

Hundreds Attend Grand Intercollegiate Dance

Riverside Pavilion is Setting for Outstandingly Successful Annual Event. Colours of Various Universities Worn by Dancers as They Pay Tribute to Their "Alma Mater"

The Sixth Annual Inter-Collegiate dance held at the Riverside Pavilion on Friday evening was one of the most successful events of the year over two hundred couples taking advantage of the opportunity to spend a perfect evening. As each couple entered, a member of the committee in charge presented them with their colours...

Patrons for the event were Mr. and Mrs. John Knox, Mr. and Mrs. H. G. Skavlem, Mr. and Mrs. R. E. Dye, Mr. and Mrs. E. Keeley, and Mr. and Mrs. W. O. Lafontaine. Members of the committee included: Don Barron, Vic Bechaz, Buzz Crosby, Jim Dickie, Roy Holmes, Pete McCrodon, Pack O'Shaughnessy, Galt Smith, and Harold Tiffin.

Paul Jones, moonlight waltz, and polkas were only a few of the special dances played by Henry Keineck and his orchestra, with the college medley as the favourite. A delicious lunch and a punch were served during intermission, and congratulatory selections were played for those celebrating birthdays or engagements.

Proceeds will be donated to the Kinsmen Milk for Britain Fund and the Red Shield of the Salvation Army.

