Generous Support Needed Poppy Day

Legion's Relief Funds Must be Replenished.

Specially generous support must be given to the Legion's Poppy Day Fund, of the work of help to returned men in need is to be maintained. The Legion's funds in this respect need replenishing. In recent weeks, indeed, some restrictions have had to be placed on the use of these funds. Already this year the Legion has spent over \$1500 for relief. Until the funds are replenished it will be necessary to go very easy on the funds as a consequence. The Legion in Timmins, from its inception, has seen to it that not a single known case of an ex-serviceman in need has been allowed to go without attention. Tens of thousands of dollars have been spent in the work of helping the returned soldiers in this and other ways. The Legion wants to maintain this policy without interruption or change. But to do this they must have the usual generous support of the public. Indeed, even a little more than the usual support in this matter is needed at the moment. Accordingly, all are asked to give special support to Poppy Day this year and to the sale of wreaths. A special account has been opened at the Dominion Bank for all funds pertaining to Poppy Day, and all expenditures in future in regard to relief will be administered from this account. In this way the public are assured of the most careful distribution, and in addition it is intended to have regular audits made and published from time to time so that the general public may have full acquaintance with the uses made of this fund.

Classes in English to Start Again on Nov. 1st

Opportunity for New Canadians to Learn English or to Add to Their Knowledge of the Language. Eighty-two in the Classes Last Year.

The classes in English for New Canadians and for others who wish to improve their knowledge of the language will open this year on Nov. 1st for the season. These classes are under the auspices of the Timmins Public School Board and the Ontario Department of Education. The classes are in charge of Mr. E. J. Transom, principal of the Central public school, Timmins, and Mr. S. Kostell. The classes have been unusually successful in past years. Last year there were 82 New Canadians taking advantage of the opportunity provided by these classes. The value of the classes was not only proved by the testimonials volunteered by members of the classes, but there was a very definite proof of the efficiency of the courses by the excellence of the concert of musical, literary and dramatic numbers given at the close of the classes last season.

It is expected that the attendance this year will be even larger than last season. The classes have fully proved their worth and have accordingly achieved much deserved popularity. Any who are interested in these classes, which include classes for beginners as well as for those who wish to take more advanced studies in English, can secure full particulars by applying to either Mr. Kostell or to Mr. Transom.
