resulted.

Charpentier for his share in the accident was severely dealt with in paying a fine of \$25 and costs, and by the impounding of his car for three months it will be kept off the highway, while the accused also had his operator's license suspended for three months.

Kitchener Record: Lending is swapping cold cash for promises.

### Demonstration of Fire Risks Given

L. J. Bishop, of Fire Marshal's Department, Addresses Kiwanis Club.

Explaining his address with a series of realistic demonstrations, L. J. Bishop, of the Ontario Fire Marshal's Department, was an interesting speaker at the weekly luncheon of Timmins Kiwanis Club on Monday afternoon.

He explained in detail a few of the more common hazards and urged his listeners to guard against the danger of fire. An unusual feature of the experiments was the inflammability of ordinary corn starch or flour when shaken over an open flame. Both materials burn rapidly, giving the impression that the air is on fire.

The danger of children playing with celluloid dolls was also stressed by the speaker. Kiddies, not realizing the results hold a burning doll in their hands until the fire touches them, often with fatal consequences.

The difference between treated cotton and ordinary cotton was also shown, the first variety refusing to burn and the latter being consumed rapidly.

Gasoline fumes, Mr. Bishop warned, will travel a distance of 500 feet to their source if ignited. The speaker also presented a series of pictures showing household firetraps and a cross section of a house where defective electric wiring could be seen. Other examples included the chimney of a lumber mill without a spark arrester, and the storeroom of a hardware store where many types of inflammable goods are placed side by side. Glass utensils in windows concentrating the sun's rays were also cited as an important fire risk.

Visitors at the meeting included W. E. Eden, also of the Fire Marshal's Department; C. A. Pack, of the Dominion Bank Head Office, and Floyd Tait.

### Board to Name Successor to the Late John Bradley

Halleybury, Sept. 15.—(Special to The Advance)—The vacancy on the public school board here, caused by the death of its oldest member in point of service, the late John A. Bradley, will be filled at the October meeting of the trustees, it was announced following the regular session of the board, held Monday night and a few hours after the four members in town had acted as pallbearers at Mr. Bradley's funeral.

The meeting ordered letters of sympathy sent to Mrs. Bradley and to her son, Councillor Wes Bradley. A daughter, Miss Bradley, who was well known in the North as a missionary, died in an automobile accident last year. Mr. Bradley first sat on the board in 1927 and had been a member almost continuously since. His term would have expired next January. Trustees at present in town constitute only a bare quorum of the board, as A. G. Kirkpatrick, another member, is in continued ill-health and at present under treatment. He also is a member until the end of the present board year. Trustees have the legal right to appoint a successor to Mr. Bradley without calling an election.

## TEN YEARS AGO IN TIMMINS

From data in the Porcupine Advance Files

The regular meeting of the town council was held ten years ago with Mayor E. L. Longmore in the chair and Councillors A. G. Carson, G. S. Drew, W. H. Pritchard, P. Dougall and R. Richardson present. One of the most important items of business was the passing of two by-laws in regard to the assessment of the town. The one provided for the making of the year's assessment between April 1st and Sept. 30th, instead of the early part of the year as in the past. The other was connected with the plan of the new time of assessment. This second by-law provided that the 1928 assessment be adopted as the assessment for 1929, subject, of course, to the addition of any new buildings, etc., and also the court of revision to hear any appeals.

The A.S.D. Softball team champions of Timmins league and winners of the semi-finals with Schumacher, defeated Iroquois Falls in the finals of Cochrane district ten years ago. The deciding game was played at Iroquois Falls, the A.S.D. having some weeks before defeated the Falls team in Timmins. The score was 5 to 2, in favour of the A.S.D. team.

The annual meeting of the Porcupine Ski Club was held ten years ago with a large attendance and all enthusiastic to equal the success of the previous season. The following were the officers elected for the ensuing season:—President, Dr. Sundberg; vice-president, J. D. Brady; secretary-treasurer, Jack Elphick; convener of social committee, Art Keyes.

Sidney Alfred, aged four months, infant son of Mr. and Mrs. J. Brunton, 160 Elm street north, passed away ten years ago after six days' illness. The funeral services were held at St. Matthew's church at 3 p.m. Saturday afternoon, Sept. 8th, 1928, and were conducted by Rev. Cannon R. S. Cushing.

