

# Interesting Annual Meeting of N.O.H.A. Saturday

## Annual Meeting of District Junior "B" Hockey League

**P. T. Moisley Re-elected President. Two Vice-Presidents Chosen for Ensuing Year. Greater Encouragement Urged for Junior and Juvenile Hockey. Ask for Instruction of Referees.**

The annual meeting of the Porcupine and District Junior "B" Hockey League took place in the Schumacher public school in Schumacher at 8 o'clock November the third.

The meeting opened with President P. T. Moisley in the chair and representatives from the following points: Iroquois Falls, South Porcupine, Timmins and Schumacher. Mr. Moisley welcomed all present and then gave a brief review of the activities for the past season. The minutes of the last annual meeting were then called for, read and adopted.

A financial report was given by the treasurer, Mr. M. Abrams moved its adoption and Mr. Miller seconded it, Carried.

Juvenile hockey was discussed and it was finally decided to urge the N.O.H.A. to take more interest in this class of hockey and particularly to arrange for a play-off between the Northern Ontario Juvenile Champions and the Southern Ontario Champions.

It was moved by Mr. Miller and seconded by Mr. Cattarello that a letter of appreciation be sent to Mr. Herman Moscovitz for the beautiful trophy which he so generously donated the League's juvenile champions.

The following are entering Junior "B" teams in the League: Iroquois Falls, South Porcupine, Schumacher, T.P.A.A. (Timmins), St. Louis (Timmins). In most cases these clubs hope to sponsor Juvenile teams.

On a motion by Mr. Abrams, seconded

## BOY SCOUTS IN TIMMINS

**The Backwoodsman Badge**

Here's a brand new badge that the British Boy Scouts are announcing in their new edition of their policy, organization, and rules. It's a new twist with a spice of adventure and real Scout flavour. It is called the Backwoodsman Badge.

Of course we have many badges which deal with various aspects of backwoodsmanhood, because, after all, this art of fending for oneself is part of the foundation stone of Scouting, but it was felt that these particular badges, such as the camper, pioneer, tracker, and stalker, etc., dealt more with specialized aspects of the game and did not prove that the holders of these badges were absolutely capable of fending for themselves.

If you are a stern materialist you may say, "What is the use of my learning to fend for myself in the wilds when, so far as I know, most of my days will be spent in a very civilized atmosphere, such as Timmins or some other city."

It is impossible for you to say that your life will be confined to the cities. We are members of a vast Empire and great stretches of the Empire particularly here in Canada, Australia, and Africa, are just waiting for the man who can fend himself and can go out with the real spirit of pioneering. It may be your lot to be one of these. You, no doubt, have heard of many cases of men, trained to be lawyers, business men, and so on, who have left their profession to take up such a life, perhaps, because of necessity, or perhaps because of their own free will.

Then, again we are living in the age of cheaper and speedier travel, and if you have been bitten by the adventure bug you will probably seek in your holiday time to use these methods of travel and get right off the beaten track. And there is still enough unknown country left in the world, and not too far from home, for you to need the attributes of a backwoodsman.

And again, it is "Being Prepared."

Here are the conditions of the badge and you can ask yourself the question: "What chances of success do I have in passing it with my present knowledge?"

(1) Make a satisfactory shelter for two people out of natural materials and sleep in it, preferably alone, or with another Scout other than a First Class Scout.

(2) Skin and cook a rabbit and cure the pelt. (Catch it first).

(3) Camp for not less than two nights preferably alone or with another Scout, other than a First Class Scout, or with other Scouts for not less than four week-ends during the 12 months preceding the examination, and outside the immediate surroundings of your home.

There is a notice here that Troop camps do not count, and one feels that if you were going to do that test thoroughly you would even ignore the facilities offered by permanent camping grounds, and that you would go out and find your own site.

(4) Prove your skill in finding your way alone across unknown country without using maps or roads or making inquiries, to a point invisible from the start, (a) by compass and by day a distance of not less than three miles, (b) without compass and by stars, a distance of not less than one mile.

This test is not nearly so easy as it sounds. Get out and have a shot at it, and if there is a bit of a fog all the better.

