Liskeard Adds to Waterworks System

Expenditures of \$18,000 to Bring Plant Up-to-date.

New Liskeard, Jan. 19.—(Special to The Advance)—Replacing equipment that had become obsolete through long service, modern machinery installed at the town waterworks station here has been given thorough tests and is reported as functioning satisfactorily to provide the municipality with an up-to-date service not excelled in the district. Daily water needs here are approximately 250,000 gallons in winter, including requirements of the T. & N. O. railway, and these can be supplied through the operation of one of the three new pumps for an average run of between nine and ten hours.

A new generator, driven by a gasoline engine, provides an emergency power service if the regular supply should be interrupted, and it can be swung into action as quickly as starting an automobile, it was stated. The three new pumps have a rated capacity of 400 gallons per minute each, and they replace three former pumps, one of which operated for domestic service, and the others were used as fire pumps. Under the new system, the pumps will be operated alternatively and in trial runs one of them has gone as high as 464 gallons per minute.

In addition, a new deep well pump has been added to the other pump of this nature already installed, and this has a capacity of 700 gallons per minute. The emergency power plant is

International Detachable Bits and Equipment Limited

Certified Copy of By-law Number 11 Changing Head Office

"Be it and it is hereby enacted as a By-law of the Company that the location of the Head Office of the Company be changed from the Town of Timmins in the Province of Ontario to the Township of Deloro in the District of Cochrane and Province of Ontario (Post Office Address, Box 130, South Porcupine, Ontario), and that Article No. 1 of By-law No. 1 of the Company be amended accordingly."

Certified to be a true copy of By-law Number 11 of the Company, duly enacted and passed by the Directors of the Company on the 30th day of December, 1938, and duly ratified and confirmed at the Annual General Meeting of the Shareholders of the Company held on the 31st day of December, 1938.

T. R. Langdon,
Secretary-Treasurer.

housed in a different part of the pumping station from other equipment, and a metal fire door, which will close automatically at the threat of danger, is being placed in position between these compartments. The generator is a 175 horsepower model, powerful enough to operate one deep well pump and two of the other pumps to keep the ordinary service running with ease.

Other new equipment includes a switchboard and a boiler, and the cost of the changes to the system is placed at \$18,000, which will be financed through debentures. The local system is supplied from three artesian wells, approximately 400 feet deep and connected up with one another. One quarter of the depth is through clay and the rest is rock, the reporter was told. The water is pumped directly into a receiving reservoir at the station, near the lake shore on the north side of the Wabi river, and in turn is pumped into the larger reservoir behind the town on the west side, which has a capacity of 100,000 gallons, double that of the concrete pool at the station. The second deep well pump is inside the station, with a rated capacity of 450 gallons per minute.

LOCALS

Mrs. George Letts, of North Bay, has been visiting in Timmins and Noranda.

Mrs. S. Kleiman left last week on an extended holiday to Florida.

Mr. Friedman, of Sault Ste. Marie, is a visitor to Timmins this week.

Mr. S. Kleiman is leaving this week to spend a three week's holiday in Chicago and points south.

Herbie Langdon returned last week to Trinity College, Port Hope, to resume his studies there.

Mr. and Mrs. W. S. Jamieson left on Monday for a holiday visit to Bermuda and other points south.

Miss Marguerite Blackman, of Sudbury, was a recent visitor to Timmins, returning home to Sudbury last week.

Miss Neta David, has returned to Cochrane after spending a few days visiting her sister, Mrs. A. Shaheen, of Birch street south.

Mrs. Jack Tait left on Tuesday to spend a few weeks visiting at her home in Sudbury, and with friends in North Bay.

Mrs. W. J. Stockdale, and Mrs. T. Jackson, of North Bay, who were in town for the funeral of Baby Leach, left for their homes on Sunday.

Mrs. G. Dutton, 31 Wilson Ave., who has been in the hospital for the past three weeks, was able this week to return home where she is making good progress to recovery.

Miss Ella Darby, of Toronto, who was a recent visitor to friends in Timmins, left last week for North Bay to visit friends there, previous to returning to her home in Toronto.

Mr. E. A. Stewart, of Toronto, is relieving manager at the Timmins branch of the Bank of Nova Scotia, while the regular manager, Mr. W. S. Jamieson, is away on leave of absence of two months.

