

Lions Club Mock Trial Decision Is Reserved

Danger of Losing His Dinner Prompts "Judge" Wendel Brewer to Adjoin Charge Against President Joe Kelly Until This Week. Attendance at Meeting Almost Hundred Per Cent.

Attendance at the weekly meeting of Timmins Lions Club last Thursday almost reached the hundred per cent mark, the four absentees for the occasion being out of town at the time. The programme got under way with a mock trial. "Constable" Fred Wolno ushered "Judge" Wendel Brewer into his place and the culprit, Dr. Joe Kelly, president of the club, stood in the dock unmoved, as he heard himself charged with reprehensible dereliction of duty, namely, absence from the President's Night meeting. Prosecutor Charlie Yates and defence counsel Sol Platow, were at daggers' points throughout the entire hearing.

Minister of Mines Optimistic on North

Hon. Paul Leduc Predicts Several New Producers This Year.

North Bay, Sept. 24.—"Several" new mining properties will be brought into production next year, declared Hon. Paul Leduc, Ontario Minister of Mines, when he reached North Bay on Friday with the Canadian Pacific Railway party bound for the medal presentation to the quints at Corbell. "July gold production," said Mr. Leduc, "set an all-time high and new mines brought into production this year in the Porcupine, Larder Lake and Long Lac fields contributing to the total. The "several" new properties expected to swell Ontario's mining output next year are located in both the Porcupine and Northwestern Ontario districts, said Mr. Leduc.

Col. C. Bent Unveils Englehart Memorial

Crowd Applaud Patriotic Addresses.

Englehart, Sept. 24.—(Special to The Advance)—Wednesday, September 21st was a memorable day in the history of the town of Englehart.

The War Memorial erected through the efforts of the local Legion was unveiled by Col. C. E. Bent, D.S.O., C.M.G., late of the 15th Batin. now of Noranda, Que.

Every Legion from Cobalt to Noranda was represented, about one hundred and fifty veterans being on parade.

A procession was formed in the school grounds, and marched to the park, headed by the Englehart Pipe Band.

Included in the procession were pupils of both public and high schools, Boy Scouts, Cubs, Girl Guides, and Brownies, and the Women's Auxiliary of the Legion, and members of the I.O.D.E.

A very impressive service was conducted by the local clergy, after which the president of the Englehart Legion, Ernest A. Smith, introduced Col. Bent who unveiled the memorial, and gave a splendid address.

W. G. Nixon, M.L.A., and Capt. Tom Mag'adery also spoke, and the Mayor, Harry Weeks, accepted the memorial on behalf of the town, and urged the school children to respect and reverence the monument, and what it stood for. One of the speakers made the remark that in the present crisis, the British Government should know where Canada stood, and the roar of approval from the veterans, and the large crowd was sufficient answer. The memorial is a replica, one-third reduced, of that in Southampton, England, designed by Leonard Rigby, L.R.I.B.A., who, as a personal friend of the mayor, very kindly sent blue plans of the original. It is a handsome, and well proportioned column, and is a credit to the town.

Following the ceremony, the Women's Auxiliary of the Legion served a banquet in the basement of the Presbyterian Church, and in the evening a dance was held in the Masonic hall, with a record attendance. Englehart Legion wishes to thank all those whose assistance made the day such a conspicuous success.

No Solution is Found for Tax Problem

(Continued from Page One) ment act to include mines in municipal taxation. There was no reason, he felt why the producing mines should be exempted any more than any other industry. Repeat of the exemption would mean five times more revenue to the municipalities than they would otherwise get. He felt certain that development would not be interfered with, and that non-producers would be exempt. Later he modified his resolution to apply only to mines with production higher than \$10,000.

Pioneer Prospector Passes at Toronto

Word was received on Saturday night that another pioneer of the North had passed away at noon that day, when a wire informed Mr. F. J. Hornby of the death of his uncle, Mr. William Hornby, of Toronto.

Awning Burned in Fire on Saturday

Blaze at the Massey Bloek Causes Damage Estimated by Firemen at \$25.

Once again firemen were called on Saturday night at 6.30 to extinguish a fire in an awning above the Bank of Nova Scotia in the Massey Bloek. Damage was estimated at \$25. The blaze, as on several other occasions, is thought to have been caused by a cigarette thrown from an upper window.

Jury Recommends Use of Gas Detectors in Mines

Rider Added to Verdict in Case of Robert Savage Who Died from the Effects of Carbon Monoxide Gas Poisoning at the Paymaster Mine on Sept. 16th.

South Porcupine, Sept. 24.—(Special to The Advance)—An inquiry into the death of Robert Savage, who was gassed at the Paymaster Mine on Sept. 16, was probed by Coroner Tucker at the township hall on Friday morning. With W. G. Skinner as foreman the jury members were Messrs. Sauder, Adamson, Laforest, Hepburn, Briscoe, Kennedy and Berylly.

In his forward to the jury the Coroner said that this death was not to be classed as unavoidable—and not to be put in the same category as those deaths in mines caused by accidental fall of loose rock—that death by monoxide gas poisoning should not happen if proper care be taken after explosion.

