

Famous Figure Skaters to Open New McIntyre Arena

Winter Carnival Next Week to Open New Arena

"The Northern Lights of 1939" Will be Presented at Arena, Dec. 8th, 9th and 10th. Formal Opening Dec. 8th by McIntyre Mines. Two Nights, Dec. 9th and 10th.

The official opening of the notable new McIntyre Community building at Schumacher will be featured by a remarkable winter carnival presenting members of the Granite Skating Club, assisted by members of the Toronto Skating Club, in the "Northern Lights of 1939", presented by McIntyre Porcupine Mines Limited.

Thursday evening, Dec. 8th, will be for McIntyre employees, and Friday afternoon, Dec. 9th, also for McIntyre employees. The McIntyre Porcupine Mines Limited are also inviting as many of the children of McIntyre employees and the school children of the township of Tisdale as can be accommodated.

Then on Friday evening, Dec. 9th, and Saturday evening, Dec. 10th, the same remarkable winter carnival event will be presented again under the auspices of the Schumacher Lions Club, the Timmins Kiwanis Club and the South Porcupine Kiwanis Club. These evenings will be for the general public, the proceeds to go to the underprivileged children in the Porcupine Camp.

Band music will add to the attractiveness of the events of the three evenings.

A large troupe of figure skaters are being brought from Toronto to present "The Northern Lights of 1939." Included among them will be figure skating champions whose renown is world wide.

Such skaters of BRUNET and JOLY, World Champion Pair skaters from Paris, will perform intricate patterns on the new ice of the splendid new McIntyre Arena. MISSES DOROTHY and HAZEL CALEY, both of them Olympic Canadian champions, will be among the skaters, as well as MISS VERONICA CLARKE and RALPH MCCREATH, Pair Champions of North America from 1927 to 1938 and members of the Canadian Champion Four, 1938. MRS. E. GOODERHAM, runner-up to Sonja Henie in the world's championship in 1939 will perform for Northern fans and MISS ELEANOR O'MEARA, Senior Canadian Champion, 1936 and 1938.

There will be twenty-two events based on both popular music and classical selections. Even "swing" will be given in and dances based on the staccato modern version of music.

A feature of the programme will be solo events by such well-known skaters as MISS ELEANOR WILSON, Junior Canadian Champion, 1935, and MISS HAZEL CALEY, who with her sister, DOROTHY, won the Toronto City and District pairs title in 1933.

MISS DOROTHY CALEY will do a solo number. Miss Caley was junior Canadian Champion in 1936 and Senior Canadian Champion in 1937.

The varied programme that will be presented by the skaters should meet everyone's taste. The poise and grace of the skaters from the Toronto and Granite Skating Clubs have made them world famous.

Schumacher Man Wedded, Saturday

Wedding at Schumacher Manse on Nov. 26th.

Schumacher, Nov. 30th.—(Special to The Advance)—At St. Paul's Anglican Church, South Porcupine, on Saturday, Nov. 26th, a pretty wedding took place, when Miss Teresa Parsey, South Porcupine, became the bride of Trevor Johnson, Schumacher. The bride was attended by her sister, Mrs. Elmer Berghouse, and Mr. Owen Jones attended the groom. Archdeacon Woodall officiated at the ceremony. The bride looked very pretty in a gown of ice blue satin. She wore a corsage of pink roses. A reception was held in the evening at the home of the bride's sister, Mrs. Berghouse. Mr. and Mrs. Johnson will reside in Golden City.

A pretty wedding was held at the Trinity United Church Manse on Saturday afternoon, Nov. 26th, when Miss Mary Christina McGlashen, of Montiel, became the bride of Mr. Alexander Ross Forsyth, of Schumacher.

The bride was attended by her sister-in-law, Mrs. Hugh McGlashen, and the groom was attended by his brother, Mr. Robert Forsyth. The Rev. F. J. Baine, officiated at the ceremony. The bride looked very nice in a dress of blue silk poplin, with a French felt hat and hand bag to match. The bridesmaid wore a rust crepe dress trimmed with satin, with hat and hand bag to match. After the ceremony Mr. and Mrs. Robert Forsyth, 14 Railway St., entertained the guests to a dinner party. Mr. and Mrs. Forsyth have taken up residence on Second Ave.