(5) Know the local varieties of timber and their respective value for burning.

When you first started lighting fires for cooking you were taught the best wood to use, some were first rate, some burnt too furiously, and some gave more smoke than flame. This is very essential information, but it is equally important that you should know what this timber looks like when you find it and not wait for results.

(6) Obtain first-class standard in axemanship and pioneering.

(7) Know how to use a First Aid kit, and the dangers of and methods of purifying contaminated drinking water.

We hope that even though this is not yet a Canadian badge that you will try to equal its requirements.

If you are a Patrol Leader you will be interested to know just how to handle your patrol when trying to bring your Scouts up to this standard. Then you should get out to the Patrol Leaders' Training Courses, commencing next Saturday in the Scout Room of the Hollinger Hall at 7 p.m. Regular troop fees will be charged and you will be provided with a not book and later a few texts. Bring your self and a big smile. It'll be a lot of fun even more than last year—it's different. If you have taken a course you can take this one as a refresher. See you there, at 7.

As a Good Turn and service, all Scouts, who have complete uniform, are asked to assist keeping the crowds back at the Remembrance Day services at the Cenotaph. For this service you are asked to assemble at the band stand on the T. and N. O. ark at 10:30 on Friday, November the 11th. I hope that you all will make an attempt to be there and give a hand. It is services such as these, that show our willingness to help others, and in many cases win the public's support.

Scoutingly yours,  
Ebr. District Leader.

## Call to Sacrifice By "World of Sport"

**Individuals and Nations Must Awaken, Say Leading Sportsmen.**

Nov. 5. (by cable)—That the "world of sport," by giving the lead in discipline and sacrifice, must awaken individuals and nations to their responsibility of national service, not only when war seems imminent, but at all times, was urged today by thirty-four of Britain's leading sports figures, many of whom are known around the world for their athletic achievements, in one of the most unusual statements ever issued by a group of sportsmen to the press.

Among the signatories are: Captain George Eyston, holder of the world's land speed record of 357.5 miles per hour; H. W. (Bunny) Austin, Britain's top making tennis player; S. C. Wooderson, holder of the world's record for the mile run; Len Hutton, who made the world's record cricket test match score of 364 runs against Australia; Jimmy Wilde, former champion fly-weight boxer; George Allison, manager of the Arsenal Football Club; J. B. Hobbs, the great English cricketer; R. A. Whitcomb, British open golf champion; Gordon Richards, seven times champion jockey; the Duke of Beaufort, Master of the famous Beaufort Hunt; and 24 others.

Referring to Lord Stanley Baldwin's recent call for moral and spiritual rearmament, the 34 sportsmen said: "Moral rearmament, the true basis of national fitness, is an individual responsibility. The individual sportsman who are morally fit themselves can influence the whole sporting world. The sporting world can in turn influence the life of the whole country. This will mean that fear, vindictiveness, jealousy, self-indulgence and the forces making for national unfitness will disappear, out of our present apathy, a new desire for national fitness will spring to life."

The representatives of sport in all its various forms went on to state that this new spirit created by sportsmen would have an influence reaching far beyond the nation's boundaries, on the natural meeting ground that sports provides. "They can create between all peoples irrespective of class, creed and nationality, bonds of unbreakable spiritual quality. Britain's true greatness lies in the creation of a new chivalry, and a spirit of unselfishness among the people of the world."

**H. S. Students Hosts to 1937-38 Graduates**

**Other Items of Interest About Timmins High and Vocational School.**

The Timmins High and Vocational School rugby team will leave on Friday, November 11th, for Toronto, where they will play Malvern Collegiate. They will attend one of the big-time rugby matches on Saturday afternoon, and the same evening, will be treated to a hockey match. The team is also planning to visit other points of interest in the capital city before returning to Timmins.

The Timmins High School and the South Porcupine High School will participate in an debate "Resolved that the thirteen colonies were justified in revolt against Britain," on Friday, November 11th. A debate will be staged at both schools, Timmins representatives, Mary Stock and Betsy Dodge, taking the affirmative at South Porcupine and Timmins representatives at Timmins, Jim Cameron and Lee Lawry, debating on behalf of the negative. The public are invited to attend the debates at both schools.

