### Probe Order Into Keeping of Bears as Attractions

Toronto, Nov. 2.—D. J. Taylor, deputy  
minister of game and fisheries, to-day  
ordered an investigation into the case  
of two-year-old Sonny White, who was  
terribly clawed and bitten by a bear  
at Larder Lake yesterday. The child  
approached the bear which was chained  
outside a service station and was  
mauled by the animal, which nearly  
tore off the top of the child's head.Another bear was chained nearby,  
and since the accident, both animals  
have been destroyed.Mr. Taylor explained that permits  
are required of persons who keep wild  
animals in captivity. He has instructed  
his local game warden to discover  
whether a permit was taken out in this  
case.No charge is made for these permits  
but it permits game wardens to keep  
a check on animals held captive not  
only to determine whether conditions  
are humane but for the protection of  
the public against these animals.Numerous service stations on North-  
ern Ontario highways keep chained  
bears. At Swastika, five miles from  
Kirkland Lake, there are three such  
bears, and there is another at Swan-  
sea, ten miles from Larder Lake.Daniel Worden, editor of the Northern  
News, at Kirkland Lake, has under-  
taken a press campaign to restrict  
the bear-keeping practice.

### Boy Sentenced for Train Wreck Attempt

Cochrane Lad of Fifteen  
Years Sent to Industrial  
School.

Cochrane, Nov. 2.—When the 15-year-old Abitibi boy who was charged with attempting to wreck a Canadian National Railway train near Cochrane on Wednesday of last week, came before Judge E. R. Tucker, of the Juvenile Court at Cochrane on Monday of this week, he was convicted and sentenced to an indeterminate term at the industrial school. The train had over fifty passengers and had the engineer been less watchful and skilful there might have been an appalling tragedy.

At the trial this week, Engineer Don McKinnon, of the Cochrane-Quebec train, told on the stand of striking a pile of ties which might have derailed the locomotive. A half-mile farther on, he said, two poles were lying across the rails, while a few yards away a lamp from a yard limit sign was between the tracks.

There was also police evidence to establish the case against the boy. Sergeant Roy Elliott, of the Ontario Provincial Police, told the court the boy had confessed he rode his bicycle along the tracks shortly before the train came. The officer said the youth told him he had thrown the obstruction on the right of way, but would give no explanations for his action. The opinion ventured by some who know the case is that the boy had been reading too many crime stories and wild west thrillers and had become warped in his judgment and opinions and general attitude as a consequence.

The obstructions were placed on the track some three miles east of Cochrane. Witnesses at the trial told of the boy lifting a heavy side platform and throwing it across the rail. This would be beyond the strength of the ordinary man and indicates the unusual muscular strength of the boy. Fortunately the engineer noted the obstructions in time and was able to stop the train before tragedy resulted.

### New Store Opening to Public To-morrow

The Timmins Workingman's  
Store Has Fine New  
Stocks in Attractive Pre-  
mises.

The latest addition to the business life of Timmins is the Timmins Workingman's Store, Limited, who are opening their modern and newly decorated and equipped store at 68 Third avenue, two doors west of Birch street. The whole store has been completely redecorated and improved and is modern and attractive in every respect. The stock of men's, ladies' and younger people's wear will make general appeal.

The personnel of the new firm, whose official opening is tomorrow (Friday) is worthy of special note. Heading the firm is Mr. R. M. Pierce, recently of Montreal, but previously of Winnipeg. To most people who have lived many years in the North, it will be sufficient introduction of Mr. R. M. Pierce, to state the fact that he is a brother of the late Charles Pierce, the first merchant in Timmins and for quarter of a century a popular and prominent business man of the North. Mr. R. M. Pierce, however, has recommendations in his own person. He has been eminently successful in business for himself in Montreal, Winnipeg and other centres. For several years he was in partnership with his brother, the late Asher Pierce, of Montreal, who was well known for his success no less than for his outstanding ability in business and industry. The president of the new Timmins company gave valuable service during the Great War, and in the days of peace was noted for his public spirit and effort in many good causes in both the East and the West. He won the rank of captain in the Canadian Army during the war, his work in the Winnipeg Light Infantry regiment being especially noted in military circles.

The general manager of the Timmins Workingman's Store, Mr. P. Petchersky, has also an enviable record. Until a few weeks ago he was head of the purchasing department of Sam Bucovetsky, Limited, and in point of years of service, was the oldest member of the staff of that firm beginning with Mr. Bucovetsky since 1924. Previous to that he was connected with the Hollinger Stores. Mr. Petchersky has enjoyed the respect, confidence and friendship of the people of this part of the North in the twenty-three years that he has been resident in this district.

The official opening of the new store at 68 Third avenue, tomorrow, Friday, will be an event of more than passing interest. For the occasion the store has gathered a notable array of big values in men's wear, women's wear, boys' wear and girls' wear.

The new store is starting out with a well-defined policy of service and value.

### Children at the Shelter Remembered at Hallowe'en

The youngsters at the Children's Aid Shelter have the notion that Hallowe'en is pretty near as good as Christmas, or at least that some people are as kind at Hallowe'en as they are at Christmas. The reason for all this is the fact that for Hallowe'en the youngsters were remembered in a pleasant way by two friends of the children there.

From Mr. W. W. Orr, Middleton ave., there came a large case of delicious grapes, and the youngsters say the case was certainly a big one and that if "delicious" means "good," or "nice" or anything like that, then that's the way the grapes tasted.

"And," says one youngster, "if large" and "delicious" are proper to use about grapes you should use them again about the "pop" sent down to the shelter. Mr. Arnold Burrows sent down no less than five cases of soft drinks for the youngsters. There were lots of grapes to go round and all the youngsters at the shelter and there was also enough "pop" for every child for several days.

No wonder one C. A. S. youngster naively enquired:—"Why can't they have Hallowe'en or Christmas every week or so?"

### Funeral of Mrs. McLennan at Haileybury Yesterday

Cobalt, Nov. 3—Special to The Advance—Funeral services were held yesterday afternoon at Haileybury for the late Mrs. McLennan, widow of Peter McLennan, well-known to old residents of the Cobalt camp for his active interest in Miners' Union affairs in the earlier days of this district. Mrs. McLennan died on Tuesday in the Municipal hospital, where she had been a patient since October 6, when she suffered a stroke. For the past five years, her health had been failing. Born in Glengarry county 65 years ago, Mrs. McLennan was the former Catherine McLeod. She came to Cobalt with her husband from Montreal in 1907 and, with the exception of a year spent in Kirkland Lake, had made her home here since that time. Her husband, who died in Kirkland Lake, in April, 1929, was formerly a member of Cobalt town council and subsequently had acted as town foreman. Mrs. McLennan was a member of the United Church of Canada, and funeral services were conducted by Rev. E. Gilmour Smith, minister of the Cobalt congregation. Burial was made in Mount Pleasant cemetery, Haileybury.

**New Mill of East Malartic  
Made First Run Tuesday**

(From Globe and Mail)  
The new mill of East Malartic turned over for the first time, with all units running light. Mill is on an initial basis of 500 tons daily. It is believed the plant will be able to handle 1,200 tons daily, without major additional equipment. Average ore grade is expected to run around \$6.25, with operating costs estimated at \$2.50. Costs over the next few months can hardly be accepted as outlining the