Lantern Lecture at the Finnish Y.P.S.

"With a Doctor in Africa" Illustrated With Slides.

A lantern lecture, "With a Doctor in Africa," will be given at a public meeting of the Young People's Society of the Timmins Finnish United Church Friday, Dec. 2, at 8 o'clock p.m. in the church auditorium. The lecture will be given in the Finnish language. Admission free to all. The pictures are mostly from Angola, West Africa, where Dr. Walter E. Strangway, a graduate in medicine from the University of Toronto, and Mrs. Strangway have been on the staff of the United Church Mission in Angola since the year 1927. The story of slides give a very interesting story of the life and customs of the natives, the activities of the United Church missionary, doctors and teachers at hospitals, schools and churches in Portuguese West Africa. This is the third lecture on missions the Y.P.S. has sponsored during the current fall season. The attendance at the first two was excellent and the young people expect a capacity crowd Friday evening.

A short business meeting of the Y.P.S. will be held at 7 p.m., and the public lecture will start at 8 p.m.

Premier Drops Both Kenogami and Ogoki

Canal to be Used Only for Logs, Mr. Hepburn Says.

Toronto, Nov. 30.—The Kenogami-Long Lac diversion, as a power project—and the long-suggested Ogoki diversion also—have both been abandoned, Premier Hepburn declared last night by way of reply to charges of John R. MacNicol, Conservative M.P., that he was planning to violate international agreements between Canada and the United States by opening the Kenogami diversion scheme almost immediately.

Mr. Hepburn admitted that the canal which had been built in connection with the Kenogami enterprise would be filled with water in December, but only

ONE OF THE NOTABLE SKATERS TO BE AT McINTYRE RINK EVENT.

Miss Eleanor Wilson, of Toronto, winner of the Canadian Junior Skating Championship for 1935, will be one of the several stars to be at the opening public feature at the McIntyre Community Arena on Decem-

ber 9th and 10th, under the auspices of the Schumacher Lions, the Timmins Kiwanis and the South Porcupine Kiwanis Club. This graceful and skilful skater will capture all with her wonderful work on the ice.

ment of the divert. Recalls Tilt With King "Representations were made to Prime Minister King at Ottawa," he went on, "asking him to convey our request to the American government to divert such water as might be necessary into Lake Superior. Mr. King, without consulting Washington, replied, stating that in his opinion Washington would not grant such a request without Ontario agreeing to the St. Lawrence waterway project."

of Queen's Park. An estimated revenue of between \$400,000 and \$500,000 a year, said the Premier, would accrue to the Crown from this industry's operation.

"When we took office in 1934," said Mr. Hepburn, reviewing the situation briefly, "we found great timber areas with no cutting going on, because they were inaccessible. We promptly made arrangements whereby a certain amount of pulpwood would be cut each year from these particular areas, and transported to Lake Superior by means of a canal we undertook to build. We also had in mind at the time of utilizing the flow of water for a cheap power diversion that would be of immeasurable value to the mining develop-

Hooker Creek Man Hurt When Gun is Discharged

Accident When Group of Men After Maurauding Bear. A. E. Foster, Though Seriously Injured, Walked Six Miles to Matheson for Treatment.

Dr. Russell Speaks on T. B. Prevention

Way to Prevent T. B. is to Have All Children Tuberculin Tested While in School, He Says.

Speaking on Monday at the regular weekly luncheon meeting of the Kiwanis Club, Dr. Normal Russell said that he believed the way towards control of adult tuberculosis depended almost entirely upon the study of tuberculosis in children.

Before his subject could be understood, Dr. Russell said it was necessary to explain four fundamental facts about the disease. They were: 1—Every individual who lives under the ordinary conditions of civilization is infected at some period between birth and adult life with the tubercule bacilli. 2—Such infection is not necessarily followed by the disease. 3—in the vast majority of cases the individual deals successfully with the bacilli and all that remains is a minute evidence of scar on the lungs. 4—in a certain percentage of cases, however, disease occurs at a later date, this being due to re-infection of the tubercule bacilli, which re-infection has been preceded by a lowered resistance on the part of the individual.