Mr. Geo. S. Drew brought into The Advance office ten years ago a thistle that grew in his garden and that a short-sighted man might pass at a distance as a Scottish thistle. The flower had the fine colouring of the Scotch thistle, but the leaves gave it away as only being half-Scotch or less.

Previous to the departure of Miss Ethel M. Quick for Maple Creek, Sask., a presentation of a purse of \$100.00 was made to her as a mark of the appreciation felt for her splendid services as Deaconess of the United Church here ten years ago. The presentation was made by the Women's Missionary Society of the Cochrane Presbytery, together with all the organizations of the United Church, Timmins. Miss Quick was Deaconess of the United Church of the district for four years and during that time gave untiring and invaluable services in all the work of the church.

Oliva Hulko, fourteen years of age, 65 Balsam street, north, had a narrow escape from death ten years ago when a bullet from a "22" rifle plowed a hole between his scalp and his skull. Fortunately the bullet did no serious injury, but his escape was a miraculous one. The fraction of an inch in the position of the foolishly-fired rifle would have meant death to this boy. The rifle was fired by some small boys who were out north of Balsam street. Some of these lads were no more than eleven or twelve years of age. Young Hulko had warned them of the danger they were causing by having the rifle on the street, but they paid no attention until one of their shots struck him on the head inflicting a scalp wound, but by the merest good luck not killing him where he stood.

The Kiwanis Club luncheon ten years ago at the Empire Hotel was a bright and lively event, the members making a good start for the season after the vacation period. President C. G. Keddie occupied the chair and there was much of business and interest dealt with.

A pretty wedding took place at the United Church, Timmins, ten years ago, when Miss Fearn McCarthy, daughter of Mr. and Mrs. J. J. McCarthy, of Timmins, became the bride of Mr. Chas. Roberts, of Johannesburg, South Africa. Rev. J. D. Parks, minister of the Timmins United Church, officiated at the ceremony. The wedding music was played by Mrs. J. D. Parks.

A record size pike was caught ten years ago at McArthur Lake by a party camping there. The fish when caught was fully 35 lbs in weight. After being carted to town, a distance of 20 miles, it tipped the scales at 32 lbs. 2 ounces. It was fully four feet in length and was all round a monster pike. Mr. A. J. Kilbride, who was in the party and who had done considerable fishing in Nipissing, which was famous for its big pike, said that it was the largest pike he had ever seen or heard of. The fish was caught by use of a heavy troll.

In the South Porcupine news ten years ago: "Bigger and better than ever seemed to be the general verdict of the Porcupine Agricultural Fair held to-day at Golden City (Porcupine). The grounds were practically crowded at times with the throngs that came from all parts of the camp. Though cold, the weather kept up until all was over. There was quite a large showing of stock. V. Laffin's team won the drawing contest."

Word was received in town ten years ago of the death of George Kampi, for several years a well-known resident of Timmins. He was also known in Sudbury, where it was understood he had relatives. The report reaching Tim-

mins was to the effect that George Kampi met death by drowning in the Red Lake area. Until a few months before the fatality, George Kampi was a resident of Timmins and for some years was an employee of the Hollinger Mine. A widow and one son survived.

In The Advance ten years ago, (in part):—"The Caribou gold mine in Whitney township, about a mile from Porcupine, is now at active mining operations. During the past few weeks a mining plant has been taken into the property, installation completed, buildings erected, and work is now in progress at active mining. Mr. S. Monck is in charge of the property and in the course of six weeks has made a record for what has been accomplished. Hoisting machine, pumps, steelsharpeners, electrical equipment, etc., have been hauled to the property and duly installed. At no time have more than twelve men been on the property and the usual number has been eight, but the small force of men have been the expert kind knowing their business and under expert direction, and the result has been that a great deal has been accomplished."

The McIntyre baseball team, champions of the Temiskaming Baseball League, and holders for the season of the R. A. McInnis trophy, played an exhibition game at Iroquois Falls ten years ago with a team of the old-time ball players of that town. The game was a live and snappy one throughout, with few errors and plenty of thrills and good play. The score at the finish was 3 to 2 with the Iroquois Falls outtimers on the best end of the score.

