HUNTING PROSPECTS GOOD—IN OWN BACKYARD

Crawling, slimy slugs, clustering aphids and leaping grasshoppers may not be the pleasantest things to look at or think about, but the determined Victory gardener will not think much about these destructive pests but get busy and do something about them. (1) Late evening, preferably after dark, is the best time to attack the night-feeding slug who announces his presence by the slimy trail he leaves behind him on the earth and plants. Infested plants and the soil beneath them should be dusted slightly with hydrated lime. The area should be gone over three or four times as the lime loses its efficacy when it becomes wet with dew.

Treatment should be repeated at intervals of three or four days. (2) Aphids cluster in dense masses on new growth of many plants. They are sap-suckers, stunting the growth of the plants and often causing the leaves to curl up. They come in a good range of colours, green, blue, black, grey and red. They are easily brought under control by spraying; the most commonly used spray is made by adding 2 teaspoonfuls nicotine sulphate to 1 gallon soapy water. Spraying should be thorough and be done on a warm, calm day, repeating at intervals of a week, if necessary. (3) In late summer and early fall, gardens may be invaded by a

plague of grasshoppers who have a particular affinity for potatoes. Poison bait spread in the early morning, not on a very hot or cold and windy day, will check the invader. It should also be spread in adjoining fields. The bait formula is 12½ lbs bran, 12½ lbs sawdust, 1 lb. Paris green, 2½ gallons water. The bait should be just moist enough to be crumbly and should be spread about 20 lbs. to the acre. Crops may also be protected against hoppers with a dust of 1 part (by weight) lead arsenate to 6 parts hydrated lime or by spraying with a mixture of 2 lbs. calcium arsenate, 2 lbs. hydrated lime and 40 gallons water.

Proposed Medical Plan Endorsed by 98 p.c. at McIntyre

(Continued From Page One) Workmen's Compensation Act, Public Health Acts, etc., drug addicts, alcoholics, hospitalization of mental cases, tuberculosis treatment in institutions, silicosis, dentistry, etc., and medical services for illness outside the limits of the Association. It is also noted that the plan does not cover common law wives.

For New Employees "For new employees who join after September 1st, no surgery outside of acute emergencies will be carried out for the first 12 months and for the new employees there will be a nine months' waiting period for confinement cases.

Outside Specialists and Doctors "In addition to the above services provided in the Porcupine Camp, the services of doctors or specialists in outside points are available for those patients who require services not regularly supplied by the doctors of the Porcupine Camp. To receive these services, these patients are only sent out of the Camp under direction of the attending doctor and the Medical Committee.

Accidents Outside the Camp. "For those employees or families who are absent from Camp on vacation or business, who may suffer an accident, the association will be responsible provided the member furnishes a report of the accident as soon as possible. Expenses for such will be paid by the association at prevailing rates and the employee will be responsible for balance of expenses. This does not apply for any illness outside of the Camp.

Enlistments "Any employee who may enlist in His Majesty's Forces and who has been continuously employed at the mine for 12 months prior to enlisting may have his family remain in the plan by signifying to the Employees' Committee that he or his family will make the necessary arrangements for the payment of the monthly dues, in which case the mine will be willing to pay its contribution as long as these dues are paid by the employee or family as the case may be.

Board of Directors "To operate this plan a committee of employees who voluntarily become members will be selected by the management in the first instance and thereafter elected by the employees, which

committee will act in conjunction with a committee of medical members to form a Board of Directors. The Doctors' Committee will be responsible for a central office to look after the administration which will include the reception and payment of all accounts. The plan will operate under an agreement to be signed by representatives of the employees and the doctors, which agreement will contain the provisions as set out along with rules and regulations.

Cost of the Plan "The cost of this plan to the employee will be \$2.05 per month for the single employee without dependents and \$3.15 per month for the married employee, also the single employee who wishes to register dependents. The mine management will contribute \$1.10 per employee per month. In addition to this there will be a service charge of 50c for the first visit of an employee or member of his family in home or office and \$1.00 if two or more members receive any service during the month. The maximum in any one month is \$1.00. It has been the experience of medical plans in general that where payment has been made for medical care in the same manner as insurance, there is a tendency for a number of people to seek the services of a doctor a great number of times and some of these are unnecessary. This service charge is added for those people who tend to use the plan unnecessarily. The amount of money contributed will take care of the ordinary run of illnesses provided that the doctors, members of the plan and their families will play ball.

"The monthly contributions by the McIntyre employees and the Company are the same as paid under the Hollinger Medical Plan, which has operated successfully for the past six years. The same administration and constitution governing the Hollinger plan will be adopted."

Other Mines to Use Plan A number of other mines in the Camp are also having their employees vote on the Employees' Medical Plan.

Kirkland Lake Flier is Now Presumed to be Dead Ottawa, Aug. 25. — P.O. John Aird McPhee was listed as previously reported missing on active service overseas, now for official purposes presumed dead in the R.C.A.F.'s 661 casualty list of the war issued last night.

