

WORK OF CANADIAN PROVOST CORPS

Top Picture—Members of the Canadian Provost Corps on duty at a Montreal station. Here are Lance Corporals Germain Laurin (Left) and D. Brown (centre) examining the leave-passes of a group of soldiers going through to the trains. Members of the Corps not only supervise the entrainment and detrainment of the soldiers on leave, but also travel on the coaches themselves. More than half a million miles were covered by C. P. C. men last December in trains across the Dominion.

Bottom Picture—Photographed in front of their information bureau at a Montreal station are Lance Corporals D. Brown (left) and E. Soulières. Inside the bureau is seen Lance Corporal C. L. Greenberg. All three are from Montreal. By helping soldiers on leave and providing real assistance wherever possible, the Corps has succeeded in reducing offences among Canadian Army soldiers to a minimum.—Can. REAL THING

"Bring me some cold porridge," said the soldier to the waitress. "Burn some toast to a cinder," he added. "Fry two bad eggs and serve them on a dirty plate. Make the coffee so that it tastes like mud, and bring it in a cracked

cup so that it drips down my chin when I drink it. When you've done all that, sit down and nag me. I'm homesick."—Geraldton Times.
Toronto Telegram—We don't see why a scenario writer can't be replaced. All a new one would have to do is to re-learn the same old plot.

Plans for a salvage campaign to retrieve tens of thousands of tons of scrap metal from Canadian farms are presented to Hon. J. T. Thorson, Minister of National War Services, by H. C. Ray, representative of the International Harvester Company of Canada, Limited. The company will use its 3,000 dealers across Canada to help get the scrap into the war effort. A. W. Wright and W. O. Maxwell, company officials, look on.

"Confidentially—How do you keep 'em so clean, Sir?"

NEW RIFLE FOR RESERVE ARMY AT WINNIPEG

JAPS IN NEW HOMES

In the heart of the Canadian Rockies, far-removed from vital defence zones of the Pacific Coast, British Columbia Japanese have been grouped into large "enemy alien" camps. Under surveillance they perform road-building work on the proposed Edmonton to Vancouver highway. They live in camps set up by themselves; a group of Japs is here shown in front of a mess tent in one of the camps. Judging by the expressions on their faces they've suffered few hardships.

OH, LADY!

Speaking before the Chicago Bar Association recently, the first secretary to the British Embassy in Washington told a swell story about a certain Japanese houseman in the U.S. It concerned a woman who came in from the garden with a troubled look on her face. "John," she said, "do you think it's all right for Togo to be trimming the hedge with a machine gun?"—North Bay Nugget.
