THANK WHOM ?

The Lord Helps Those Who Help Themselves. The farmer doesn't merely buy a farm, and hope that the Lord will provide a crop. He clears, he ploughs, and he sows, and until he does this he knows that he has no right to expect the Lord to provide a crop.

The members of this Society, in business for themselves, accumulated a surplus of \$14,664.36 for the first six months of 1938. If this were paid as dividend on their share capital, it would provide a dividend of over 50% per share for a half year only.

But instead of this, at the end of the year, the total surplus-savings, with necessary allowance for reserves, will be returned to these members as a percentage of the total value of their purchases for the year.

Because they have made the effort to establish a store whose benefits are distributed on the basis of use, not on the basis of capital invested, they have increased their income; because they have ploughed and sown, they have reaped.
