

Timmins Markets First Callable Debentures

Town Gets Best Price They Ever Got for Debentures. Are Callable at any Time

Debentures are for Ten Year Term but May be Recalled Before That Time is Up. Firm That Bought Them Never Invested Money in Mining Towns Before.

The finance committee of the Timmins council did a fine piece of business this week when they sold \$47,824.60 in ten-year debentures at four per cent. The best part of the business is that the debentures can be picked up at any time the town wishes. It is the first time in the history of the town that they have issued debentures that were callable. It is also the first time that the firm who bought the bonds have ever invested any money in bonds of a mining town. The finance committee felt proud of themselves at yesterday's meeting of the council and they had a good right to be proud.

Mayor Brunette was in the chair yesterday and Councillors Terry, Robert, McDermott, Spooner, Bartleman and Eyre were all present. The meeting lasted a long time but not much in the way of business was accomplished. A lot of time was taken up when the council were interviewed by a delegation representing the Plumbers Association. The council is drafting a plumbing by-law and they want the consent of the plumbers before they give the by-law the final reading. Several changes were requested by the plumbers and the whole affair was finally left to the plumbers and Mr. MacLean, the town engineer, and when they get the by-law straightened out the council will pass it.

A letter was received from the Timmins High and Vocational School board asking council to refuse to grant licenses to travelling carnivals except during the months of July and August, when the pupils were on their summer vacations. They claimed that the presence of carnivals in June was interfering with the pupils' studies. The council agreed that they would not grant any licenses unless all the schools were closed.

A resolution was passed authorizing the Timmins Boy Scouts to hold an Apple Day on Saturday, October 11th.

The Association of Mining Municipalities wrote to the council advising them that the next meeting of the Association would be held in Porcupine.

Partridge Season Opens Next Week for Ten-Day Period

Hunters are Warned to Carry Their Hunting License and Forbidden to Use High-Powered Rifles

The partridge season in this district opens on Saturday, October 4th, and will remain open for a period of ten days. A second open season will be from November 3rd to November 12th, during the deer season.

Hunters are warned that they must have hunting licenses to hunt partridge and they are also warned that it is illegal to carry a high-powered rifle when hunting partridge or ducks. The only time they can carry a high-powered rifle in the woods is when they are armed with a deer hunting license.

The only open season at the present time is on ducks and geese and this season will remain open till November 25th. Partridge season opens next Saturday, October 4th, and lasts till October 14th. Moose and deer season opens on November 3rd to 12th.

The bag limit for partridge is five in any one day and twenty-five for the season. Hunters are warned to carry hunting license and registration cards when they are in the woods and are also urged to use every precaution to avoid serious accidents.

ONE FIRE CALL YESTERDAY

Timmins firemen were called out yesterday afternoon at 2:43 p.m. when a phone call sent them rushing to 1 Carling Avenue, to a house occupied by D. Reynolds. The stove pipes were on fire but by the time the firemen got there the blaze was practically out. There was no damage.

SEVEN MORE RECRUITS LEFT TIMMINS FOR ARMY LAST NIGHT

Anxious to do their bit against Hitler barbarism, these seven men entrained from Timmins last night for different posts in the Canadian Active Army. Two of the men shown went to Toronto where they will be attached to units and the other five men left for Camp Shilo where they will be attached to the Algonquin Regiment. From left to right in the front row are: Mark Hogan, Theodore Lachapelle and Peter Paquette. In the back row, from left to right are Ivan Marchand, George Cava, Hemenegil Robichaud and A. Gagnon. Hogan and Lachapelle went to Toronto while the remainder went to Camp Shilo.

TEA AT SCHUMACHER FOR BOMBED VICTIMS FUND

Schumacher, Sept. 25—(Special to The Advance)—The Girls' Club of Gold Centre is holding an afternoon tea and sale of home baking on Saturday afternoon, Sept. 27th, from 1:30 to 4, proceeds for the Bomb Victims Fund. It will be a good event for a good cause.

