## Proposed Medical Plan Endorsed by 98 p.c. of McIntyre Mine Employees

Plan Adopted is Same as Successful at Hollinger Mine for Past Six Years. Over 800 Vote in Favour of Plan, Only 47 Against. Plan Will Go Into Operation on Sept. 1st. Other Mines Also Dealing With Question.

Some days ago employees of the McIntyre Porcupine Mines, Limited, Schumacher, Ont., voted on the question of adopting a medical plan for the employees and their families, the vote being 808 for the plan and 47 against, with 8 spoiled ballots, his meant a majority of 98 per cent. for the plan, which will accordingly go into operation on Sept. 1st this year.

The vote followed a letter sent to every employee of the mine, explaining the plan in fullest detail. The letter presented a complete outline of the whole plan—what was covered, and what was not—the costs of the service and all other features. The following extracts from the letter give a complete picture of the plan:

### Many Plans Studied

"About eight months ago a representative committee of employees asked the company if it would be willing to cooperate with the committee in providing more or less complete medical service for the employees and their families.

"The company replied that it would be pleased to co-operate with the committee and doctors of the Porcupine District in every way possible in working out any new medical service plan that the employees might wish to adopt.

"The committee studied the best known Canadian and American medical plan as well as comparative data in condensed form on many other plans.

### Hollinger Plan Adopted

"After much study and many meetings on the part of the committee they unanimously accepted the Hollinger Employees' Medical Services Association Plan as the one most suitable for McIntyre employees. This choice was a natural one, as all employees have been hearing about, or have some knowledge of this plan, which has now been in successful operation for the past six years.

"This letter is to advise each employee of the proposed plan. Opportunities to discuss the scheme will be given at a general meeting after which a ballot will be taken and if 75% of the employees are in favour, the plan will go into operation on September 1st, 1943.

### To Form Association

An association will be formed to be known as the McIntyre Employees' Medical Services Association, which will be operated by a Board of Directors, consisting of an equal number of employee members and doctor members who voluntarily join the association. Any employee of the McIntyre Mine can become a member of the association by signing a card that he is willing to have certain monies deducted from his or her wages each month. This will provide a fund to pay all doctors' bills, nursing, x-ray, hospital accounts, etc., for any illness that the employee or his family may have.

### Services to be Provided

"The services to be provided are as follows:

"1. Free choice of doctor from those doctors who voluntarily join the association and who are resident in the Porcupine Camp on September 1st, 1943, or those doctors who have enlisted in His Majesty's Forces who were resident in the Camp and who may be discharged from service.

"2. All necessary medical services in the home, office or hospital will be provided.

"3. All necessary surgery will be carried out under the direction of the doctor. It is to be understood that the scope and extent of this surgery will remain entirely with the doctors' decisions.

"4. Necessary hospitalization will be provided. The association will provide ward care in hospital and if semi-private or private accommodation is desired the employee will be responsible for the difference in cost. Hospitals are available at South Porcupine and Timmins.

"5. X-rays will be taken where clearly indicated. This is partly a medical service and determination of this will be left to the decision of the doctor.

"6. Nursing services by registered graduate nurses will be provided where necessary in the opinion of the doctor. For confinement cases in the home one day's nursing care will be provided.

"7. Confinement cases will be cared for in home or hospital. Where a confinement takes place in hospital and if the same is considered normal by the doctor and the medical committee such hospitalization shall be the responsibility of the employee."

"What is Not Covered  
The letter outlines in detail services that are not provided. These include services such as are provided under the (Continued on Page Three)

## Horticultural Show to be Held at McIntyre Arena September 6th and 7th

Expected to be Bigger and Better Than Last Year's Big Success. Number of Victory Gardens This Year Should Help the Show. Very Able Judges Secured for Occasion.

The Timmins Flower and Vegetable Show, under the auspices of the Timmins Horticultural Society, will be held in the McIntyre Arena on Monday and Tuesday, Sept. 6th and 7th. This is the nineteenth annual show of the Timmins Horticultural Society, and it is expected to be larger and better than last year's successful event. There are more gardens—Victory Gardens—in the Porcupine Camp this year than ever before in the history of the district. There has been very general encouragement given to the planting of Victory Gardens as a war effort, than ever before and the response of the people in general has been most gratifying. With this addition of gardens there should be an equal increase in the number of entries at the Timmins Horticultural Show.

Everybody is requested to bring flowers and vegetables to help make the show on Sept. 6th and 7th a huge success. Any who have gardens or flowers should see any of the officers or members of the Timmins Horticultural Society for particulars. The more entries the more interest there will be in the event, so all having flowers or vegetables should be sure to make one or more entries. F. C. Hocking, Phone 1931-W, 54 Hollinger Lane, is the president, and the secretary-treasurer is H. L. Manette, phone 767-W; 36B, Second avenue, Schumacher.

On account of war conditions and restrictions baking and canned and bottled goods are cancelled for the duration. There is, however, a very attractive list of prizes in the usual other departments of the show.

With good weather the annual show of the Timmins Horticultural Society this year should be an outstanding and notable success. Even the weather, however, will not be able to keep it from success, if all do their part. Officers and committees have worked hard and effectively and have done their share to make the 1943 Horticultural Show at the McIntyre Arena an event particularly well worth while.

This year the Society has been very fortunate in being able to have Mr. F. R. Haywood, of Toronto, as the judge of flower gardens and flowers. Mr. Hazelwood is recognized as one of the outstanding authorities on flowers in Canada and is noted as an expert horticulturalist.

The Society is equally fortunate in regard to the judging of vegetables. The vegetables will be judged by Mr. H. Hanlan, Agricultural Representative, of Matheson, Ont. Mr. Hanlan has been the judge of vegetables at the Horticultural Show here for several years and is widely known as an expert authority on agriculture and horticulture.

There are specially attractive prizes offered for Victory Gardens and many entries are expected in this branch of the Show.

Each year the display of flowers from the mines of the district is an outstanding feature of the Horticultural Show. This year it is expected that the display from the various gardens of the mines will be bigger and better than ever.

According to word from Stockholm, Sweden, the Germans are facing a serious situation in Denmark. Anti-Nazi sabotage and rioting have grown to great proportions. There were nine serious acts of violence against the Germans within a few hours. An explosion damaged the Copenhagen forum hall in which some of the \$50,000 Nazi occupation troops are to be housed. Other sabotage resulted in a conference between the German ambassador and Danish officials. Germany has had to hurry troops to Denmark to preserve order, but the situation is serious.

Premier Churchill's broadcast scheduled for Saturday has been postponed to Sunday.

London believes that Berlin was under bombardment again, the main Berlin radio having gone off the air, which usually means a raid in progress.

Lt. General McNaughton, Commander of the Canadian troops overseas, says that the Canadian forces in Sicily are an honour to their country. In a message to the veterans of the Sicily campaign he said:—"Men who have not been in action admire and envy you."

## Interesting Address on Northern Roads

Divisional Engineer Shows Striking Views of Work Being Done.

Mr. V. H. Longstaffe, Divisional Engineer for the Provincial Dept. of Highways, was the guest speaker at the Kiwanis Club at the luncheon on Monday at the Empire hotel. He was accompanied by Mr. Alex Stirling, District Road Supervisor. Mr. Longstaffe's address was a most interesting one and held the closest attention of all. In brief but effective way he dealt with some of the problems of northern roads. There was very special interest in the films he showed in technicolor, especially those dealing with the Trans-Canada road construction in the Hearst area.