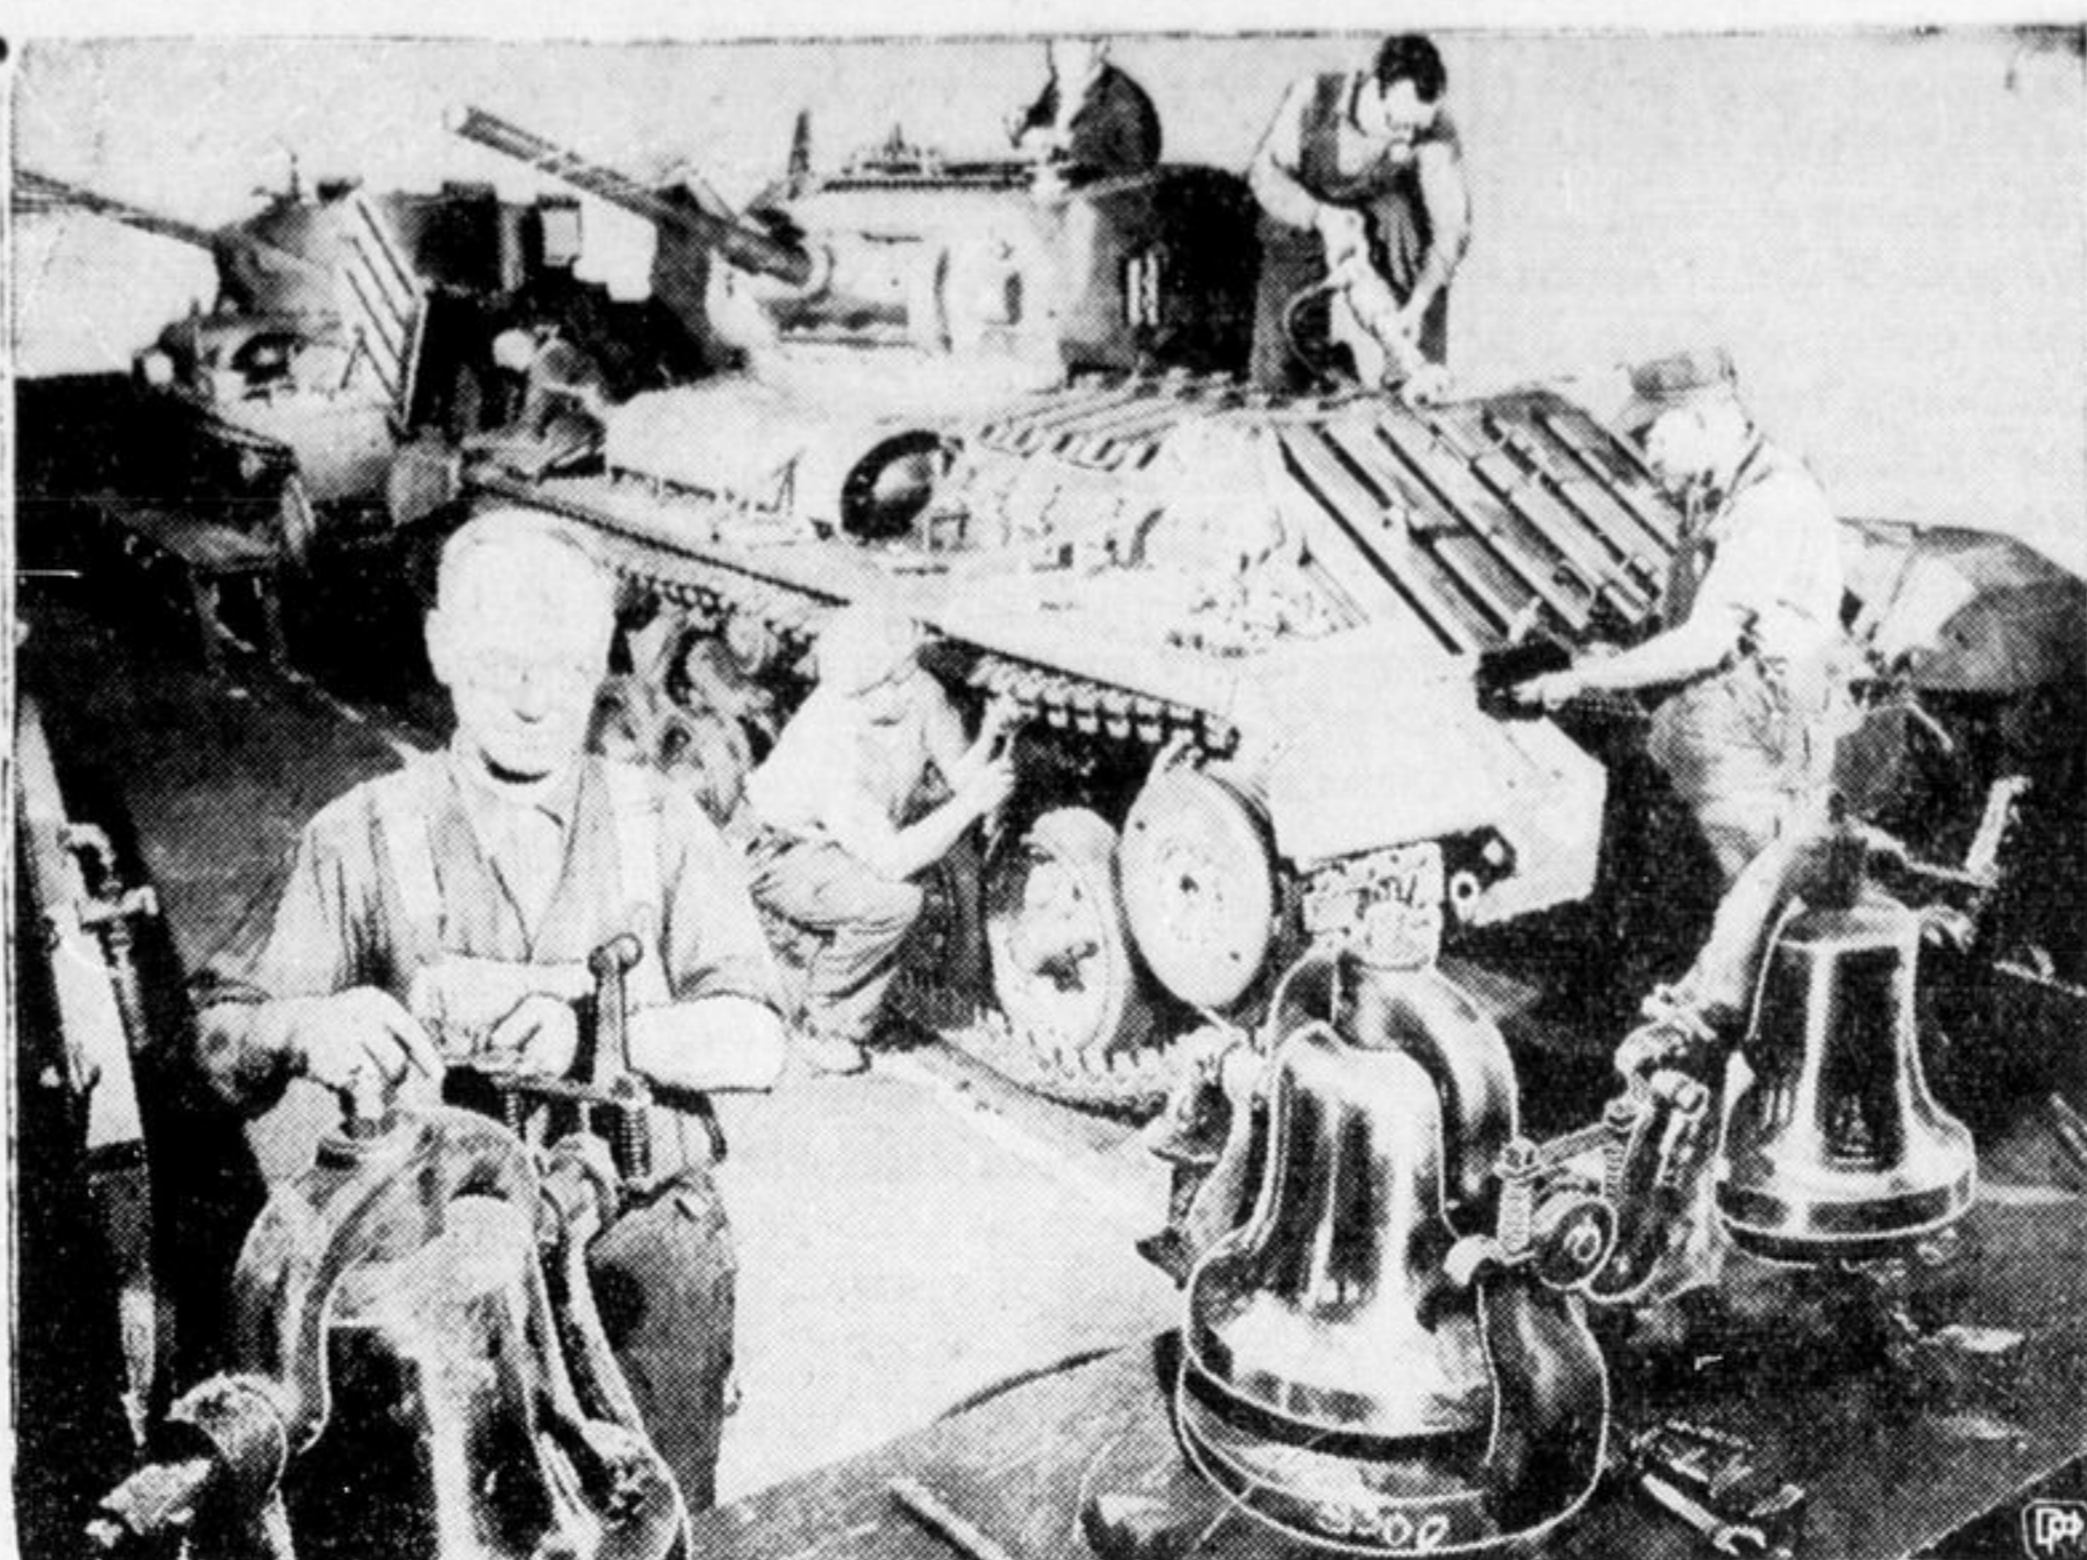

Among those present were:—Mr. and Mrs. Harvey Marshall, Mr. and Mrs. Harold Quinn, Mr. and Mrs. Les Redford, Dr. and Mrs. J. R. AN 18-TON FIGHTING MACHINE FOR UNITED NATIONS

No, Junior, these big bells are not being used on tanks. The bells are being assembled for passenger locomotives in the same factory where Canada's Valentine tanks are produced in mass quantities. The Valentine, an infantry tank, is now in service on the Russian front where Soviet military experts have described the Canadian tank as highly efficient. It is an 18-ton machine, powered with diesel motor. A giant mechanical ferret, it is capable of burrowing its way through a brick building and travelling at 20 miles per hour over difficult terrain. The body is armour-plated, riveted and welded, and the rotary turret may be operated either by hand or electrical controls.

Week of Entertainment at Timmins Arena, Monday to Saturday, Sept. 7 to 12

Event to Raise Funds for Patriotic Organizations, Including Timmins I. O. D. E., V.O.N., Navy League, Bomb-Victims' Fund, Firefighters and La Federation des Femmes Canadiennes-Francaises.

The week of Monday, Sept. 7th, to Saturday, Sept. 12th, is to be a genuine week of entertainment for Timmins. The series of events will be held at the Timmins Arena, with a pleasing programme every evening. Bingo and other games will be featured, as well as a number of special programmes and novelties.

