O Canada

There is a general belief that only a comparatively small number of people know the words of the patriotic song, 'O Canada'...

O Canada! Our Home and Native Land! True patriot love in all thy songs command.

With glowing hearts we see thee rise, The true North, strong and free, And stand on guard, O Canada, We stand on guard for thee.

O Canada! where pines and maples grow, Great prairies spread and lordly rivers flow, How dear to us thy broad domain, From east to western sea, Thou land of hope for all who toil!

O Canada, glorious and free! We stand on guard, we stand on guard for thee!

O Canada! beneath thy shining skies, May stalwart sons and gentle maidens rise, To keep thee steadfast through the year, From east and western sea.

Our own beloved native land! Our true North, strong and free! O Canada, glorious and free!

We stand on guard, we stand on guard for thee!

O Canada, we stand on guard for thee!

IN BEDROOM FURNISHINGS, HOARD LIGHT, AIR AND SPACE. Don't Fill Your Bedrooms Too Full—Don't Be Dinky or Trinkety—Don't Forget to Put First Things First and Concentrate on a Good Bed, Good Chairs, and Good Light

PLEASANT HOMES

The sleeping customs of different countries are pretty accurate gauges of the climate, prosperity, temperament and taste of the people.

Next in rank for bedroom importance is a capacious chest of drawers with lots of storage space — a highboy for instance or one of those new 'clothes files' really made to fit modern clothes.

Though our present day bedrooms seem logical and obvious to us, we were a long time working them to their current type.

The problem in furnishing a bedroom today is a matter of hoarding light, air and space, so every piece of furniture has to count and there's no room to tuck away mistakes.

Small tables are often forgotten in making plans for bedrooms. The best idea in a bedside table is a new one with a tray tucked under its top.

As for the style of furniture to select that's your own very personal affair. A bedroom can be very peculiarly individual and has no obligations to the rest of the family.

enamel and lacquers are all very much "in". Glass and lucite furniture has a very new look, and plastic veneers give certain pieces the effect of being covered with a fabric.