His next-of-kin is his mother, Mrs. John McPhee, of Kirkland Lake.

Sergt W. Thompson Hit by Car While at Another Accident

Popular Police Officer Suffers Serious Injuries But is Recovering.

On Tuesday evening at 11.50, while investigating an accident in which a cyclist was injured and his wheel smashed by a car, Sergt. Wm. Thompson of the Timmins police was struck by another car as he stood by the side of the auto involved in the collision with the cyclist. Sergt. Thompson was thrown heavily to the pavement and in addition to an injured leg he sustained injuries to his head, causing loss of memory and shock. He was taken to the hospital and for a time was in serious condition, but to-day he is reported as being well on the way to recovery, though he will be off duty for some weeks as a result of the serious accident.

The circumstances as reconstructed by the police are that two cars came along at rapid speed on the Schumacher highway as Sergt. Thompson was investigating the other accident. The one car, driven by H. Meringer, Wende Ave., was able to stop near the scene of the accident, but a car following, owned by Lucien Gagnon, and driven, the police believe, by H. Brosseau, struck the Meringer car. In the meantime Sergt. Thompson had been hit by a car and knocked to the pavement.

As a result of the two accidents, and following investigation by Chief Gagnon, several charges have been laid.

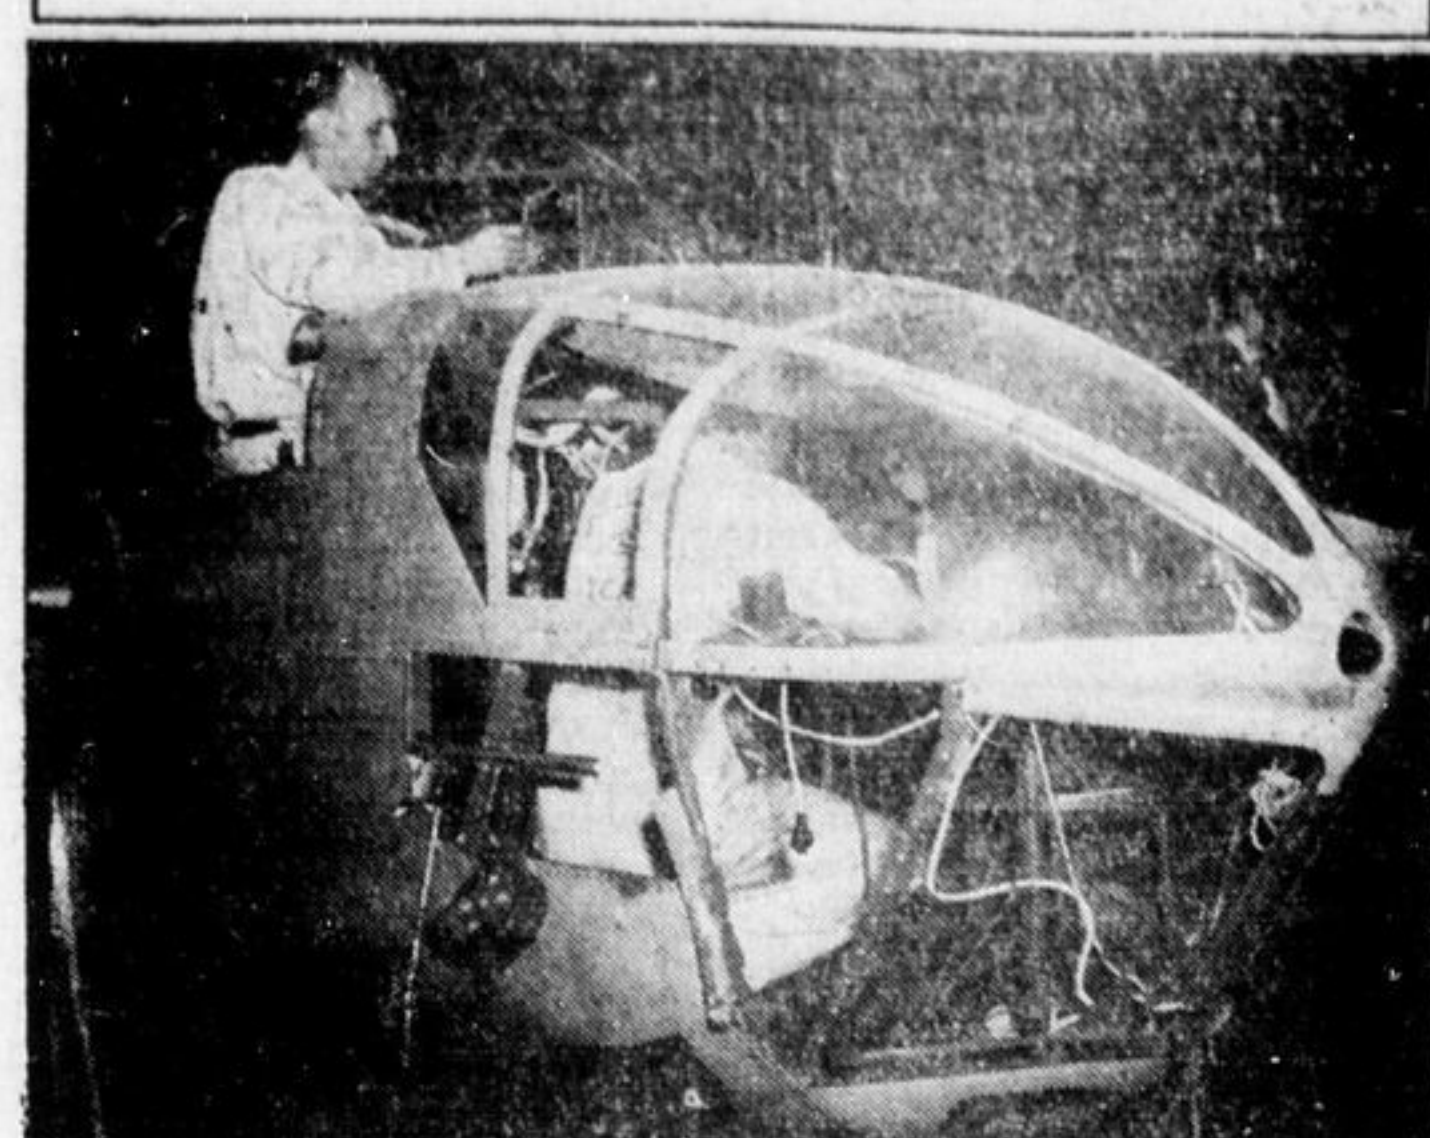

Costi Joki, Lake Shore Road, is charged with dangerous driving following the accident in which John Brosseau was hurt in the leg and the front wheel of his bicycle smashed.

H. Meringer is charged with dangerous driving.

Lucien Gagnon, owner of one of the cars in the case, and H. Brosseau are jointly charged with dangerous driving, the police not being able to definitely establish the fact as to which of the two of them was driving the car at the time of the accident. Lucien Gagnon maintains to the police that he was driving the car. Brosseau has no operator's license.

Sergt. Thompson has been on the Timmins force since 1937 and is a particularly able officer and well liked by all for his cheerful and kindly way in doing his duty.

Part of T.C.A.'s War Effort

As a swift messenger, carrying passengers, mail and express across Canada from St. John's, Newfoundland, to Victoria, B. C., from Toronto to New York and Windsor and between Lethbridge, Calgary and Edmonton, Trans-Canada Air Lines plays a vital part in Canada's war effort. It makes other contributions as well. Working 24 hours a day, its Winnipeg shops do a great deal of maintenance and overhaul work for the R. C. A. F. and the Commonwealth Air Training Plan.