Wednesday Sept. 9th, will be featured by a mammoth dance. Thursday, Sept. 10th, will be a special tag day — the only tag day to be operated by any of the six organizations concerned in the week of entertainment.

The week of entertainment is also to be featured by the drawing for two bicycles — a lady's bicycle and a man's bicycle. Tickets are now on sale for these valuable prizes. The bicycles will be on display at the Timmins fire hall before the event. The drawing for the two bicycles will take place at the Timmins Arena on Saturday, Sept. 12th — the final night of the week of entertainment.

The week of entertainment is being held under the auspices of the Timmins Welfare Federation and the proceeds of the week's activities will go to the six organizations comprising the Timmins Welfare Association. To avoid the multiplicity of tag days and the duplication of appeals to the public the six organizations concerned have combined their efforts to present this week of entertainment and thus to raise the needed funds to carry on the work of the six organizations. These organizations are all particularly worthy of support and are doing unusually effective work in Timmins and district. The organizations concerned are:—

- Timmins Golden Chapter Imperial Order Daughters of the Empire. La Federation des Femmes Canadiennes — Francaises (Federation of French Canadian Ladies). Timmins Branch of the Victorian Order Nurses. Timmins Branch of the Navy League. Timmins Bomb Victims' Fund. Timmins Fire Fighters.

Inspiring Address on Canada's War Effort at Kiwanis Club Meeting

Speaker for Day was Former Member of Club, Who is at Present a Valuable Member of the Munitions Production Department. Volunteered His Services at Early Stage of War.

The guest speaker at the regular weekly luncheon of the Timmins Kiwanis Club, held at the Empire hotel on Monday of this week, was Mr. Harry W. Darling. He gave a very interesting address on features of Canada's war effort and in very effective way answered a number of questions that were asked by members of the club in reference to the war effort of the Dominion. The speaker for the day was introduced by Kiwanian Vincent Woodbury a friend of long standing, both Messrs. Darling and Woodbury being among the pioneer residents of Timmins and the Porcupine.

In extending a hearty vote of thanks to the speaker for his information and inspiring address, Lieut.-Governor W. O. Langdon mentioned the fact that at the beginning of the war Mr. Darling felt that he would like to play his part in Canada's battle for world freedom and safety, and had at that time offered his services to the Government of Canada in any capacity in which he could be of the best service. Mr. Darling, Kiwanian Langdon added, is now a valuable member of the staff of the Munitions Production Department.

Visitors of the club luncheon on Monday were:— Harry Darling, of Ottawa, a former member of Timmins Kiwanis Club, and the speaker for the day; Vincent Woodbury, of the Kiwanis Clubs of San Antonio, Texas, and of Timmins; and Mr. H. Pomerance, of Hamilton.

Provincial Probe of North Bay Police Ended

Inspector W. H. Loughheed, of the C. I. D. of the Ontario Provincial Police, has completed his investigation of the efficiency of the North Bay city police department. He has made his report to the Attorney-General, but the latter has not yet forwarded a report of the enquiry to the North Bay city council.

North Bay city council asked the Attorney-General to investigate the case of the North Bay police officer who was informed of the presence in the city of an escaped German prisoner, the said officer failing to take the prompt and effective action that the matter required. North Bay police commission accepted the police officer's story that he had taken no action at the time because the call in the matter was anonymous. This was strenuously denied by the young lady who gave the information. The attitude of the police commission was particularly resented by the people of North Bay, and this led the council to ask the Attorney-General for an investigation. It is understood that this investigation was widened to include a general enquiry into the efficiency of the North Bay police. The report from the Attorney-General will be eagerly awaited by the citizens of North Bay, and by even a much wider section.

Over Two Hundred Applications Made to Recruiting Unit Here

R. C. A. F. Unit Left Timmins on Tuesday. Large Number of Applications Made to Women's Division as Well as by the Men of the District. Flight Lieutenant Cullen in Charge.

"Our stay here has been a most pleasant one" said Flight Lieutenant C. R. Cullen, officer in charge of the R.C.A.F. recruiting unit which completed its visit to Timmins on Tuesday. Flight Lieutenant Cullen said that Timmins had offered a high standard of men, and that the people of the town must be "air-minded", to send along so large a number of men to the recruiting unit.

Every co-operation had been offered by the civic officials and the people of the town, to the men of the unit. Unfortunately said Flight Lieutenant Cullen, a certain percentage must fail to qualify due to the high standards required by the R.C.A.F. and established in the light of experience. It is realized that it is a great disappointment to these men who fail, but the fact that they have offered their services will be recorded with appreciation.

