Many Now Rallying to the Support of the Navy League

A circular from Toronto to The Advance says that more than 100 villages and towns in this Province are, this Summer and Fall, holding tag days in aid of the war service work of the Ontario Division, Navy League of Canada. Aided and abetted by the local civic authorities, the hard-working ladies of various women's organizations such as the Women's Institutes, the I. O. D. E., Ladies' Auxiliaries in churches of every denomination, are doing their share in seeing that the Navy League's efforts to see that everything possible is done by lack of funds, in addition these ladies and children too, are continually helping to knit articles of warm clothing which the Navy League distributes to the guardians of the sea.

The Ontario division of the League is definitely encouraged by the efforts of workers in our urban centres, feeling that their efforts are a definite endorsement of the aim of the Division to see that at all times and in all places, Canada's men of the seas are serviced as far as possible in bodily comfort and mental recreation.

In three towns and nineteen villages the magnificent total of \$2,200 was raised through tag days. When it is known that the population of the largest town is 5,000, and the largest and smallest village populations 2,300 and 600 respectively it will be realized how sincere is the wish of the country people to help the Navy League help the sailors with knitted goods, ditty bags, playing cards, cigarettes and chocolate bars, and assist the Navy League in its vital Sea Cadet training programme.

Many more tag days are to be held. It results are as good as those obtained from the first twenty-two this year, the people of Ontario will justifiably be able to feel that they have contributed to a worthwhile cause.

Ontario Farmers In Serious Need of Help on Farms

Five Hundred More High School Boys Requested.

With farm helpers few and far between, Ontario farmers are in desperate need of immediate aid to salvage their hay crop, states A. Maclaren, Director, Farm Service Force, Ontario Department of Labour.

Canada is committed to large quantities of food for Great Britain—112,000,000 pounds of cheese for 1941 and millions of pounds of bacon as well as vast quantities of powdered milk. This means that every wisp of hay must be placed in barns in good condition. This cannot be done with the pitiful amount of man power at present available on the farms and calls for quick action on the part of men who could spare at least one day a week on a farm in the vicinity of his city, town or village.

Already thousands of High School boys have been placed with farmers in various parts of the province, and the farmers are so pleased with the

magnificent response of youth and the efficiency shown that the Farm Service Force has been asked to supply an additional 500 boys.

By enlisting for Farm Service, Ontario youth is letting Prime Minister Churchill know that "Here's the food to finish the job." Adults who are not engaged in essential war industry should follow the example set by youth and heed the farmer's appeal by volunteering to work one day a week to help garner the limited hay crop.

The 6,000 Farm Service boys and girls who are doing such yeoman service have made a hit with their employers and farmers who originally were not sold on the idea are now clamouring for them. Mr. Maclaren has application from 500 farmers that have not been filled. Adults as well as collegiate boys and girls, who can step into this agricultural breach, should write at once to the Farm Service Force, Department of Labour, Parliament Buildings, Toronto. Your help will aid in Ontario going over the agricultural top in providing Britain with the food necessary to help Churchill finish the job. They also serve who feed the Empire!