Among the local items in The Advance ten years ago were: "Mr. Harry Campbell, of Schumacher, accompanied by Mr. James Montgomery, returned home on Sunday last after an extended tour of Prince Edward Island and other points in the Maritimes. They report a most enjoyable vacation in the 'garden of the Gulf.'" "Mr. J. S. McGuire has returned from his annual vacation in the south." "Mr. W. Rinn left Wednesday for Montreal and will be accompanied back from the South by Mrs. Rinn and little daughter."

"Mr. Roger Clayton, of Toronto, was one of a party of four motoring to Timmins last week. He said that he drove the car and the other three cursed the road near Ramore." "Born—to Mr. and Mrs. Richard Stephens, Jr., on Sept. 1st, 1928, at 15 Meesies avenue—a son." "Mr. C. W. Hodgins returned this week from Toronto. He attended the exhibition, the big automobile show, and also the big swim." "Mr. and Mrs. S. R. McCoy, and daughter, Phyllis, returned on Sunday from a holiday visit to the South." "Mrs. Condie matron of the C.A.S. Shelter, is spending a few days visiting friends at Halleybury."

"Mr. and Mrs. H. W. Hooker arrived

home on Tuesday evening after a visit to the South." "Mrs. Alex Hattie, Mrs. Wm. Inor and Mrs. Matson and family arrived home this week after spending a three months' vacation with their parents in Nova Scotia." "Mr. J. W. Wallace, manager of the Bank of Montreal, Timmins, left this week for a three weeks' vacation in the South."

"Mrs. A. H. Keizer, of Cobalt, has returned home after visiting her sister, Mrs. W. Davidson, 116 First avenue, Schumacher." "Mrs. G. E. Bull, of Edmonton, Alta., is on a visit to her mother, Mrs. Paddy Rowe, 65 Wilson avenue, Timmins." "Dr. E. W. Mitchell, Medical Health Officer for the town of practice there." "Mr. Fred J. Henderson-Cobalt will move to Toronto to take up son, of Buffalo, N.Y., was a Timmins visitor over the week-end." "Miss Gladys Gibbons returned last week from a month's visit to Toronto, Detroit and other points south." "Mrs. W. H. Pritchard returned last week from a visit to Toronto and Montreal." "Mr. J. Ray O'Neill, ex-M.P. for this riding, was a visitor to Timmins last week, renewing acquaintanceships here." "Mr. Russell Grant, of the Imperial Bank staff, is spending his holidays in Toronto and other points South."

### To Bury "Time Capsule" for Future Generations

A "time capsule" to preserve specimens typical of today's civilization and to tell our descendants 5,000 years from

now what this funny old earth was like in 1938 will be buried deep in the earth on the site of the New York World's Fair by the Westinghouse Electric and Manufacturing Company, a statement by D. S. Yougholm, reveals, Science Service states.

Asking for the aid of scientists and historians in determining what should go into the capsule, a glass-lined copper alloy tube, Mr. Yougholm declares that the "time capsule" is to be deposited on the Fair site sometime during the month of September.

Since languages spoken 5,000 years ago are today translated only with great difficulty, the problem of making sure that our children's children many generations hence will be able to understand today's languages is causing considerable concern, his note indicates. Whether books or microfilm photographic reproductions of books are to be included is another question asked by Mr. Yougholm.

Small, easily-preserved objects typical of our culture are the type required for storing, he indicates. The inner glass crypt in which they will rest will be filled with some inert gas such as nitrogen.

Directions for finding the capsule will also be left, although it is not certain in what form these instructions should be deposited.

Canadian Lumberman:—Most men measure the standard of their own goodness by the badness of their neighbours.

Prompt relief from

### HEADACHES COLDS . . . DISTRESS AFTER MEALS

Alka-Seltzer is the new, pleasant way to get two-fold relief from the many common ailments associated with hyperacidity. Because it contains an analgesic (sodium acetyl salicylate) pain and discomfort is banished quickly. Then Alka-Seltzer's alkalinizing agents attack the cause of those miserable complaints. One or two Alka-Seltzer tablets in a glass of water make a sparkling, crystal-clear solution you'll like.

### Alka-Seltzer