Over two hundred applications were made to the recruiting unit during its ten days in town. Approximately one hundred and ten of these applicants were examined, and one hundred and fifty-five were classified. Eighteen men were enlisted for air crew duties, and a number will be called to North Bay at a later date. If vacancies occur, there are a number of ground crew men who will be called to North Bay for enlistment.

Twenty-four applications were completed in the Women's Division of the R.C.A.F. in charge of which were Corporal Wright and Assistant Flight Officer Fullerton. These applicants receive their medical examinations in Timmins while the recruiting unit is in town, but are enlisted in North Bay. Others who wish to apply for the Women's Division, may write to the North Bay recruiting depot, sending documents and filling in the application forms. Qualifications for the Women's Division include that the applicant must be at least eighteen years old, but not have attained her forty-first birthday; that she must have a medical category A4B or higher (equivalent to Army Standard A); she must be five feet or over in height and conform to the required weight standard; have a minimum education standard of "High School Entrance" except where special qualifications are required as laid down for specific trades; be able to pass the appropriate trade test; be of good character with no record of conviction for an indictable offence.

The applicant must be able to produce documents of date of birth; proof of education and national registration certificate. Applicants will not be considered for enlistment if they hold permanent civil service appointment or if they are married women who have sons under sixteen years and daughters under eighteen years. Several other qualifications are listed in a booklet issued by the R. C. A. F. on information relative to the Women's Division.

Will Broadcast Forestry Feature on Monday, Aug. 3rd

Radio to be Used to Urge Special Thought to Forest Fire Prevention.

On Monday of this week the Canadian Broadcasting Corporation presented a forestry feature over the national network, entitled "Fire on the Home Front." The broadcast was in the form of a dramatized story of a forest fire started through the carelessness of campers on a picnic who neglected to completely extinguish their camp fire. The fire gets out of control and sweeps the full length of a timbered valley in which are scattered settlers' clearings and logging operations. The consequent loss in money and effort and human life shows how greatly carelessness is needed to conserve the forests of this country.

On Monday, Aug. 3rd, there is to be another of these forestry feature broadcasts over the national network, from 10.15 to 10.45 p.m. It will take the form of an interview with a forest ranger, in which he will relate some of his experiences in fighting fires and makes plain the need for all to do everything possible to avoid the danger of forest fires. At the present time forest conservation is of even greater importance than in peacetime. Any sort of waste of resources or wealth or human life is particularly to be avoided in trying times like these. It is a patriotic duty for all to do all they can to avoid any needless waste at this time. The loss of wealth and of human life through forest fires is an unnecessary waste. It can be avoided if everybody earnestly works to that end. It is to be hoped that all in any way concerned will listen to the broadcast on Monday evening from 10.15 to 10.45, so that as far as possible all loss of wealth and of human life may be avoided in the matter of forest fires.

Man Found Almost Buried in Coal in Engine Tender

A transient who was almost buried in coal and drawn into the "worm" of a Temiskaming and Northern Ontario Railway stoker today owes his life to the alertness of Fireman A. E. Croghan, of North Bay. The man, whose name was not disclosed by railway authorities was discovered just in time.

The near-accident occurred Saturday night when T. and N. O. train No. 46 stopped at Temagami. When Fireman Croghan climbed up to the tender to dig coal, he discovered the transient almost completely buried in coal. If it had not been for the alertness of the fireman, the man would have been fully buried when coal was taken on and might have been drawn into the worm of the stoker.

The transient was removed from the tender and was then given first aid. He was slightly injured and suffered no serious after effects.

Globe and Mail:—United Nations are speculating as to Hitler's next move. Victory will be in sight when it is Hitler who does the speculation as to the next move of the United Nations.

Remember the date, Civic holiday, Monday, Aug. 3rd, and the place — the McIntyre Park, at Schumacher. The McIntyre Park is one of the most beautiful places in the North Land. It alone is worth the price of admission, just to wander around in the park and enjoy the scenery and the well-kept grounds, to say nothing of the flowers that may be seen in the Park in abundance. There are special facilities at the Park for picnics and anyone who fails to enjoy the ninth annual McIntyre Field Day will be difficult, indeed, to please.

Orillia News-Letter:—The Duce will be remembered as the man who made the trains run on schedule, and Hitler as the man who made the Duce run on schedule, says the Northern News. For our part, we would forget all about them in favour of the man who will side-track the both of them.