Testimony was given by D. Smith, who gave his opinion that the deceased was suffocated by monoxide gas and that while abrasions were present as the result of the fall of 40 feet down the shaft, yet there was no indication of fracture, death symptoms were those of gas poisoning.

Dr. McClaren corroborated this testimony. R. Maki, who was also gassed but was resuscitated, was present and gave evidence that he was working with Savage on graveyard shift on Thursday, that they blasted by electric fuse at about 20 minutes to 6 a.m., and then then started to go up into the blasted area at 6.05 a.m. Smelling gas they started to come down, but were overcome and fell, he was kept from falling far by a plank, and knew no more till he "woke up" in the head frame of the shaft.

Asked if he heard air going through the hose used to clear gas out of the hole, he said he did. Later it was found that rock falling upon the air line had kinked the hose, shutting off the air supply, this contributing to the disaster.

Testimony of the men who found Maki and Savage was taken, Mr. Pugsley, underground captain and superintendent, was cross-examined by Inspector Weir.

Gas masks were kept at the head of the mine in the office—but were not used below unless in emergency. Ladders used in the mines were sometimes damaged by rock fall after blasting. There was no way of detecting gas except by smell, which is sufficiently pungent to be noticed at once.

There are no gas detectors used in the mine and no regulations regarding time taken to clear out gas after explosion. It is difficult to tell how long—sometimes an hour must elapse, sometimes it will be blown out in a few minutes.

Mr. Austin Neame, superintendent of the mines rescue stations described an instrument for detecting gas and illustrated a method by example of one. Other than this detector, canaries (which are not practical in everyday use) are the only other method known for detecting this gas in quantity.

In addressing the jury Coroner Tucker said: "The evidence in this case discloses that this death was accidental, and there is no evidence of negligence on the part of the mine's officials or the mine company. It is quite clear, however, that no one should die from carbon monoxide poisoning in any mine, the simple reason for knowledge that gas of this nature is present in varying quantities after each blasting operation. Deaths from carbon monoxide are in a different class from almost any other type of accidental death which occurs in mines, and which might be considered unavoidable risks peculiar to the hazardous industry. Loose rock, the presence of which it might be impossible to detect is quite different, because there is recognized means available for the detection of these gases. The method of depending on smell, stated today as the only method of detecting the presence of this gas in dangerous quantities is the one in use at present, and is one which depends on the judgment of the individual, and certainly not very reliable. The only question appears to be whether the cost of providing the testing

Wedding at Church of Nativity To-day

Miss Honor Hirschfield and Mr. W. F. Tennyson Married.

In the presence of a few friends of the bride and groom, Rev. Fr. O'Gorman united in marriage Honor, daughter of Mr. and Mrs. Harry Hirschfield, and Mr. Wm. F. Tennyson, son of Mr. Wesley Tennyson, of 34 Commercial avenue, and the late Mrs. Tennyson. The wedding took place at the Church of Nativity, at 9.30 o'clock, this (Monday) morning, the altar of the church being beautifully decorated with mixed flowers and lighted tapers. Miss Olive Lafrenier presided at the organ.

Given in marriage by her father, the bride was charming in a navy blue tailored suit, with navy blue accessories and a corsage of tea roses, lily-of-the-valley, and fern. She carried a navy blue prayer book.

Mr. Gerald Votour attended the groom as best man.

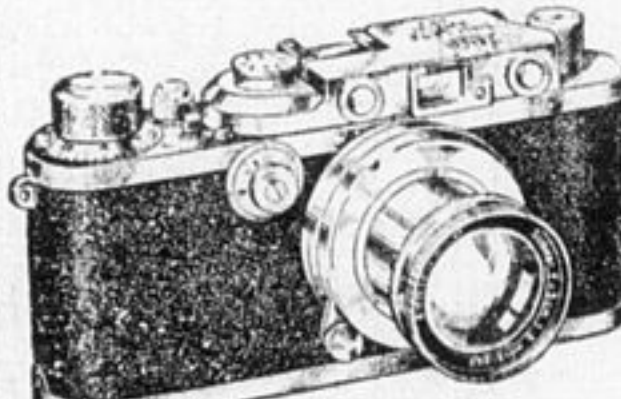

Following the ceremony, a wedding breakfast was served at the home of the bride's parents, 27 Laurier avenue, to the immediate family, the bride's mother receiving the guests, becomingly attired in an afternoon dress of navy blue chiffon over flowered rayon silk, with a corsage of white carnations. She was assisted by Miss Bernadette Bastien, aunt of the bride, who wore a street-length dress of navy blue chiffon, with a corsage of white carnations. Later in the day a dinner will be served, and in the evening the bride and groom will receive their friends at a reception, the bride choosing for the occasion an ensemble of canary yellow chiffon, with royal blue accessories.

Mr. and Mrs. Tennyson will take up residence at 34 Middleton avenue.

Prior to her marriage, the bride was entertained at several showers.