During the Friday morning assembly at the Timmins High and Vocational School, the students heard a very interesting address on current events, given by Sheila Harper. She spoke about the appointment of the Duke of Kent as the Governor-General of Australia; of the coming visit of the King and Queen to Canada, and the invitation they have received to visit United States; of the opinion of Lloyd George in regard to war, that is, that this is only a temporary peace; and made comment on the Japanese-Chinese, and the Spanish war. Following her address the students all joined in a song, directed by Mr. Chapman.

On Friday evening the Third and Fourth year High School students were hosts and hostesses to the 1937 and 1938 graduates of both high and vocational schools, at a very happy evening of dancing and games. Guy Sauve and his orchestra were present to supply music for the dancing, and the library and sewing room were devoted to games of cards and ping-pong.

During the evening Betsy Dodge delighted the gathering with a few vocal selections, accompanied by Jean Gordon at the piano. Later in the evening refreshments were served.

On Saturday evening, the first forms of High School held a Halloween party, most of those attending being attired in appropriate Halloween costumes. They played musical games, and were entertained by a number of students who took part in an interesting programme. Among those winning prizes for costumes were Joyce Ryan, Stewart Irving, and Jenny Staveroski. Judging was done by Miss Unger, Mr. Ricker and Miss Smythe.

## Ventilation System at New Theatre is Ideal

**Patrons of New Cartier Given Benefit of Ultra Modern Air Conditioning. Air in Building Completely Changed Every Five Minutes. Smoking Permitted in Gallery.**

No expense has been spared to provide the patrons of the Cartier Theatre with the best ventilation and heating system that money can buy.

The design of the system was incorporated in the plans of the building so that it would be adequate in every way. A large supply fan capable of completely changing the air in the theatre every five minutes is located in a special room. All the air is filtered to remove all dust and is then automatically humidified and heated to the proper condition. The fan room and air ducts are lined with special acoustic board so that no sound is apparent from this equipment.

The air is supplied to the theatre through openings in the ceiling which are covered with diffusing plaques in order that the large volume of air which is supplied can be introduced into the theatre without any discomfort or draughts to the occupants.

A unique feature is the fact that smoking is permitted in the gallery and it was demonstrated on the opening night that this is possible without the least inconvenience to non-smoking patrons. A special smoke exhaust fan quickly draws the smoke from special grilles located in the ceiling of the gallery and discharges it outside. Ash trays located on the backs of the gallery seats are an added convenience for the patrons wishing to smoke.

The air is supplied to the gallery through special combination air supply and lighting fixtures located at the ceiling. These fixtures provide a curtain of fresh air over the ceiling to maintain the gallery air in a fresh, healthful condition at all times.

An added feature is the absence of radiators in the outer lobby and foyer. Here again air is supplied under automatic temperature control to maintain the desired temperature in these spaces and to overcome the draughts and overheating occasioned in other buildings of this type where radiators are used.

The ladies' powder room and men's smoking room are also supplied with fresh air to add to the attractiveness and comfort of these spaces.

**Matachewan Intends To Operate Skating Rink**

The Halleyburian last week says: Matachewan—With tallings from the mill forming the base of the playing surface, a large open air skating rink and hockey rink is under construction at the Ventures property two miles from this Montreal River settlement, and the structure will be finished in no time to function for the four-team league which is expected to operate in this district during the coming winter.

## Bowlers Unable to Accept Request from North Bay

A letter was received last week by the Commercial bowling league from one of its old members now in North Bay asking them to pick five ladies and five men to play against ten players that he wished to bring to Timmins this coming Saturday.

There being no alleys here, a reply was sent to Mr. W. Booth that he bring the players, balls and pins and a game might be arranged on one of the paved streets.

There is a possibility that a game could be arranged in the warehouse on Spruce street.

## Latest Type Sound and Projection Plan

The new Cartier Theatre just opened at the foot of Third avenue is equipped with the very latest model Cincinnati Time Recorder sound equipment, with a speaker system that will distribute sound of greatest naturalness and clarity and of equal intensity to every seat in the theatre.

