

To the President, Directors and Management of the McIntyre Porcupine Mines Limited

WE would like to convey to you the words of appreciation expressed on all sides for the splendid Arena and Community Building which you will formally open to the public tonight. You have many fine gifts to the people of the town and district to your credit, but this wonderful arena seems to be the most notable of all.

AS individual merchants of Schumacher, we add our sincere compliments to those so often expressed in our business places by your employees. These spontaneous tributes are heard in everyday conversation and as they would not ordinarily reach your ears, we are taking this opportunity to bring them to your attention.

IT seems only fair that you should know that your contribution toward the welfare and happiness of the community is deeply appreciated not only by the men but by the citizens of the town generally and the district at large.