Second Man in Week Arrested Here for Purse-Snatching

Police Move Swiftly to Stop This Form of Crime.

The second case of purse-snatching in less than a week stirred the police to strenuous action. Last night they arrested Rene Grise, Balsam street south, and charged him with robbery with violence. He is accused of snatching a purse from the hands of Miss Francoise Gagne, Room 20, Three Star Hotel. Police had another man already locked up charged with snatching a purse from Mrs. L. Helperin Saturday night.

Miss Gagne says that as she was walking along Balsam street south when a man whom she knew by sight approached her, and as he came alongside her, he struck her on the back of the head and grabbed her purse. She followed the man but he escaped by jumping a fence. She then informed the police who trailed the man and found him in a taxi. He had money to correspond with that in the lady's purse, and Miss Gagne identified him as her assailant. In the purse there was a total of \$36.00.

Fourteen men are to be in court Tuesday on charges of infraction of the Liquor Control Act. They were the "found-ins" in connection with the case of Roman Karpinski who was sent down on Tuesday for three months when convicted of selling liquor.

Two men are jointly charged with failing to remain at the scene of an accident when a truck and a car crashed at the corner of Spruce street and Moneta avenue. Each of the two men claimed it was the other that was driving the car, so both are charged.

REPORTS OF CONVENTION AT KIWANIS ON MONDAY

At the Kiwanis luncheon at the Empire hotel on Monday next, Sept. 29th, the important and interesting business will be the hearing of reports of the District convention held this week at Montreal. The three delegates, President W. O. Langdon, Vice-President Fred Burt and Kiwanian F. Woodbury will present the reports.

RE-VISITING SCHUMACHER

Schumacher, Sept. 25—(Special to The Advance)—Mr. James Hawkin, former station agent here for many years prior to moving to Barrie, is visiting his family in Schumacher and during his visit is the guest of his son-in-law and daughter, Mr. and Mrs. Stan Kitchen, First avenue.

Mr. W. D. Watt, now of Toronto, but formerly a popular resident of Timmins for many years, is visiting his daughter, Mrs. Glen Smith, for a few days.

Famous Scottish Footballer Visits Schumacher

Meets Brothers for First Time in Thirteen Years.

Schumacher, Sept. 25—(Special to The Advance)—Danny Dawson, the idol of Scottish football, is visiting his brothers at Schumacher. This famous Celtic footballer is in the British Merchant Navy, and by luck his boat was at a certain Eastern Canadian port where it may be anchored for some time. He secured permission to come North to visit his brothers here, whom he had not met for thirteen years.

What a surprise and what a reunion! James and Peter Dawson are in Schumacher; Charles is in the Army stationed at North Bay and he secured leave, coming here on the Northland this morning.

Danny was in Greenock during the blitz on the Clyde in March of this year and he can tell some thrilling and gruesome tales of that blitz. The way the people took it makes all feel proud of the British people. Danny's hands are all over scars from burns he suffered while helping the firemen during the blitz.

Weather Will Get Colder

Weatherman Says Colder Weather is Coming Any Time Now.

The weather may turn colder at any time now, the Hollinger weatherman, Mr. S. Wheeler, said this morning. Timmins people can get set for a cold spell that may strike at any time. More warm weather will come after the cold spell but first the people will have to suffer a little bit. Further predictions were that it will be stormy in the next few days with probable thundershowers. The prediction for today is that it will be cloudy and moderately warm.

High temperature for the past week was reached on Sunday when the mercury made its big bid and reached the 86 mark. On Monday the mercury had its greatest variation when there was a difference of thirty-six degrees between the high and the low for the day. The high and low marks were both lower than the marks on Sunday. Temperatures for the week were: Thursday, max. 56, min. 46; Friday, max. 63, min. 53; Saturday, max. 78, min. 60; Sunday, max. 86, min. 56; Monday, max. 74, min. 33; Tuesday, max. 60, min. 44; Wednesday, max. 66, min. 56; this morning at eight o'clock, 60 degrees.

