## **Further Donations** to the Christmas Seal Fund Campaign

In the issue of The Advance las Thursday it was noted that a total of \$1943.74 had been donated to the Christmas Seal Fund used to fight uberculosis in the Porcupine. It was added by The Advance that the objective of the committee had been \$2,000, so there was only \$56.26 to be made up Pembroke; Irene and Gordon Letby, to reach the full objective. While the committee had made no comment except to express appreciation for the sor Fox on behalf of the club Advance ventured the opinion that in chair. view of the earnest and devoted work of the committee, it would be a nice Sudbury Star:-A story goes the gesture to see that the full objective rounds that Goering was shot in the was reached. This could easily be done trousers in a hunting "mishap". It has by some who had not remitted for the got so a fellow doesn't know where to Christmas seals doing so at once and by others who felt that they could spare an extra dollar or two sending in these extra donations. This week it appears till easier to reach that full objective there being a number of further donations received, running the total within a few dollars of the two thousand mark. Another similar list of contributors will easily reach the full ob-

#### **Tennessee Valley Project Described** by University Head

President Western University Says T.V.A. Practical Example of Democracy.

Describing it as a "practical example of democracy", Dr. Sherwood Fox, 25 and 50 years of age, with car or President of Western University, Lonsuitable travel outfit, in nearby rural don, Ontario, gave members of the Kiwanis Club here a description of the for Everyday Necessities tied up to Tennessee Valley Authority-a huge re-Seasonable 1c Sale. Farm experi- construction project under way in the ence helpful. Selling experience not Tennessee Valley by the United States

The real meaning of democracy had, dit furnished right party. Write im- in past years, been too much obscured mediately, The J. R. Watkins Com- by the thousands of words said and written about the great principle. He believed that some of its meaning had been lost because of the barrage of verbiage which had been laid down.

Such a project as the T.V.A. was of concrete help to the people. It was especially valuable in the Tennessee Valley where, in some parts, the standards of living were down to very low

The project was started by the United States Federal Government, said Professor Fox. At its head is Mr. Harcourt Morgan, a Canadian. In order to facilitate its work it was necessary for the government to purchase a total of \$110,000,000 worth of power companies from public utilities. Total purchases will be much greater than that

Principally the aims of the project which had begun in October, 1933, were to control the floods in the Mississippi River Valley and to produce and control electrical power.

Some idea of the size of the project could be seen from the fact that the area in which it was being accomplished encompassed most of seven states and a population of two and a half Monday-7.00 p.m.-Corps Cadets. millions of people and that by the control over 153 billion tons of water were directed annually.

One of the reasons for the terrible social distress in that locality had been the erosion of soil. Farms, as a result of that erosion, were poverty stricken and the farmers on them in the very depths of poverty and misery.

Aims of the project were: (1) flood control. By control of floods, said the speaker, erosion would be prevented and better farms would result. Last garet; Broken Circle, Nora, Cam and have returned from a honeymoon trip year the river was lowered more than one foot in flood season, and this year, by means of four dams which have been least four feet in flood season. That meant much to farms along the banks.

Another aim was to conserve and distribute the tremendous amount of power generated by the harnessing of the river. By means of the governmental control of the project the control of not only the wholesale but also the retail price of power remained in the government's hands. It could thus see that power was made available to the peo-

Each of the many dams which will be constructed along the 900 mile waterway before the project is finished, is being built with a lock and a nine foot waterway. Navigation on the river will be considerably improved.

In the six years the project has been under construction the conservation of electricity has increased from three to four times and private utility companies in the area are even making a small profit—for the first time in years Another purpose would be that of national defence. The area could be flooded at will when the project is completed.

Such a project, said Professor Fox, helped homes and farms through conservation of the fertility in soil. By means of the flood control phosphates and other fertilizers in soils would be

We could use improvements and similar projects in parts of southern Ontario where soil erosion was becoming a matter of primary consideration, said Professor Fox.

Mr. W. O. Langdon thanked Profes- 7.00 p.m .- Evening Worship generous response of the public. The President A. F. McDowell was in the

## Defer C. Millard Hearing Again in **Court on Tuesday**

The hearing of charges that Charles Millard, Toronto C. I. O. official, violated the Regulations of Canada by making statements in a Timmins theatre which would tend to prejudice recruiting of His Majesty's Forces, was again deferred in police court on Tues-

Crown Attorney Caldbick said that Millard was still in the hospital and unable to appear here. In order to avoid having to remand the case, which in Toronto is inconvenient inasmuch as the magistrate has to go to the hospital Mr. C. R. Magone, special Crown Prose-

cutor, suggested an alternative. He suggested that the bail being Res. 20 Elm St. North Phone 1982-W supplied here by two Timmins people, 1.30-Public Worship in Finnish lanbe temporarily estreated and that a bench warrant be issued for Millard. When Millard, who recently underwent | 3.30-Cottage Prayer meetings in Finan operation for appendicitis, was ready to appear the bench warrant could be

Magistrate Atkinson agreed and explained to the two bondsmen that the bail they provided would not be lost to them but estreated only temporarily.

