

### So. Porcupine Lady Curlers Meet Friday

Other News of South Porcupine and the Dome.

South Porcupine, Jan. 4th—Special to The Advance.

Curling for the ladies begins in earnest this week. A few friendly games have been played already to test ability after so many months of rest, but a schedule is to be planned for next week. On Friday afternoon at 2:30—a meeting of members will be held at the rink to form committees and get the season's game going in earnest. It is a matter to be deplored that

juvenile delinquents come up every so often in our police court. The parents of such children usually get the sympathy of all decent citizens. It is regrettable that names of children who are perfectly innocent sometimes get mixed up with those of the real offenders, especially when the law does not allow the names of juvenile delinquents to be published. Malicious rumours

that have no foundation in fact have caused much distress to some of our local citizens, and the notice published in this issue under the advertisement column may do something towards checking such untrue statements. Born—On December 29th at 59 Commercial Avenue to Mr. and Mrs. R. Morrison—a daughter. Born—on December 23rd, in the Por-

cupine General hospital, a son to Mr. and Mrs. Gregory Prustaglio. Miss Kathleen Barron returned last Tuesday to Noranda after spending Christmas with her parents. Mr. Wm. Buttrick spent Christmas at home from Kirkland Lake. Mr. "Red" McCarthy, of the Dome hockey team, spent the holiday in North Bay.

Miss Lillian Kaufman left on Monday for a week's holiday in Kirkland Lake. We are glad to see Miss Clare Harty out again after her recent illness in the Porcupine hospital. A house-party of what players held at the home of Mrs. Dickson of Cecil avenue off Main street in the interests of the Ladies' Auxiliary of the Porcupine Branch of the Canadian Legion was held last Wednesday night and a good time ensued. Five tables of players were accommodated and prizes won by: 1. Mrs. Mawhinney; 2. Mr. Pyke; 3. Mrs. Wm. Thomas. The Christmas season was saddened for Mr. and Mrs. Stanley Jay, of Dome Extension, upon receipt of the news that Mr. Jay's mother, a lady of 80 years of age, had died at her home in Herefordshire, England. We extend our sympathy.

**Police Court**  
Two drunks paid \$10 and costs in police court on Tuesday. For being drunk in a car, a man so charged will appear again next week. A reckless driving case was withdrawn, costs being paid by defendant. A lady charged with having a quantity of beer in her possession not obtained in accordance with the O.L.A. pleaded guilty and was fined 25 and costs for 30 days. Her house will be made public for one year. A man of Schumacher will come up again next week on a charge of receiving coal knowing it to have been stolen. Another charged with theft of \$7 worth of beer, pleaded guilty saying it was done while he was under the influence of drink. Chief McClun, pleaded for the man for suspended sentence as this was his first offence and had made restitution. The magistrate therefore made him sign a bond of \$100 of not to drink for one year—no sentence suspended. Two separate cases of juvenile delinquency came up in closed court. Owing to some further investigation the three boys who faced his orship regarding "breaking and entering" will come up next week instead. A Schumacher case involving five boys, three of whom pleaded guilty to stealing coal, will come up again next week fresh summonses being served owing to some error in dates.

ed particularly that the people of this country and especially of Northern Ontario, were very friendly and hospitable. "We have been treated awfully well since our arrival here," he said. "People just don't seem to be able to do enough for us. They have taken us around, feted us and dined us. They have in fact, been extremely decent." "Some people in the South seem to labour under the impression that Northerners are rough and tough. What do you think?" was the next question. "Nothing of the sort," was the reply. "More virile, perhaps, but certainly not rough." Asked what he thought of the manner in which Canadians clip their words short, Mr. Scholtz said that he thought they got that from close proximity to the United States. "Of course," he said, it is often said that our accent is even more English than that of the English themselves. However, the way Canadians talk is not at all displeasing. Not at all." As this student, and he was representative of the whole thirty, was young and good looking, he was asked, "What do you think of Northern girls?" "Well really we haven't had much time to see many of them yet," said Mr. Scholtz. "What we have seen however, seem very nice indeed." Mr. Scholtz said that he saw distinct differences between mining here and in South Africa. To begin with, he said, the geological formation in the Porcupine area was distinctly different from that of the mining areas in Africa. Here ore was found in volcanic rock while in the areas with which he was most familiar water instead of fire had played a great part in the geological formation. If all of the students were as well informed about mining as the one interviewed they must have had some good technical discussions with mining men in the camp.

International Ice Review, travelling until first of May, when they went to the International Casino in New York City as the International Ice Folks. For the past eight weeks Miss Auster has been teaching figure skating at the University Skating Club in Toronto, and on Tuesday morning arrived in Schumacher to become the skating instructor at the McIntyre arena.

No definite plans were made for the skating at the meeting, but a committee, as follows, was appointed to make further arrangements: Honorary President, Mr. R. J. Ennis, Secretary, Mr. Stratford. Advisory, Miss Margaret Auster, and committee Mr. D. E. Keeley, Mr. Warrab, Mrs. Dye, Mrs. Tyrrell, Mr. Angus Campbell, Mrs. Robson, Mr. G. S. Lowe. A few suggestions were mentioned for the use of the arena in the summer months, such as a gymnasium, or as a roller skating rink. These were left to the committee for further discussion. Mr. Ennis announced that a trophy had been presented by Mr. Rayburn, of Toronto, as the award to juvenile who made the most progress during the season. Prior to the business of the meeting, a film was presented, showing the arrival and the activities of the Granite Club and Toronto Skating Club skaters who presented the carnival at the McIntyre Arena formal opening. Miss Auster will be at the McIntyre Arena each day and will enroll any members who wish to join the club. She may also be reached by telephone for information on the club and its activities.