Rain that fell during the week amounted to .98 inches and was distributed in the following manner: Friday, .05 inches; Saturday, .01 inches; Monday, .02 inches.

The forecast again is cloudy and moderately warm, turning stormy with probable showers.

War in Russia is Raging Unabated as Both Fight Fiercely Near Leningrad

London Says That One Side or the Other Must Crack Soon if Battle Continues with its Present Ferociousness. Russia Still Holds Leningrad. Some German Reports Contradicted.

Thirteen Men from Timmins Leave for the Army This Week

One Man Leaves for Camp Shilo and One for Provost Corps. Rest Go to Toronto.

Recruiting in Timmins has picked up a little in the past week with thirteen men leaving for different military units in the past seven days. All of the men except two went to Toronto. One of the men went to Camp Shilo where he will be attached to the Algonquins and the other went to Camp Borden to join the Provost Corps.

Last Thursday seven men left with one going to the Algonquins, one to the Provost Corps and the rest to Toronto. George Ralph Bickell went to the Algonquins; Roderick McPhail went to Camp Borden to join the Provost Corps; Aime Bouchard, Paul Bouchard, Wilfred Conroy, Leopold David, and Lawrence Fournier went to Toronto.

On Friday two men left for Toronto. They were: Jean Alphonse Belanger and Steve Zip. On Monday another pair of men left. They were: Alfred Wallwyn and Anthony Walchuck. On Tuesday Roger Robitaille and Mario E. Demarco left for Toronto. Demarco left to attend the Army Trades School at Toronto.

Recruiting authorities at the Armouries said that medical boards are still held at the Armouries every Monday, Wednesday and Thursday mornings at nine o'clock. Any recruit wishing to join the army is asked to be at the Armouries at that time. There are still many openings in all branches of the army and recruits in every department are urgently needed.

Contradicting earlier reports that the Germans had practically taken over Leningrad, a report from Moscow this morning says that heavy fighting continues along the approaches to Leningrad and adds that the Russians are not only holding stoutly but are still counter attacking and inflicting heavy losses on the German armed forces. This report is given more weight with the report that comes from Berlin. The Berlin report says that German forces relentlessly drive their way toward Leningrad in a battle that rages without pause. They also admit that the Russians are launching heavy counter attacks. The German advance toward Kiev is apparently continuing in spite of vigorous Russian counter attacks.

From London it is reported that before very long either the Russians or the Germans must crack in the battle that is raging around Leningrad. The battle is one of such ferocity that a deadlock cannot last long and if the fighting continues on its present scale one side or the other must crack. The German and Russian chances are about equal but any edge lies with the Germans. For Russia, the loss of Leningrad would be a serious blow but only one more reverse in a war that the Russians expect to fight on a long range strategic plan. For the Germans, failure to take Leningrad would be an admission of defeat such as the German army cannot afford. There is also a German nervousness over the situation on the central front where the initiative has belonged to the Russians for more than a month.

The German propaganda department is preparing the people for bad news again. This time they are advising the relatives of men at the front not to be anxious if mail from the troops is overdue. They claim that the roads are bad and bridges have been destroyed as a result there has been little mail from the front and there will probably be less in the future.

Fire Chief Presents Good Report on Convention of Dominion Fire Chiefs

Interesting Movies of London Firefighters Under Blitz Conditions. Interesting Lecture on Air Raid Precautions by Mr. Johnson, Former A.R.P. Control Officer.

