## Twenty Years Ago

From The Porcupine Advance Files

The Advance twenty years ago said: "The banner of the Temiskaming Volunteer Firemen's Association, put up each year for the wagon race contest, has now been won twice by the Timmins Fire Brigade. There are spaces on the banner for only five names, but counting the present year, three of the names are filled in, Timmins having two of the spaces. When all the spaces are filled the team having its name appear the most times as winner of the banner takes the trophy permanently. If Timmins Wins the banner one more year it thus comes permanently to this idea that the banner would look well in the hall here and for this and other reasons fully intended that it will find a permanent home in Timmins." To this item of twenty years ago, The Advance would add that the banner has found its permanent home in the Timmins fire hall along with a whole big case full of other trophies. Timmins has its name on more than that first banner than any other brigade though winning it only twice. No other brigade won it more than once in the five years. The following are the winners of that first banner:—Timmins, at Cobalt, 1917; New Liskeard, at Timmins, 1918; Timmins not being a competitor, but only making a trial run, as the race was here; Timmins, at New Liskeard, 1919; Haleybury, at Cochrane, 1920; Cochrane at Timmins, 1921.

In the Advance of July 9th, 1919, reference was made to the expected visit to Timmins of the Prince of Wales. The Advance said in part:—"Dr. McInnis, mayor of Timmins, received word this week of the expected visit to Timmins and the Porcupine Camp of His Royal Highness the Prince of Wales. The exact date has not yet been set but will likely be known by the end of the week. Dr. McInnis is going to North Bay this week in connection with the expected royal visit and definite arrangements will likely be completed during the Mayors visit to the Bay. The prince is to make a tour of Canada and on his way to the west will visit Timmins and the Porcupine. It is expected now that he will be here some time during the month of August, and it is intended to give the royal visitor a royal good time when in Timmins."

co-operate:—Mr. Brigham, of the Hollinger, Mr. Laux of the Dome, Messrs. J. Shewan and Geo. N. Deckert, of the McIntyre, for the mines; Councillor Muskett, for the township of Tisdale; Messrs. L. S. Newton, P. O'Neill, L. Ducharme, N. McKinnon and H. Charlebois, for the Miners' Union; Mayor McInnis and Councillors A. Brazeau and E. L. Longmore, for the town council; Messrs. R. J. Jemmett, J. W. Reed, P. Dougall, I. T. MacGregor and P. A. Macaulay, for the Great War Veterans Association, Timmins branch. Geo. A. Smith was elected chairman of the conference, and H. W. Hooker secretary. The resolution passed by G. W. V. A. (reproduced in "Twenty Years Ago in Timmins" recently) was read to explain the purpose of the conference. This resolution referred to the prevailing industrial unrest, giving the chief cause of the discontent of the people as the merchants, the mine owners and other to co-operate with the G.W.V.A. in seeking to solve the problem. In opening the meeting Chairman Smith said:—"The time has come for action, direct and prompt. Delay, and yet more delay, has been almost the sole cause of unrest and discontent among people. We believe a remedy dealing with such a vital question as the price on foodstuffs and the necessities of life will greatly relieve the present unrest. And the Goldfield branch of the G. W. V. A. wish it to be clearly understood that we serve no party, no "interests", and no combines, but we do wish to serve Canada to our utmost." J. W. Devaney pointed out that the conference should seek to learn if there were overcharge by local merchants. He quoted prices here and at Iroquois Falls to indicate how comparisons might be made. Dr. McInnis said he had an open mind on the question of profits by local merchants. It was up to the conference to gather data to show whether local profits were exorbitant and to seek remedies for the high cost of living. Councillor Muskett showed the success of co-operative stores in Great Britain and suggested use of the idea here. Mr. P. Dougall showed that the commercial traveller gave a very useful service in the economy or trade and really assisted in keeping costs merchants individually would have to travel to the various larger centres to do their purchasing, so the total expenditures would be much greater than at present. Mr. Laux thought a "grievance committee" to whom complaints about prices and quality might be made would be of much help. He also referred to the fact that the Dome Mines store had recently made voluntary reductions in prices, the Dome putting up for the losses so entailed. Geo. N. Deckert suggested that local merchants

## How Good Is Your Memory - Can You Name These Stars?

### RULES

Read the Advertisements. Find the correct names of the stars pictured here.

Send your answer to The Advance addressed Movie-Memory Contest before 9 a.m. Friday stating the correct names and the ads in which they appear.

The first five correct answers taken at random from the box of sealed entries on Friday, will be declared the winners.