Ronald Dundas, two and a half year old son of Mr. and Mrs. Wesley Dundas, who sustained a fractured skull when struck by an automobile last week, is gradually improving, Dr. Hudson, his physician, said that Ronald is still in a serious condition but is gradually getting better.

Mr. W. F. B. Cadman, of the head office of the Canadian Northern Power Company, New Liskeard, was a visitor to Timmins yesterday. He was one of the popular old-time residents of Timmins, having been for years manager of the Telephone Company here when it was owned by the Power Company, and he was kept busy on his visit here greeting old friends.

groom's brother and sister-in-law, Mr. and Mrs. Ed. Barrette, of 115 Elm St. S. Mrs. Barrette wore a navy blue sheer, with a corsage of roses.

In the late afternoon, the bride and groom will be honoured at a wedding dinner to be served at the home of the groom's parents, and in the evening they will receive their numerous friends at a reception in the Uk-ai-nai Hall.

Mr. and Mrs. Barrette will reside at 57 Seventh Ave.

Their many friends in Timmins and district will wish the popular young couple much happiness.

Shower in Honour of Miss Beauchamp

Bride-to-be Entertained Last Night.

Mrs. Gordon Byers, of 17 Second avenue, Schumacher, was hostess at an entertainingly arranged shower on Wednesday evening in honour of her niece, Miss Anne Beauchamp, of Timmins, bride-to-be.

Miss Beauchamp will become the bride of Mr. J. Therrien on January 26th, the wedding to take place at the Notre Dame des Lourdes Roman Catholic church.

During the evening the guests enjoyed whist, for which lovely prizes were awarded. Winners at whist were: 1st. Mrs. R. Jennings; 2nd, Mrs. J. Dillon; and consolation, Eva Cowan.

The guest of honour was presented with many beautiful gifts and later in the evening a dainty lunch was served by the hostess. Pictures of the happy group were taken by Mr. Byers, as fitting souvenirs of a delightful event.

Included among those present were: Mrs. T. Johnson, Mrs. P. Sherbin, Mrs. J. Griffith, Mrs. J. Gannon, Mrs. Fred Shippam, Mrs. Stanley Shippam, Mrs. D. Gannon, Mrs. Angrieman, Mrs. J. Malone, Mrs. Mansfield, Mrs. Lalonde, Mrs. Fournier, Mrs. G. Proulx, Mrs. L. Furlong, Mrs. R. J. McGee, Mrs. L. Proulx, Mrs. Jennings, Mrs. Dillon, Mrs. Beauchamp (mother of the bride-to-be), Mrs. F. Gannon (grandmother of the bride-to-be), and Misses Dorothy McGee, Gladys Gannon, Laura Wordley, Nora Dillon, Eileen Beauchamp (sister of the bride-to-be), the hostess, Mrs. Byers, and the guest-of-honour, Miss Anne Beauchamp.

Children's Tea Party at Ladies' Auxiliary

Very Pleasing Event at the Legion Hall on Tuesday Afternoon.

The Children's Tea Party held by the Ladies' Auxiliary of the Canadian Legion, and attended by fifty-five mothers and children, was a very happy and decidedly successful event. The tea party was held in the Legion hall, commencing at 4:30 on Tuesday afternoon.

During the evening, Douglas Bellamy entertained the gathering with several selections at the piano, and Mrs. Bennett acted as pianist, playing the accompaniment to other numbers on the programme.

Little Miss Ramona Carpenter was loudly applauded for her tap dance, and Misses May Allan and Agnes Smith very pleasingly recited the poem, "Christmas Dolls."

The very little girl, June Hicks, of Golden Centre, was the feature of the evening's programme, charmingly singing "Come Round Any Old Time."

Five of the boys formed a quintet to sing "Home On the Range," and members of the Auxiliary, Mrs. Shaw, Mrs. Jean Smith, Mrs. Precious, and Mrs. Devine performed the sword dance.

The Girls' Musical Chairs was won by Jean Pontelance, while Leonard Jennings took the prize in the boys' contest.

Mr. Jack Mooney kindly supplied soft drinks to the mothers and children who were present, and later a delicious lunch of cake, sandwiches, jelly, and ice cream was served.

After games, the children were treated to candy, and expressed their appreciation of this merry party.

Mrs. Harvey, social convener, who arranged the event, is to be complimented on the success of the tea party, and on the entertaining manner in which the programme was arranged.