Fire Chief A. Borland submitted a report to the Timmins council at their weekly meeting yesterday afternoon on the annual convention of the Dominion Fire Chiefs that was held in Peterborough on August 26th, 27th, 28th and 29th. It was the thirty-third annual convention of the association and proved to be very successful. Several important lectures were given and the Fire Chiefs were shown movies of actual firefighting in London during the blitz. The following is the report as it was presented to the Timmins Council:

Dear Sirs:—Convention opened at 10.00 a.m. Tuesday, August 26th, with the usual addresses of welcome by the Mayor and the local M.P. and M.P.P. and was responded to by Chief Cassel of Hamilton after which there were reading of obituaries and memorial addresses. Then the several committees were formed after which meeting was adjourned for lunch.

After opening of the afternoon session at 1.45 p.m. District Officer Daniel Ivall of the London Fire Brigade gave a very interesting lecture on the way fires are handled during an air blitz. This lecture was illustrated by moving pictures and maps and was very interesting and instructive. At this session there were very interesting lectures by Battalion Chief Deasey of New York Fire Department and Chief O'Kelly of Ottawa on apartment house fires. This was followed by report of Secretary Treasurer and financial statement and then official photograph was taken. In the evening a banquet was held in the Legion hall after which a street dance was held.

Wednesday, August 27th—Session opened at 9.30 a.m. after which Mr. Johnson, a former A.R.P. Control Officer (who I heard in May in Toronto) gave a lecture on Air Raid Precautions and I might say this lecture was just as interesting as it was in May. There were also lectures on gas masks and

air masks by W. Thompson and C. Fuller of Safety Supply Co. and Fire and Fire Hazards in Air Conditioned Buildings by Chief Spalding of Preston and Chief Woods of York Township. There was considerable discussion on these papers.

At the afternoon session an address was given by Dr. Glidden, Chief A.R.P. Officer for Canada which was very interesting. This was followed by address and films on Fire Department equipment by W. J. Scott, Ontario Fire Marshal and C. W. Caskey, Chief Inspector from Ontario Fire Marshal's Office, after which we were treated to a demonstration of Foamite and Fog Nozzles putting out oil and gasoline fires. In the evening we were treated to a moving picture of the air raids over London, this is the first time these pictures have been shown in Canada. These pictures were shown to the public the following night (Thursday).

Thursday, August 28th—This session was opened by an address by W. L. Clairmont, Dominion Fire Commissioner, on Fire Prevention, this also was very instructive. This was followed by the report of several committees and then an address on Chimney Construction by a representative of the National Sewer Pipe Co. There was quite a discussion on this address. Then we were treated to a film on Fires in Industry by Mr. Scott of the Fire Marshal's Office. In the afternoon we were given a trip to South Beach.

Friday, August 29th—This session was taken up by reports of committees, general business, round table discussion, election of officers and unfinished business and selection of next place of meeting which was Kitchener, after which convention closed with the National Anthem. I might say that this convention was one of the most interesting one ever held.

Respectfully submitted,
Alex Borland,
Chief, Fire Department.

Kiwanis Club and Guests Impressed With Size of Operations at Hollinger

Ore Dome Has Capacity for 10,000 to 11,000 tons. Forty Tons of Cast Iron Balls in Each Ball Mill. Various Devices in Use to Avoid Accidents.

Immediately after the luncheon of the Timmins Kiwanis Club at the Empire hotel on Monday, the members of the club and guests took advantage of an invitation recently given and paid a visit to the Hollinger Mine mill and surface plant. Mr. F. W. Simpson, of the Hollinger staff, was in charge of the party and saw that all were able to see and understand the complex proceedings that are necessary before the gold bullion is ready. The group of Kiwanis and their guests were divided into groups of six and a member of the Hollinger staff accompanied each group through the buildings explaining the various processes. All were agreed that the event was one of the most interesting and informative they had ever enjoyed. They started in the hoist room and then went to the shaft house. Ore skips, they learned, bring up six tons of ore, pieces of steel coming up from underground with the ore are picked up by large magnets. Ore goes from mine to crusher house, then to ore bin, then to grinding or ball mill. The ore, the party found, is ground as fine as talcum powder. The capacity of the big ore dome is between ten and twelve thousand tons. The ore dome is 90 feet deep and 90 feet across. There are forty tons of cast iron balls in each ball mill. From the ball mill the ore goes into the filter plant where it goes through ten cyanide solutions which separate the gold from the ore. The gold-bearing solution goes into the refinery and the tailings (the waste rock solution) are carried to the dump.

