Town to Make Repairs to Road to Adams Tp. to Bring in Fuel Wood

Cost Not to Exceed \$500.00 and Half Cost to be Borne by Province. Town Taking Other Measures to Avoid Fuel Shortage. Other Matters at Council Meeting.

in reference to the repair of the road | will be found elsewhere in this issue. recently on several occasions in The perial Oil Co., Leaside, Ont., asking Advance one of the handicaps in as- permission to erect a frame office, 16 suring sufficient fuel wood for Tim- by 24, with asbestos siding, etc., for mins this winter is the condition some of the roads in the district. Some of the roads are so bad that it is impossible to take in supplies let alone bringing out wood. One of the roads needed for wood-hauling but badly out of condition is the road to Adams township where there is fuel wood available. The council has been working on plans to remedy this and so far as the Adams township road is concerned the problem was solved by the following resolution passed at Monfollowing resolution passed at Monday's meeting:-

"Moved by Councillor J. W. Spooner, seconded by Councillor E. W. Gladstone, and carried - that the town engineer be authorized to make the necessary repairs to the road to Adams township to facilitate the transporation of fuel wood, at a cost not to exceed \$50.00, of which half is to be paid by the Department of Highways, as Divisional Engineer."

The other resolution in connection was as follows:-

unusual and unforeseen conditions for 60 and 38. consumers; and whereas government fuel authorities have urged the public to purchase and store fuel for future use to assure themselves of a sufficient supply; and whereas it is considered advisable to lift building restrictions in certain cases to permit the erection of temporary coal storage sheds to take care of the present emergency; now, therefore, be it resolved that the engineer be authorized to permit construction of temporary coal storage buildings Inspected New Part of Trans or for a goodly donation. in his discretion, all such construction to be done under the engineer's supervision, and all structures so erected to be removed at the conclusion of the

wartime fuel emergency." . This resolution answered the application of V. Moskol, 671/2 Third avenue as well as providing for other similar cases, where only temporary structures were possible at this time.

At the meeting on Monday, Mayor J Emile Brunette was in the chair and Councillors Ellen Terry, J. W. Spooner, E. W. Gladstone and W. McDermott were present.

A letter was received from the Timmins Legion Community Cigarette Fund outlining the quantity of cigarettes sent overseas regularly to Timmins men on active service and asking for a donation from the town to this good work. Councillor Spooner asked that the matter be deferred until the next meeting when he would bring in

a full report. Council decided to accept the offer of \$100.00 for the house owned by the town at 56 Cedar street, north. This residence was formerly occupied by the late Fire Chief Borland. On account of the construction of the house and its need for repairs and alterations that would not be warranted by the condition of the structure, the town decided to sell it and have it removed from the property so that the land could be used for other purposes. Although tenders were called for, there has been only the one offer - that of \$100.00 by Napoleon Magnan, who pointed out that the condition of the building, the difficulty of moving it,"and other circumstances made it impossible to offer more than \$100.00 The bargain includes the plumbing fixtures and the cement blocks in the foundation. The building will be moved by Mr. Magnan after the snow comes.

Fire Chief W. Stanley reported that at the present moment it was not possible to purchase a suitable boat for life-saving purposes at the lake and river. He could, however, rent a suitable boat for \$8.00. The council authcrized the Fire Chief to secure the necessary boat by rental.

L. D. Snyder, 53 Wende Avenue, was authorized to gather salvage from the town dump as outlined in his letter t the council.

Mayor Brunette was authorized to attend the convention of the Ontario Mayors' Association at Toronto on Oct.

20th and 21st. The appointment of Yvonne Bazine: as temporary office clerk as from Sept. 14th was approved.

Permission was given C. Tonelli for a wood yard south of the T. & N. O. right of way opposite Preston street

Among the important matters at the The report of tax collections and the regular meeting of the Timmins town reports of Councillors Spooner and council on Monday afternoon were two Gladstone in connection with the re-

> local use. Council considered that the structure did not meet the requirements of the town building by-laws and so could not be given a permit.

Fair and Cold for

That's the Forecast of the Weather Bureau for the Coming Few Days.

Today will be cloudy at first, clearir to fair and cold, says Mr. S. Wheeler, of the Hollinger Weather Observatory, per arrangement with H. V. Longstaffe, fair and cool. At 9 a.m., this morning the thermometer stood at 38 degrees. Maximum and minimum temperatures with facilitating fuel supply in Timmins | for the week were: Thursday, Sept. 16th

day) morning, service being held at Radishes, 5c a bunch, or 6 bunches 9.30 in the Church of the Nativity. The pallbearers were: - Sherman Duggan, William McDermott, John Newton, P. Larmer, David Fox, John McGarry.

One of the largest contingents of reinforcements for the Canadian Army services has arrived safely overseas Included in the contingent are nursing sisters for several hospitals, men for the pay, ordnance, signals and army service corps, engineers, artillerymen tank and reconnaissance formations.

The Russians have made new advances both in the Smolensk and Kiev sectors. Soviet troops stormed and took the village of Lyeski, 18 miles from Kiev. Repeated counter-attacks by the Germans have been unsuccessful.

Apparently the Japanese are expecting regular knock-out blows from the Allies soon. The Tokyo radio has announced that the Nipponese capital and other cities will be evacuated soon because of the "decisive phase upon which the war will enter in the coming

The Royal Canadian Navy will obtain six destroyers this year from Britain, also two cruisers, and, perhaps, aircraft carrying vessels, according to an announcement by Hon. Angus Macdonald, Minister of Naval Defence, speaking at St. John N.B,

R.A.F. heavy bombers again blasted Germany last night, the British announced to-day.

Steaming Roof Results in Fire Call Being Made

But There Was No Fire on That Occasion. There Were Four Other Calls.

There were five fire calls during the past week, but one of them was only an imaginary fire. That was yesterday afternoon just before four o'clock. A neighbour saw what looked like smoke, but in reality was only steam, rising from the roof of a shed at 55 Messines and sent in a fire call. The firemen had a run for nothing, but think nothing of that as it is always better to be safe than sorry.

Two of the other fire calls were for blazes in garages. There was a call to 74 Middleton avenue on Friday last at 3.19 p.m. for a fire in a garage. The fire was promptly attended to with slight damage done. The other garage fire was in a vacant garage at 125 North Road at 10.45 a.m. on Sunday. The cause of the fire is not known. Around \$150.00 damage was done in this case before the fire was extinguish-

On Wednesday of this week at 8.37 p.m. the firemen were called to 118 Commercial avenue, Jos Godin, owner and occupant. An overheated stove and neighbour noticed the fire and after phoning the fire brigade dug in himself The funeral took pace this (Thurs- | to put out the blaze. He did so well that when the firemen arrived the blaze was under control. Damage would run around \$200.00.

> The other call of the week was for a chimney fire at 71 Wilson avenue.

Authorities Round Up 100 for Alleged Evasion Over Ninety Years of Of Selective Service Rules