Winners announced next Monday.

Each Winner Will Receive Two Theatre Passes.

### Watch Recovered After Being Lost Outside for Year

A correspondent at Westmeath, near Pembroke, tells a rather unusual story of a watch being lost and found. The watch was lost in a field on a farm last June and this year, nearly thirteen months after, it was found outside, and investigation proved it was little the worse for spending a year in the open air, in all the different kinds of cold, wet, hot and humid weather for which Canada is decidedly famous. The story in full is told as follows:— Last year during the month of June Mr. James McBride, of the Eighth line Westmeath, lost his watch while working in the fields on his farm. He searched for the lost timepiece but did not succeed in locating it last year. This year while working in the fields on his farm he found his watch again. The watch was run down, and the numbers on the dial were slightly dimmed but otherwise the watch was in good condition. When it was wound up it ticked away merrily and took up the work of indicating the time, as if it had not spent thirteen months in the open country and the changeable weather.

### Wants Immediate Work on Highways of North

An editorial in The New Liskeard Speaker last week says:—"Complaints as to the condition of the main highways north of New Liskeard are still coming in to The Speaker. This week a visitor from Timmins reports that he does not remember when the roads in the Porcupine area were in as bad a condition as they are this year. Kirkland Lake residents are strong in their condemnation of the government that has allowed the main highway to stay in as bad a condition as it is. "When the Heppburn Government added 2c to the gas tax it was for maintaining the heavy road construction programme. As far as this section of the north is concerned and the same applies to Cochrane district as well, motorists are just making a gift of the extra 2 cents per gallon. "Maintenance of the No. 11 highway is at a bare minimum and in fact is not sufficient to even keep the highway in a reasonable state of repair. Residents of this section were led to believe that they could expect a paved highway to Toronto by 1940, but it begins to look as though it will be some time yet before that promise is realized. With the announcement of a paving programme commencing at North Bay and extending ten miles north a start is being made, BUT if that is to be the extent of the yearly paving it will take almost eight years to reach Latchford and it is doubtful if motorists will wait that long. While The Speaker appreciates the efforts made by authorities in Toronto to improve road conditions in Northern Ontario it does not condone the action of the Department of Highways this year allowing the newly constructed highway to fall into the same condition as the roads were during the last term of the Henry regime."

### Says University Built to Vent Spite of Huey

Newspaper accounts of the disappearance of Dr. James Monroe Smith, head of the Louisiana State University, who surrendered himself at Brockville, related that Huey Long erected L. S. U. to spite Tulane University for refusing to confer an honorary degree upon him. The Department of Justice, however which once investigated the Long machine, insists that isn't true, writes Leonard Lyon, Broadway columnist. The real story is that Long had asked the Tulane officials whether he could get a law degree if he attended the Law School's night sessions for two years. He was told it would be done. But after these two years of study the degree was refused him. Huey thereupon directed that a Louisiana jurist give him a bar examination, in open court. Long passed that test, and thereby was admitted to the bar. So to spite Tulane because of a broken promise, he built the magnificent L. S. U.

### WILL HITLER TAKE ONUS FOR STOPPING ELECTION

The following is from a recent issue of the Windsor Star:—"Ottawa believes an October general election is likely—barring war. Now, survey Adolf won't go and mess things up for the wealth struggle between New Democracy, and the Leadership League and Hicks-for-Happiness Boys; Christian Science Monitor:—No one should be too alarmed just because the British Empire at present seems to be staggering from one crisis to another. After all, it's been doing that for about 900 years.

## Expect Over 12,000 at International Convention of Lions

Event at Pittsburgh This Week.

Chicago, Illinois, July 15th:—Climaxing its greatest year expansion, from July 1, 1938 to June 30, 1939, Lions International will hold its 23rd annual convention in Pittsburgh, Pennsylvania, July 18-21 with a four day program of business and entertainment. Advance registrations are the largest in Lions convention history, and attendance is conservatively estimated to pass the 12,000 mark.

In the past twelve months, under the presidency of Walter P. Dexter, state superintendent of education in California, the International Association of Lions chartered 557 new clubs and registered a net increase in membership of nearly 20,000 making it the largest service club in the United States and Canada, with nearly 3,500 clubs and 125,000 members.

The annual convention to be held in Pittsburgh will celebrate this year of expansion. The only comparable year in the past 23 years was 1937-38. Delegations to the convention will arrive on special trains, by motorcade and quite number by airplanes. The president of the Lions Club of Ponce, Puerto Rico, will fly his own plane to Pittsburgh for the four-day conclave.