Regular Meeting of Mattagami Ladies Club Held

The Mattagami Ladies Club held its regular meeting this week at the home of Mrs. D. Ellis, 118 Balsam St. North. While the group knitted, plans to send boxes overseas were discussed and some will be packed at one of the members' homes this week.

A whist drive is to be held at the home of Mrs. M. Wallingford on Tuesday, Aug. 31st.

The raffle was conducted, the prize of 6 glasses going to Mrs. A. Guindon. The hostess prepared a delicious salad for lunch, assisted by Mrs. Maurice Landers.

The group will be entertained next Monday at the home of Mrs. L. Landers 16 Main Ave.

Collection of Waste Fats Made by Boy Scouts

Saturday last the Boy Scouts made another collection of fats in town but organization was not as complete as on other occasions and only about 400 pounds of fat were collected. This amount, however, is worth while as

there is serious need for fats in the making of munitions. There will be another collection of fats by the Boy Scouts likely about Saturday, Sept. 4th, notice of which will be given in the local newspapers.

Sound banking relationships are established on the same broad principles of mutual confidence which make it possible for free people to live and work together. The basic objectives are—to provide services which are necessary to every citizen—to give practical co-operation and assistance to individuals and to business.

Our endeavour is to make each branch of this Bank a place where men and women may freely come with their banking problems and receive banking service from a staff trained and experienced in providing these particular services.

LET'S ALL DO MORE TO WIN THE WAR

BEFORE THE WAR: Harry and his wife always went to the beach for their vacation. They had a swell time. Cost quite a bit of money.

TODAY: Harry and the family are using their two-week vacation to do a real war-effort job—working on a farm, helping to relieve the farm labor shortage. They're enjoying it. Money saved, too.

THE MORE WE'RE IN IT THE QUICKER WE'LL WIN IT!

Our fighting men are giving ALL their time to the job of winning the war... fighting in Sicily... hunting U-boats in the Atlantic... bombing Germany! The least we can do is to make use of our spare time by doing some war-effort job. Look around! You'll find lots of opportunities to work for victory. Helping some hard-pressed farmer to harvest his crops is but one of them. We can't all fight, but all of us can work.

This space contributed to the war effort by
