South Porcupine, April 13.—(Special to The Advance)—We feel that the Junior C.W.L. deserve special praise for the way in which they worked and the success that attended their efforts at the bridge party held under their auspices on Friday night in the Masonic hall.

Twenty-nine tables were filled for bridge—the largest number South End has seen for a long time, and an evening of cards was followed by a daintily served and prepared lunch, that was as colourful and spring like as it was delicious.

Mr. Walter Cliff took first prize for men. This was a large perfectly equipped wooden hostess tray with glasses, relish dishes, etc.

Mr. Wm. Riddell, as second prize winner, took home a pair of marble book-ends.

### Accidental Death Verdict at Inquest at South Porcupine

Jury Attaches No Blame to Anyone in Death of Hector Dempsey.

South Porcupine, April 13.—(Special to The Advance)—A verdict of accidental death with no blame attached to anyone was returned at the inquest, held into the death of Hector Dempsey who was killed while working underground at the Paymaster Mine on April 5th. With Ivan Lang as foreman the jury consisted of Robert Mayes, Thomas Noel, W. J. Butler and John Whitton. Coroner H. E. Montgomery presided at the enquiry and testimony of several employees was given during the hearing. Dr. McLaren attended Dempsey after the accident and ascribed death from fractures of the neck and skull. He was dead when he was brought to surface for examination.

Mr. Pugsley, underground superintendent, testified he had directed operations for the removal of the rock all that pinned the unfortunate man against the wall of the stope. The large piece of rock weighed between three and four tons and had fallen out of one side and pinned Dempsey against the other wall. Its removal had taken over four hours with thirty or forty men working at it. A. Lusa, Dempsey's partner, had been working ten feet from him when the accident occurred. He had seen him sound the rock twice that day to see whether it were loose or not.

D. McLennan, shift boss, said that Dempsey had always been a good and careful miner. H. Mayrand had been working with the timber gang about forty feet away, had heard the noise occasioned by the falling rock, and the shouts of Dempsey's partner. The timber men always timbered any sections—thought by the machine men to be loose, but had received no instructions to do any timbering where Dempsey was working. The inquest was held in the township building on Thursday at 4 p.m.

### Huntsville Lad Appears as Regular Inventive Genius

The following veracious anecdote is given in last week's Huntsville Forester: "A voice from upstairs called 'Mom,' come up and see what I've invented." So up the stairs walked Mom. To her surprise, the bedroom window was up, and held there by a tester-totter arrangement which was locked at one end by a notched stick. Through one end of the notched stick was a cord which in turn was tied to her son's big toe. "Well," said mom, "what's all this?" "That," said the son, "is my invention for letting the window down when the room gets cold without getting out of bed. You see, mom, when I get cold I always draw my feet up under me, like this." As he pulled his feet up, bang, down came the window. "See, mom? It works, too!"

The proposed By-law and plan showing the lands to be affected may be seen at the office of the Clerk of the Township of Tisdale at South Porcupine, Ontario.

DATED this 29 day of March, A.D. 1940.

P. H. MURPHY, Township Clerk.

THIS IS Arthur Jones\*

WHEN the call came Arthur was a junior clerk earning a modest salary... he lived with his Mother and contributed weekly to the upkeep of the home.

Arthur had a pretty good time... his friends were fine young fellows like himself... eager, energetic, buoyant with faith in the future... the kind of fellows who will fill positions of responsibility in the Canada of tomorrow.

Arthur had simple tastes, good friends and a sincere faith in God. His love of country and the principles of democracy came as naturally as his respect for father and mother.

Arthur Jones enlisted to defend these things! Now he is in England... soon he may be in France... soon he will be living a fantastic reality far, far removed from that simple life he knew at home. Soon, dirt, mud, danger, excitement, exhaustion will crowd upon him... and to him; as to thousands more like him, will come the hunger and the necessity for relaxation... for momentary escape.

In those hastily-snatched moments of relaxation the influences about Private Jones will form his character—make him a better or a worse soldier—a better or a worse man—a better or a worse citizen in the great future which awaits Canada—after the war.

It is one of the tasks of the Y.M.C.A. to provide the kind of recreation, both in Canada and overseas, that will help Private Jones to remain—Arthur Jones—the fine, hopeful young man whose ideals sent him from his comfortable home to fight for us.

In Y.M.C.A. centres—in Canada, Britain and France—he will find the spirit of home, companionship, good books, games, wholesome entertainment, stationery to write home, helpful counsel and a host of other opportunities for worthwhile relaxation during off-duty hours. An atmosphere which will fortify, not weaken his ideals—which will strengthen him in body, mind and spirit.

Your influence in the moulding of the future of Arthur Jones, and that of his comrades, will be felt as you help the Y.M.C.A. carry forward this great Christian work. So give willingly and generously to the Canadian Y.M.C.A. War Services Campaign... make Your contribution to the maintenance of our boys' welfare, morale and spiritual well-being while they fight our battle—for democracy's ideals.

Y.M.C.A. The Boys depend on the 'Y'... the 'Y' depends on YOU