Although the death rate is decreasing; it has gradually decreased from first to sixth place as the cause of death in all age groups, still it is by far the leading cause of death among adolescents and young adults.

Dr. Russell believed the school was the logical place from which to attack the disease. An intelligent tuberculosis survey of the children carried out annually would do much to stop the disease.

Method of going about it was to enlist the M.O.H. or some medical man vitally interested in children, get the assistance of the school and district nurses. Buy tuberculin in large quantities and, after getting the written permission of the parents, do an intracutaneous test on each child.

The test indicates whether or not the disease has established a hold in the body of the child, and if it has, its state of progress. Further steps in the treatment of children in whom

Iroquois Falls, Nov. 28.—(Special to The Advance)—Shot through the left shoulder with a bullet from a .43 Mauser rifle, carried by his son, Edwin, Mr. A. E. Foster, of Hooker Creek, lies in a grave condition in the Matheson General hospital, with even chances placed for his recovery.

Carrying loaded guns, with the triggers set for immediate firing, a party of four men had set out from their camp, located in the bush near Matheson, shortly after dinner on Sunday, in an attempt to destroy marauding bears, believed to have caused the damage to their encampment of recent date.

Edwin Foster, who was carrying his gun at the rear, as they walked along the trail, became entangled in some shrubbery, and attempting to free himself, caught the trigger which released it. The shot tore a hole right through his father's shoulder, and reduced the stock of the rifle which he carried to splinters.

Mr. Foster, bleeding profusely and suffering severe pain, chose to walk the six miles to Matheson, as accommodations for carrying or making a stretcher were too cumbersome, due to the restricted width of the path, and only assisted by the arms of his fellow-men did he manage to stagger to town. Arriving at the hospital, immediate medical attention was administered, and three deep holes were stitched up on his shoulder. Possible fracture of the collar bone or shoulder blade is also indicated.

Provincial G. White and Chief E. Olaveson of Iroquois Falls were summoned to the scene of the accident, and following a thorough investigation, in which all members of the party, namely Edwin Foster, Jack Perry and Jim Sexsmith, were questioned, it was felt that the shooting had been accidental, which resulted in no charges being laid. All the members of the party had been on the best of terms, and no hint of murder or intent to kill was made. Mr. Foster was 53 years of age, and demonstrated marked courage under the ordeal.

The test brings about a positive reaction, are to have their chests X-rayed by competent men. Those in whom there is active disease should be sent to one of the tuberculosis clinics of the Ontario government.

Last year 4,800 children were tuberculin tested in Timmins. Of that number 66 reacted positively and 575 were X-rayed. Twenty-five students should have had a repeat X-ray and for various reasons did not report, and 62 were referred to the chest clinic. Twenty-one were referred to their family doctors for treatment for tonsils, heart and other complaints.

The number found to be negative for tuberculosis at the time of the test was 472. Students under the supervision of the clinic were 52.

Of that number eight were sent home to rest in bed and five sent to the sanatorium.

Overbalances Ladder and Fractures Skull

L. Krall Seriously Injured Yesterday at Hollinger in First of Two Accidents. Second Accident Similar.

Two accidents, one of them serious, occurred yesterday morning at the Hollinger within an hour of each other. As a result of the first L. Krall is in St. Mary's hospital suffering from a probable fracture of the skull.

The first and more serious occurred at 8.15 o'clock. Mr. Krall was working over a mill hole. The ladder from which he was working slipped and fell thirty-four feet. He struck at least two projections on the way down before he landed and struck his head on the timbers.

He was rushed immediately to Timmins and St. Mary's Hospital, where he was attended by Dr. M. J. Kelly. His condition was described as serious late yesterday. The accident occurred on the 800 foot level.

Circumstances in the second accident were very similar. J. Lowery was at work raising a life belt and when he lost his balance he fell a distance of twenty-seven or twenty-eight feet.

He was badly shaken up by the fall but not injured seriously. No bones are broken.

Everybody's Life: Everybody knows how to express a complaint, but few can utter a graceful compliment. It's a matter of practice.