This equipment is unique in that there are complete standby amplifiers, rectifiers and speakers, that may be switched in at any time, in the event of trouble developing, thus insuring the theatre against breakdown.

The projection machines are the latest word and the projection lamps are latest Morelite Superex high intensity type, the same model as is used in theatres seating as many as 3,000.

The equipment was installed under the supervision of L. M. Bleackly, sound and service manager of the Perkins Electric Company, Ltd., with offices in Montreal and Toronto.

## Dean Kester President of N.O.H.A. By Acclamation

**Indications at Annual Meeting of N.O.H.A. Saturday Suggest That Junior "B" Hockey to Make Great Strides Forward. North Bay Trappers to Only Definite Junior "A" Entry in Southern Group.**

North Bay, November 5th, 1933—(Special to The Advance)—Indications from all sides that Junior "B" hockey in the North is about to make great strides forward and the probability of a play-off arrangement being made with the O.H.A. were features of the annual meeting here.

An announcement that the North Bay Trappers are the only "definite" Junior "A" entry in the Southern group.

Decision to press for a change in the terms of affiliation with the O. H. A. so that the Northern senior winners will only be required to meet the O. H. A. senior "A" representatives and not the senior "B" teams as well.

These were the highlights of the 20th annual meeting of the Northern Ontario Hockey Association which took place in the grill room of the Empire Hotel at North Bay on Saturday. It was one of the most harmonious and best attended annual meetings in the history of the association.

The only "unexpected" turn to the confab was the fact that no contest developed for the position of president. It was believed that at least two of the three nominees would stand for office, but Mr. Kester stepping up was the only one to allow his name to go before the meeting. Lorne Miller, Noranda, who served as president during the past two years, did not stand for re-election. The other nominee, Dr. H. C. Nash, of Sudbury, also withdrew from the field and was named vice-president by acclamation. The officers are:

Immediate past president—Lorne Miller, Noranda.  
President—Dean Kester, Timmins.  
Vice-President—Dr. H. C. Nash, Sudbury.

Secretary-Treasurer—W. A. Thompson, North Bay.  
Executive Committee—U. L. Fulton, Schumacher; M. B. Auger, New Liskeard and H. J. Reynolds, North Bay.

These three were elected in a field of seven candidates. Mr. Fulton was elected for the Northern group, Mr. Auger for the Central group and Mr. Reynolds for the Southern group.

The residence deadline of August 1, for transfers within the association was made a part of the constitution. It had been in effect for the past year as a result of a resolution passed at the last annual meeting.

A clause was added to the terms of affiliation between the N.O.H.A. and the Nickel Belt hockey league, allowing either body to terminate the agreement by filing 30 days' notice in writing within the period of April 15th to Nov. 1st.

A suggestion by Mr. Thompson that the Immediate past president represent the N.O.H.A. at C.A.H.A. meetings was adopted. "It may take two or three years but we will eventually have a man on the C.A.H.A. board," the secretary-treasurer stated. An effort to have the C.A.H.A. increase O. H. A.'s representation so that the northern association could have a voice at meetings of the Canadian body failed last spring.

Officials of the Association, club representatives and the press sat down to a banquet in the evening. Everybody present was called upon to speak briefly.

**Russell House Dart Team Defeated Legion by 2-0**

In the weekly dart tournament on Thursday night last, the Russell House team defeated the Legion 2-0. All games were close and keenly contested, with a number of high scores being registered. The two teams are slated to play a return match some night this week. Anyone interested in the sport of dart throwing is asked to communicate with James Gordon at the Legion Club.

## S. Porcupine Ski Club Getting Ready

**Other News from South Porcupine and the Dome**

South Porcupine, Nov. 6—(Special to The Advance)—The Log Cabin Ski Club is arranging for its winter programme, although snow is, we hope, in the Arctic for a while yet. Already a new cabin for rendezvous is in progress on the southern outskirts of town, and the young enthusiasts have held a meeting at which they elected the following officers:—As president, Wes. Haynes; vice-president, Pete Smith; and secretary, Reg. Clarke. Those wishing to become members apply to the secretary.