# Fire Chief Recommends Substation and Extension of Fire Alarm System

Improved Methods Needed to Give Full Service to Outlying Parts of Town. Work of the Past Year Reviewed by Chief Borland in Annual Report.

for publication to-day:-

Twenty-Third Annual Report of Timmins Fire Department Submitted by Chief Alex. Borland To His Worship the Mayor and Mem-

bers of Town Council, 2.30 p.m.—Sunday School for under 12 submit herewith my twenty-third (23rd) 7.00-Evening Service, conducted by Annual Report of the Timmins Fire the Young People's Union, and Department, from December 15th, 1938, to December 15th, 1939.

> Alarms phone. 42 by street alarm boxes, and 10 verbal alarms, a decrease of 7 alarms from 1938.

#### Losses for the Year

The total losses for the year are estimated as follows: \$27,420 on buildings and \$39,145 on contents, making a total loss of \$66,565, covered by insurance to the extent of \$350,000. Of this total loss \$48,000 is due to the Timmins Press and Radio Station CKGB fire on Spruce Street North last April

#### Equipment Used

Equipment used to extinguish fires during the year are as follows: 17,600 feet of hose, 650 feet of ladders, 29 all times. hydrants, 300 gallons of chemical, 22 smoke masks and the booster pump was

in operation 29 times. During the year regular ladder and hose practice was held weekly by the entire department under my supervision and assisted by the officers, also first aid training was held weekly by the members which has shown great benefits to the citizens who required treatment. This work should receive every encouragement from the Council.

During the year 5 blood transfusions were given by the members of the department and 60 first aid dressings were applied and two drownings and one suicide by hanging were attended

Inspections Regular fire department inspections of homes and places of business were carried out during the year are as follows: Business establishments 743 inspections, places re-inspected 717, defective electric wiring 16, which was duly reported to the Hydro Inspector for his attention, 78 wood yards were present. inspected and 114 defective chimneys were reported and acted upon, making a total of 1,659 inspections as outlined

Fire Prevention During Fire Prevention week 1,600 regular fire department inspection sheets were distributed to the pupils of the various schools and as per instructions given, 933 of these sheets were returned to us properly marked and 33 of these were marked defective which were acted upon immediately. Also fire drills were held at all schools during the year and our records show a total of 133 drills from April 20th, to November

gasoline and 121/2 gallons oil. G.M.C. garet Nelson) of 79 Way avenue-a Hose truck 33 gallons gasoline and 1 daughter. gallon oil. Ladder truck 87 gallons gasoline and 21/2 gallons oil. Dedge light and Mrs. Anello Pezzola (nee Jean truck 198 gallons gasoline and 2 gallons

Improvements During the year a new heating system was installed in the fire hall, the old and ineffective hot air system being replaced by a steam system fed from the town hall boiler which will mean large savings in fuel. Also during the year 1,000 feet of 21/2 inch fire hose was purchased and 4 smoke masks be-

ing added to the present equipment. In June of 1939 the one day off in seven was granted to the members of the department which still leaves them putting in 72 hours a week.

#### Apparatus and Equipment

The apparatus and equipment of the

department consists of the following: LaFrance Metropolitan 1,000 gallon Pumper with booster water tank, 24 foot extension ladder, 16 foot roof ladder, search lights, axes, door opener, 4 nozzles, smoke masks and carrying 1,500 feet of hose etc. LaFrance ladder truck equipped with 235 feet of ladders, 40 gallons chemical tank, cellar pipe, deluge set, life net, gas masks, salvage covers and carrying 800 feet of hose, G.M.C. Hose truck equipped with 40 gallon chemical tank, 24 foot extension ladder, 16 foot roof ladder, first aid kit, search light, smoke masks, salvage covers, 6 nozzles, and carrying 1,400 feet of hose, Dodge light truck which is used for looking after chimney fires and fire alarm system carries 750 feet of hose, 14 foot extension ladder, 2 three gallon chemical tanks, 2 nozzles,

The fire alarm system consists of 43 street alarm boxes, tower bell, indicator

The following is the annual report and gong in fire hall, gong in pumping of Fire Chief Alex Borland, as sub- station and 6 tapper bells in volunteer mitted to the 1940 council and released firemen homes and is operated by two

#### sets of storage batteries kept up by motor generator charging. Recommendations

For the protection of life and property and to keep up the efficiency of the department, I would recommend GENTLEMEN: -I have the honor to that a Sub-station be built in the Southwestern section of the Town and that the Fire Alarm System be extended to parts of the Town which are without this service. I would strongly urge the Council to give my recommen-The Department responded to a dations every consideration. Owing to total of 359 alarms during the year the rapid growth of the Town we have compiled as follows: 307 alarms by tele- not been keeping in pace with it and we cannot give efficient service to the outlying parts of the Town which is expected from us.

#### Conclusion

In conclusion I wish to thank His Worship the Mayor and Chairman of Fire and Light Committee and all the members of the Council for the interest they have manifested in the welfare of the department. To the officers and members of the permanent and voluneer force for the cheerful and efficient manner in which they have performed their duties. I also wish to thank the various heads of the departments for their assistance and co-operation at

The Guides of the 106th LODE. Company held their meeting on Monday, Jan. 22nd in St. Matthew's hall, The meeting was opened in the usual manner. Inspection was taken by Lieutenant Johnston. The Oriole Patrol was the colour party this week. The Guides went to their patrol corners and worked on badges till eight o'clock. A jolly new game was played and several songs sung. The meeting was closed with Taps. A Court of Honour will be held next week. All patrol leaders and seconds are urged to be
