Dog By-law to be Strictly Enforced Says Tisdale Council

W. P. & T. B. Grants Permit to Township Council for Wood Business.

South Porcupine, June 9th. Special to The Advance.

Discussion of the Dog By-law at the Monday session of Tisdale Council resulted in the decision to appoint a "dog-catcher"; and warning issued to all dog-owners to keep their dogs under control or submit to their being impounded.

Permit was granted by the W. P. and T. B. for the council to engage in the wholesale and retail wood fuel business. The measles epidemic was commented on and it is desired that all cases be reported to the M.O.H. immediately (Dr. W. McLaren).

A letter was read from the T. & N. O. Railway Board concerning the request for a "wig-wag" at the Dome Railway crossing.

The letter stated in effect that: The Crossing is not an obscure one; a good view of the tracks and approaching to the crossing can be had by users of the highway. There appears to have been no accident at this crossing and it is not considered in the category of a crossing that should be provided with automatic signals. Cost of such is \$1,800 and this would be divided between the Township, the Railway and the Dept. of Highways. Moreover, it is doubtful if materials for this type of installation could be secured under present condition.

Amphibious Attacks Promised Soon by Premier Churchill

Allies Determined to Blast Axis to Destruction.

In the House of Commons at London, England, on Tuesday Premier Churchill declared that "amphibious attacks of peculiar hazard and complexity" are to be launched soon against the Axis. Amid wild cheers he said that the Allied Nations are determined to bomb and blast the enemy to destruction, and that all are agreed that there will be no let-up and no leniency shown. He made it plain that those who chose the opening of the war would have no say in calling the peace, except in the words of unconditional surrender. Reference was made to operations "now impending" in the European theatre of war as being co-ordinated with those from North Africa. This was taken to mean that the probability is that the Axis will face attacks in Europe from the North and west as well as from the south. The air war, the Prime Minister commented, will grow in weight and severity. Complete agreement has been reached by the United States and Britain on the "forward steps" to be taken. May was the best month in the Battle of the Atlantic since the U. S. entered the war, with U-boat destruction exceeding construction, and Allied losses dropping to less than one for every three tons built. June has been so far a record month in the destruction of U-boats. He warned against too high hopes being built on any sudden collapse of Germany. Figures quoted by Prime Minister Churchill were of special interest. In Tunisia the Axis lost 248,000 troops captured and 50,000 killed, with more than half of them Germans. U. S. troops alone captured 37,000 prisoners, 33,000 of them being Germans. The British 8th Army suffered 11,500 casualties, while the 1st Army suffered 23,500. Stalingrad and Tunisia were the two greatest disasters ever suffered by German military might, Premier Churchill said. He suggested that the "greatest battles" were now impending on the Russian front where the Germans have massed 190 Nazi and 28 satellite divisions. He praised the British, United States and other armies, including the Canadian forces. He emphasized the fact that "brighter and solid prospects lie before us." His statement:—"It is evident that amphibious operations of a peculiar perplexity and hazard on a large scale are approaching," has generally been interpreted as suggesting attacks by air, sea and by land on more than one front. "Taking some of the weight off Russia and giving more speed and effective aid to China," he said, "are never absent from our thoughts and aims."

Nominated W. J. Grummett Candidate C.C.F., S. Cochrane
(Continued From Page One)
ception by the delegates but said that he would not let his name stand at such a late hour.
Mr. Grummett was nominated by J. D. Burton, of Iroquois Falls.
Mr. Parker was nominated by Mr. Tom McNeill, of Timmins.
Mr. Bromley was nominated by Reeve V. H. Evans, of Iroquois Falls.
Reeve Evans had been nominated as a candidate some weeks ago but had withdrawn on account of personal reasons.
After credentials had been examined and passed and scrutineers appointed voting was held on the three names formally before the convention—Messrs. Grummett, Parker and Bromley.
Voting at this C.C.F. convention was not conducted as customary in other political party conventions here. Nominations on Saturday needed only one name, a seconder not being necessary. The details of the three votes taken were not made public. Three ballots were taken before the final announcement was made. On the first ballot Mr. Grummett was in the lead and Messrs. Parker and Bromley were tied. A second ballot was taken with the leading man's name dropped off this ballot. On this ballot Mr. Bromley led. Then a ballot was taken with Mr. Parker dropped off, the voting being on Messrs. Grummett and Bromley. On this third ballot Mr. Grummett was declared the winner.
Mr. Grummett spoke briefly expressed his thanks for the confidence shown in him by the delegates and promising to do his best to justify that faith. He pointed out that the nomination was only the beginning of the battle. He recalled the fact that in the past election the C.C.F. candidate had secured all but two or three votes in some polls. This showed how necessary it was to carry on educational work for the C.C.F., and if this work was carried on through the whole riding, there was every reason to expect a victory for the C.C.F. He felt that the old line parties had been in too long and it was time for a change.
Messrs. Bromley and Parker congratulated Mr. Grummett on his selection as the candidate and promised him full support in the election.
After Mr. Grummett's election as the candidate for the riding, Mr. Felix Gratton, of Iroquois Falls, spoke briefly in both English and French. He pointed out that it was the duty and privilege of every member of the C.C.F. in the riding to work for the election of the candidate chosen.
An outstanding feature of the convention was an address by T. E. Wright, C.C.F. member for Melfort, Saskatchewan, in the Federal House. Mr. Wright referred effectively to the growth of the C.C.F. across the Dominion. People who had been disappointed in the old line parties were pinning their faith in the C.C.F., he

Ten Convicted at Tuesday's Court for Dogs at Large

Police Making Effort to Help Protection of Gardens.

The police are making earnest effort to help protect Victory Gardens in town. There have been numerous complaints recently about dogs and cats injuring these gardens. The police can do nothing about stray cats, but they showed on Tuesday that they can help in the protection of the gardens from wandering dogs. They had ten cases against citizens for dogs running at large, in each case a fine of \$1.00 and costs was imposed, with the likelihood that the fine will be increased for a second offence. In addition there was another dog-at-large case withdrawn, while several other similar charges were laid over until next week to allow personal service on the dog owners charged, these owners having failed to respond to a notice by mail. The costs of the personal service of the summons will, of course, be added to the costs in each case.

suggested. He referred to results in his own riding in the West as evidence of what could be accomplished by persistent and loyal work. In that riding a Liberal majority of 1,900 in one election had been turned to a C.C.F. majority of 3,500 in the next.

Another special feature of the convention was a solo by Jos. Jago, with W. H. Wilson at the piano.

Among the visitors to town for the convention was M. J. Bonnah, of Cochrane.

First Woman Parachutist

Winnipeg, Man., June 9.—Women have invaded another he-man field the Canadian Army, no less than the paratroopers.

The first of her sex to be attached to the Canadian Parachute Training School at Camp Shilo, is Private Marjorie Perry, of St. Boniface, Man.

Private Perry, a member of the Canadian Women's Army Corps, will not be schooled as a soldier jumper but as a "rigger" who will be charged with the care and maintenance of 'chutes.

It isn't as exciting a job as that of leaping from planes, but none the less important and interesting. Major R. F. Routh, acting officer commanding the school, pointed out there is a definite field for women in parachute work because they can relieve manpower for other duties by packing and otherwise maintaining the silken bags.

It will take about two weeks to train a competent girl to pack look after them.

'Chutes, and a month to repair and One of the most meticulous phases of a paratrooper's course is how to pack his 'chute properly, how to dry it and how to keep it in repair. He will still have to learn all that, but much of the time-consuming routine of maintenance may in future be handled by the C.W.A.C's.