First Solo Student to Take Solo Flight at Kirkland

(From Northern News)

The Kirkland Lake Flying Service's backer, as well as student, Les Hornick, was appropriately enough, the first pupil of Instructor Wally Siple, to solo. Les took one of the club's planes up alone Sunday afternoon.

All week-end flying hours were filled to capacity the club reported this week end. Friday and Saturday, and Sunday there were more pupils clamoring for instruction than could be handled.

Several other men, who, like Mr. Hornick, have taken instruction before, are almost ready to try the wings themselves.

The machines of the club were chartered last week to fly a ton and a half of equipment, as well as four members of a prospecting party, into a small lake in the Matheson district. The landing area was so small that only a low powered plane could have got in and out of it. Pilot Hugh Saarup said. The party and equipment was transported to its destination in several trips. The bulky articles were taken apart and made into compact bundles.

Windsor Star: Tailors fear men are becoming round shouldered. Tax collectors have noticed the same thing for a long time.

TOWN OF TIMMINS

NOTICE

Tenders will be received by the Town of Timmins for 16" wood to be delivered to relief recipients. Quality and type of wood to be stated. Tenders must be in Town Clerk's office not later than January 25th, 1939.

P. H. MURPHY,
Deputy Clerk.

GIRL GUIDES IN TIMMINS

The 1st Timmins Guide Company held their regular meeting Monday evening in the Church of Nativity hall.

The meeting opened with inspection, which was taken by Captain Landers, after which a horseshoe was formed for flag-raising. The flag was raised by Doreen Murphy, assisted by Shirley Hickey and Evelyn Richie.

Following flag-raising Lieutenant Wilkinson took the Guides in a game called "Snake." Then they were divided into groups for badge work.

During horseshoe Mary MacLean and Joyce Lalonde received their Cook's Badge.

A circle was formed for a camp-fire and many Guide songs were sung. The meeting closed with the singing of "Taps."

Any girls between the ages of eight and twelve wishing to join the Brownies please be present Monday evening on the 23rd January at 6:15 in the Church of Nativity hall.

Three Births Registered in Timmins This Week

Canada Ranks High in Production of Minerals

From a relatively minor position only 25 years ago, says an article in the current issue of the Canadian National Magazine, Canadian mine production and export of mine products have risen to the place where Canada now ranks as one of the principal sources of supply for many of the most important minerals of present day industry.

Practically every province of Canada has a part in the Dominion's great mineral production. Three provinces, however, Ontario, British Columbia, and Quebec, contribute 80 per cent. of the total, or 90 per cent. of the mineral production. Two other provinces, Nova Scotia and Alberta, are responsible for 75 per cent. of the fuel production. Seventy-five per cent. of the non-metallic production other than fuel is from Ontario and Quebec.

Last year's metal production in Canada, the article goes on, included more than 265,000 tons, of copper, 205,000 tons of nickel, 4,000,000 ounces of gold and 22,000,000 ounces of silver. The platinum metals, and cadmium, cobalt and radium, were also produced in important amounts. Among the non-metallic items were 15,775,000 tons of coal, 410,000 tons of asbestos, 1,000,000 tons of gypsum, almost 400,000 tons of common salt and 3,000,000 barrels of petroleum.

YOU CANT GO IT ALONE

Suppose you are as self-reliant as you think. Suppose you can get along without the vitamin-containing oranges that other men grow for you in California, or the tomatoes from Mexico. Suppose you think you don't need the motor-cars which others make for you in Oshawa, or the electric light that others generate for you at Ahtibiti. Suppose you do give up the films from the studios and the knowledge from the laboratories of other men—what sort of life would you be living hunting seals with your home-made bow-and-arrow, in a suit of skins that never saw Bond Street, or any street and living laboriously in the snowy silences of the North?

All that we call civilization would have left you; for civilization—good or bad—is the joint work of millions of men, past and present, each adding the work of his hand or brain to that of others.

And those of us who think that our civilization is not the best possible, if we want to make it better, then we must use the same means that made it what it is to-day—we must work together to make it better.

The Co-operative Movement, of which this society is one unit, is an association of men who are trying to change society from one in which we regard our fellow-men's needs as a means of extorting money from them, into one in which we regard their needs as opportunities for us to make friends of them by all of us working together for what all of us need.

You possibly think society can be improved too. For that reason you should join the co-operative movement.
FOR YOU CANT GO IT ALONE.