One of the things that caught the attention of many in the party was a long rope that is easily reached in any part of the mill. This rope is so situated that it can be pulled at a second's notice. Pulling this rope instantly stops all machinery in the mill. This is but one of many devices designed to avoid various types of accidents. Members of the party asked for their impressions from the tour of the plant commented on the evident desire of

the mine and men alike to take all possible precautions to avoid accidents. Chatting with employees on the tour, members of the party came to the conclusion that the employees were happy in their work and satisfied with their positions and the way they were treated. Efficiency in management was another thing that was very evident.

An interesting point about the trip was the fact that members of the party went to the mine in each others' car, in a desire to save gasoline. Only a few cars were necessary, so well was the matter planned and organized.

At the meeting of the Kiwanis on Monday, Kiwanian Frank McDowell was acting chairman in the absence of President W. O. Langdon, who is in Montreal attending the Kiwanis district convention.

The war savings certificate draw for the week was won by Kiwanian P. Kinkel.

The visitors for the day were:—Kiwanian P. J. O'Brien from the Pembroke Club; Kiwanian Bert Hulse from the Toronto Club; Kiwanian Cecil Bond from the New Liskeard Club; Mr. W. J. Gagne from North Bay; Mr. J. R. Gifford from Toronto; Mr. F. W. Simpson, of the Hollinger Mine; Mr. Gordon Lee, of Toronto.

Kiwanian P. Kinkel presented the newest member, W. Doran, with his Kiwanis button. The official card to this new member was made by Kiwanian Rev. W. M. Mustard.

Various business matters were taken up. An appeal was made to the members to do all that they could to obtain the services of two young ladies to assist Miss J. C. Herbert as assistant Cubmaster for the Kiwanis Club Pack.

An appeal was also made to obtain an assistant Scoutmaster to assist Scoutmaster Nick Basiano of the Kiwanis Boy Scouts Troop.

The members of the Club were invited to a Halloween Party and Parents' Night to be held by the Kiwanis Boy Scouts and Cubs on Friday, Oct. 31st.

Serious Charge Against Timmins Man is Remanded

Man Charged with Carnal Knowledge Anxious to Marry the Girl.

Ephraim Belair, of Riverside Drive, across the Mattagami River bridge was given a week's remand in a special Wednesday morning court, on a charge of having carnal knowledge of a girl under sixteen years of age, when his lawyer, J. A. Cousineau, suggested to the magistrate that the couple intended to get married. He asked that the case be remanded for a week and that he be set so that the man could be released from jail. Bail was set by the magistrate at \$1,000 cash or \$2,000 property.

In remanding the charge the magistrate said that he wasn't particularly keen about marrying off a young girl like that. The defence counsel said that the girl was all alone in Timmins, as her mother was dead and her father had left her here. She had two sisters but the defence counsel suggested that they were not able to look after the girl.

He also suggested that the accused's mother was a respected woman and that after the marriage they intended to live with her mother. The magistrate said that he would remand the case for a week but that he wasn't going to be a party to any marriage. "These shot-gun marriages are never very successful," he said. He then remanded the case adding that he was definitely not in favour of any marriage. It would not have his blessing as a magistrate.

Timmins Air Cadets No. 10

To be Known Officially as Boys "K" Club Squadron.

Word from Ottawa says that thirteen Air Cadet units have been granted names and numbers. Although Timmins was among the first six to establish Air Cadet, it is officially numbered as 10. Its official number and name, etc., is given as follows:—

No. 10, Boys "K" Club Squadron, Timmins; P. T. Moleley, Commanding Officer.
