Ten Rinks at the T. & N. O.

The sub-heading on a paragraph in the report of the bonspiel at North Bay in Monday's Advance might leave the impression that there were only five rinks from Timmins at the bonspiel. Elsewhere in The Advance, of course, there was mention of the ten rinks at North Bay for the T. & N. O. bonspiel. The paragraph in question was added simply to give the personnel of the winning teams from Timmins and should have been headed "Winning Teams." The following were the skips of the ten rinks from Timmins at the T. & N. O. bonspiel last week: Dr. L. Hudson, W. Rinn, S. R. McCoy, A. E. Cain, Dr. O. J. Stahl, J. R. Walker, G. F. Black, J. P. # Have Had Change of Mind

(From Ottawa Journal) From London comes word that Chan- Friday, 7.30 p.m.-Choir Practice. cellor Hitler is softening his attitude towards Jews in Germany. The Fuehrer, it is said, is now willing to lower the bars against Jews in trade and industry, willing also to permit Jews leaving the Reich to take 15 per cent. of their capital with them.

What may this indicate of happen-

ings in Germany? It is common knowledge that Nazi persecution of the Jews has been accompanied by a sharp decline in German exports. So serious has this become that last week one of the leading economic journals in the Reich, in an extraordinary departure from the usual docility of the German press, expressed passed, Hahn had gained access to the concern over the matter. Without world exports, it said in effect, Germany sentations. Again, at the time that the must go under.

Hitler himself seems to have come to the same realization. It may well be, indeed, that rumors have on steps being taken for the and reports of a threatened financial roduction in Canada of the munitions for our forces, and until I learned that collapse in the Reich are fairly well he had misled me as to the real situ- grounded. Perhaps what this new attitude toward the Jews really tells is that Hitler and Goering have awakened suddenly to a threatened German catastrophe, and that henceforth their efforts will be directed towards a recovery of exports. It will not be easy effort. World exports, once lost, cannot be quickly recovered; markets are not easily coaxed back.

The real danger of the position that, exports found difficult to recover, Hitler will be compelled to turn to some other adventure.

Kirkland Unfavourable to Talk of "Secession'

of Kirkland Lake:-

"Boycott of Southern Ontario manufacturers and wholesalers, and efforts to effect secession, which means the establishment of a separate province covering the gold-mining areas, are not, we believe, of any value in the northern municipalities' campaign for readjustment in their favour of the proportions in which taxation of mines is distributed between them, the province of Ontario, and the Dominion.

"The old cry of secession was raised Friday night by Mayor Bartleman, of Timmins at the meeting of the Northern Municipalities Association, which comprises the municipalities of Timmins, Whitney and Tisdale in the Porcupin area; and the Township of Kirkland Lake.

"Secession, of course, is in some ways a good ballyhoo for any protest against government negelect of any district, or disregard of its fair demands, but it's been raised so often that beyond acrieving headlines, it's ineffective.

"In the first place, there is no way short of actual armed rebellion by which it could be realized, and in the bision for secession or plans for a boysecond, at a time when national unity cott. is more than ever needed, it is a some what disloyal suggestion, even if it in-