Special trains are scheduled from Texas, California, New York, New England, Florida and Illinois, and most of the specials will carry high school bands with them to participate in the annual juvenile band contests to be conducted as part of the four-day program.

An unusual feature of the convention program is to be a "lion beauty parade"—of real, live fourlegged lions. The entries will be youthful, not more than eight months of age, and there will be eight of them coming from as many sections of the country. The "beauty parade" is being conducted in conjunction with Metro-Goldwyn-Mayer pictures, and will climax a two-month nation-wide hunt by Lions Clubs for a lion cub to serve as understudy and eventually replace M-G-M's famous Leo. The winning cub will be signed up immediately by M-G-M, given star rating, and taken to New York for Lions Day at the World's Fair July 22nd. From there he will be

Peterboro Examiner:—When the Jewellers were in convention here we had intended asking them if they had ever found out who invented the alarm clock and just why he did it.

## Last Monday's Correct Answers and Winners

Correct answers for last Monday's Contest

MARLENE DIETRICH, name in Reed's Auto Supply Ad. MICKY RONNEY, name in Stevens and Marson Billiards ad.

The first Five Correct answers opened were from:

MRS. A. NICHOLSON, 8 Windsor Avenue, Timmins  
MRS. THOS. LANGMAN, Mountjoy Street, Timmins  
MRS. R. POTVIN, 117 Birch Street South, Timmins  
T. FILLION, Crescent Avenue, Timmins  
NADINE O'CONNOR, 58 First Avenue, Timmins

The winners are asked to call in person at The Advance office any day before 6.00 p.m., when they will receive Two Theatre passes each.

to cover the emergency of two simultaneous fires of a major nature and to cope with the growing territory to be covered. The last pumper was purchased in 1929. The new pumper with all its supplementary equipment is the last word in fire-fighting apparatus. It will be available for use anywhere within the entire township but will not go out of The Town. Other apparatus may be allowed to go out from time to time with express permission, but not the new acquisition. One of the most important features will be the emergency flood-lighting equipment. This will be sufficient to light up the entire business section of Kirkland Lake. In the event of a fire or storm interrupting power service the fire department will not be handicapped. This triple-combination pumper will have three important services on the one piece of apparatus, pumps, hose and chemicals. It is equipped to supply four lines of hose with a powerful stream of water and can raise water 29 feet from a lake or creek.

Story of How Iroquois Falls Was Given Its Name Writing in The Northern News last week about the "Old Mission" near Cobalt, "The Inquiring Reporter with Spectacles" incidently gives an explanation of the origin of the name "Iroquois Falls." Here is the paragraph:—"While the chronicles of the missionaries are confined to the bare facts, yet on occasion some interesting stories are told. One of these is the story of how Iroquois Falls got its name. This was told by an Algonquin to one of the early missionaries and has been recorded. A war party of Iroquois, in two large canoes had visited the country, seeking their traditional enemies, the Algonquins. They had destroyed one village and had taken a young girl as a hostage and a guide, to lead them to still another village which they hoped to surprise. Coming to the falls they heard the roar of the cataract, but they were assured by the girl that they could approach quite close to the brink without danger, and were directed to go close to a flat rock near the brink of the falls. Standing up in the canoe, the better to show her captors where to go, when the canoe neared the flat rock she jumped to safety and the two canoes loaded with Iroquois braves, with the spoils of her former home and the scalps of her relatives, went on over the falls to destruction. She, alone, escaped."

### Kirkland Buys Latest Type of Modern Pumper

Kirkland Lake, July 15—The Township of Teck will have a new fire department pumper by the middle of September. The machine, which is streamlined, has no outside running board, and the firemen will ride in the centre and at the back without running the risk of falls. It is being specially built by the LaFrance people, who are exclusive manufacturers of fire engines, and will cost \$15,000. A quantity of special equipment is provided, including a hose stand which will prevent firemen battling with a hose writhing from water pressure, a factor which will be a great advantage in winter. Purchase of the machine was voted for at Tuesday's meeting of Council, on the recommendation of the committee of the whole, which, in the persons of Councillors Church, Kinniburgh, Cowan and Tresler inspected a similar machine recently purchased by Noranda. The new unit is needed

North Bay Nugget:—Even though man appears slow and in some instances incapable of solving economical problems, nature does wondrous work in leadership and assisting ways.

Sudbury Star:—In any event, if the people of Sudbury have to make a choice between Fascists and Communists, they will choose — neither.
