The sports committee is composed of President Al Jackson, Secretary Eino Luhta, and Treasurer Reg Clark. Annual election of officers is to take place on Friday in the club room.

The little bride-to-be received some very nice gifts for her new home, and all enjoyed the evening and the delicious lunch served by the hostess.

Police Court

No less than 14 offenders against the Highway Traffic Act (sec. 75) "for failing to carry a driver's license," paid \$5 and costs on Tuesday. Three of these were brought by the Ontario Provincial Police, eleven by the Tisdale force.

Two found guilty (and pleading guilty) to charges of disorderly conduct were fined \$10 and costs, while only one drunk was before the court. He paid the usual \$10 and costs.

A Schumacher resident committed a breach of the parking bylaw, and paid \$1 and costs in consequence.

A lady was fined \$10 and costs "for supplying liquor to an interdicted person in South Porcupine," otherwise giving intoxicants to a person on the "Indian list"; and the person concerned, for consuming the said liquor was also fined \$10 and costs.

Mr. Langdon, counsel for defence, made a strong plea for his client—suggesting that not knowing the facts of the case the person concerned in "supplying" might be innocent. He cited the case of a supposed adult being sold beer, when he might be a minor if the supposed person looked older than his years.

"In these days," smilingly said his worship, "an old lady may get herself up to look 25, and a very young lady look 30." That would only make a difference in the punishment given the offender. If liquor is sold to a minor "knowingly," the seller gets two months—if "unknowingly," is fined.

Counsel pleaded that his client was unsuspecting, the interdicted person being a professional man and his status of being an "interdicted" person not generally broadcast to the public.

"I'll give the minimum sentence this time," said his worship, "\$10 and costs!" The case adjourned from last week concerning a Schumacher man accused of misappropriating some money belonging to the Legion, was brought up again and the details of the case revealed. Members of the Legion gave evidence, the accused admitting the facts, but explaining that he had lost the money or had it stolen from him. He pleaded for time to return the money. Crown Attorney Caldwell was willing to give the man a chance and so was the magistrate, though he spoke quite plainly of the seriousness of the offence. "I'll give you suspended sentence," said his worship. "You will sign a bond in the sum of \$100 to keep the peace for a year, and you will make restitution as soon as possible. I will give you a month in which to do it, for a start."

Matters of Interest At Township Council

Matter of New T. & N. O. Station Discussed. Mr. D. R. Franklin Appointed Architect for New Township Municipal Building.

South Porcupine, April 26.—(Special to The Advance)—A regular council meeting was held on Monday with Reeve Evans and all members of council attending.

After correspondence was read, Mr. Singleton, from Brousseau township appeared concerning garbage collection in his area. He said it had not been collected all winter. Water was also necessary, he said. He was granted permission for the time being to cultivate certain road allowance which is not fenced.

Mr. Westme, also of Brousseau township, appeared concerning winter service of ploughing on the road to his home. His suggestion of widening the road must be left until the estimates are completed.

Carl Greer, who wished council to pay an account of \$7 for him, was not granted his request.

A man, who resides in Schumacher, but works at the Dome was refunded his poll tax after certain particulars had been provided.

A request from the Porcupine Prospectors' Association regarding a "gold" celebration this year was read, but council will wait for further particulars before making definite statements regarding this.

Mr. Boyce, of Schumacher, wrote the council regarding the celebration of the King's visit next month. It was decided to see what is being done in Timmins and Teck, and a report made to council next Monday before any decision is made as to the nature of Tisdale's celebration.

Mr. Mahonka, a sick man on relief, is to be sent to a Toronto Hospital and arrangements made for some one to take him down.

A gold centre survey is to be made, and if advisable be put in application to Municipal Board at time of sitting. (Bylaw 489 was read and passed as law.)

A letter from the T. & N. O. Railway Board left over from previous meeting was discussed.

The proposed site of the new T. & N. O. Station (between Railroad St. and Boundary Lane) was approved, but Township will not "fill in any land," but "any lots in our control will be turned over."

A light is to be put at Moore and Cecil; and 6-chain link fence is to be put round yard in Schumacher.

A most important item in the council's deliberations is the fact that Mr. D. R. Franklin was appointed architect for the new municipal buildings, and a resolution concerning the same was duly filed.

Spring, Salients, Shirts and Shrubs

Mud, Gas, Money, Flowers, Cotton.

(By Thomas Richard Henry in The Toronto Telegram)

Reduced to hard, cold figures, our Spring has been delayed only about a week.

Up country, the farmers always planned to "get on the land" by the 20th of April.

Three or four days like Sunday and the Spring work will be well under way even up in the "heavy land" districts.

So Spring really isn't three months late after all.

It is this same tendency to exaggerate, that causes people to draw attention to the fact that the sun doesn't always shine in California.

The fact of the matter is that it never really gets cold in California. It only feels cold.

The "Salient"

Graduates of the Ypres Salient held their class reunions on Saturday.

Ypres, famous for mud and blood, was one of the dirtiest sectors on the whole western front.

And it was at the second battle of Ypres 22 years ago that the Germans sprang their big surprise.

They sent chlorine gas across the British lines.

The boys at Ypres went through those clouds of chlorine gas with no gas masks. With every breath searing their lungs they tried to bury their faces in soaked rags. They gasped and choked, while the Germans rained shells down on the sector.

But the Canadians at St. Julien held the line until they were relieved.

The old Salient boys graduated from a hard school.

The High Cost of War

World armament spending is calculated to be at the rate of \$20,000,000,000 annually.

The figure is too large to mean anything at all, but it does figure down to \$38,000 a minute.

A person could finance a lot of social welfare on \$38,000 a minute if the human race weren't cursed with these maniacs who promote war.

Keep Your Shirt On

Buttons bearing the legend "You'll be cooler if you keep your shirt on" are being distributed down in the States. It is a good idea.

If you get excited and fly off the handle, you are going to feel a lot hotter than if you keep cool and take things easy.

This was our reaction to these buttons—but imagine our surprise to find out that down in the States where slang is used in slogans 99 per cent of the time, the advice was intended to be taken literally.

It was an argument by the cotton manufacturers to promote sales of knitted cotton underwear.
