Legion Continues to Serve the Best Interests of Canada
Brief on Reconstruction and Re-establishment Another Evidence.

Ever since the organization of the Canadian Legion of British Empire Service League, The Advance has been an earnest supporter of this association. This support has been earnestly and enthusiastically given, not only because the organization comprises men who served their country so fully and so well in the last war and in this war, but also because the Legion has been of so great service in the days between the two wars. Indeed, it is not too much to say that the peacetime service has equalled in its value the great effort in the time of war. Had the sound advice of the Legion been heeded in the past Canada would have been better equipped to the meet calls of the war now raging, and in addition there would have been less irksome problems to face in the days of peace had the country taken full advantage of the experience and the knowledge of the men of the Legion who devoted so much thought and study to the puzzles of the peacetime days.
