Archie Miner is Charged

Faces Illegal Possession Accusation Following Raid Early Saturday.

A charge of illegal possession of liquor was laid against Archie Miner on Saturday following a raid on his roadside on Friday night by provincial policemen. Before the case is heard in police court on Tuesday additional charges may be laid.

The raid occurred early on Saturday morning after police kept the place, which is located just west of the bridge crossing the Mattagami river, under observation for a period of several hours.

Police allege that they found two part bottles of liquor, one containing whiskey, the other gin, outside the rear door of the Miner establishment.

Following Miner's arrest he was released after \$1,000 bail was posted for him.

Magistrate Atkinson will hear the charge on Tuesday afternoon.

Open Eight Hours Sunday When Drug Act Enforced

Druggists Meet and Agree to Cut Period Open on Sunday to Eight Hours and to Sell No Furniture. Condition is That Town Prevents Unlicensed Shops from Selling Drugs. Another Meeting Likely.

A further meeting between representatives of the Timmins Druggists Association and members of the Town Council was foreseen following a meeting held by the Association last Friday. At the meeting the recent request of the Council that druggists close their stores on Sunday for all but eight hours, was considered.

Decision of the druggists was to remain open for only eight hours on Sunday and to refrain from selling furniture, such as radios. It also was decided that druggists would not sell hot water bottles.

The Association's decision was made on the condition that the Town Council take steps to have the Pharmacy Act more strictly enforced. Under the provisions of that act small grocery stores would not be allowed to sell common drugs, such as aspirin and iodine as many of them do at present.

The Druggists Association, through its Secretary Mr. Bert Sutherland, announced that it would be willing to try the eight hour day on Sundays for a period of two months and to see what effect, if any, it would have. It was agreeable to starting on July 1.

A further meeting of druggists and the Council will be almost necessary to have the two bodies come to some formal agreement.

Need Men's Clothes and Shoes

Salvation Army Makes Appeal for Discarded Clothes and Shoes.

Major Cornthwaite of the Salvation Army asks The Advance to call public attention to the need for men's clothes and shoes to carry on its local work of relief and help. At the present time there has been a special demand for clothing and boots for men with the result that the Army supply has to be replenished. Major Cornthwaite knows that readers of The Advance only need to know the requirements to supply what is needed from the kindness of their hearts. Anyone who has discarded clothing or boots for men, please phone the Salvation Army, phone 2458, and the goods will be called for promptly and with thanks. The Salvation Army is constantly helping scores of families and few days go by without someone being outfitted. Accordingly, it takes considerable clothing and boots to meet the needs, so all who help in this are certainly assisting a very worthy and helpful cause.

Hundreds Pay Last Sad Tribute to W. W. White

Funeral on Saturday with Masonic Honours. One of the Largest Funerals in Years. Many from Distance Attend Last Rites for Pioneer of the North.

The funeral of the late William W. White, pioneer resident of the North, and prominent in Masonic and other circles, was held on Saturday afternoon and was one of the most largely attended funerals held in the camp in recent years. A Masonic service was held at the lodge rooms here at 2:30 p.m., and the Golden Beaver Lodge and visiting brethren marched in a body to the United Church for the service there. It was one of the largest gatherings of Masons here, the late Mr. White not only being high in Masonic standing but also enjoying very wide personal popularity as a citizen and a man. The church was filled to capacity and some were unable to find room inside the church. The service was conducted by Rev. W. M. Mustard, minister of Timmins United Church, and Rev. Canon Cushing, rector of St. Matthew's Anglican Church, Timmins. Rev. Mr. Mustard referred briefly but effectively to the value of the late Mr. White to his fellows and to the community, and the high regard in which he was held by all.

The large number of beautiful floral tokens showed the high respect in which the late Mr. White was held and the deep sympathy felt for the bereaved widow and son.

The pallbearers were:—Messrs E. L. Longmore, W. H. Pritchard, W. V. Neilly, Ronald Vary, James Ralph and Dean Kester, K.C.

Carried eight miles out of the bush on the backs of several of his friends and transported eighteen miles by boat, William Walsh is in St. Mary's Hospital here today suffering from a bullet wound in the side.

Walsh and a couple of friends were back in about eight miles from the river bank yesterday. When Walsh bent down to pick his rifle up off the ground it accidentally discharged and he received the 44.0 calibre Winchester slug in his side.

The slug entered just above the hip, grazed a lower rib and made its exit through the back of the body.

Word was sent out that the man was injured and at about eight o'clock in the evening Provincial Constable Harold Gall and Dr. R. E. Anderson waited at the wharf here for the boat to arrive carrying the injured man.

Finally they tired of waiting and took a boat up the river. They arrived at a point eighteen miles up just as his friends were bringing Walsh out of the bush. There are several survey camps in that vicinity and men from there took turns at carrying the injured man over eight miles of rough ground to the river bank.

Dr. Anderson gave medical attention on the spot and the man was rushed down the river in the boat chartered by police. On arrival here he was rushed to the hospital.

Dr. Anderson said today that Walsh stands an excellent chance of recovery. Had the bullet entered an inch further toward the centre of the body he would have bled to death before his friends could have brought him out. As it was the injured man lost considerable blood.
