Convenient Method to Make Delicious Codfish Souffle for Quick Meal

Codfish One of the Most Popular of the Fish Foods. People from the Interior Favour Salt-Fish. Quick Meal with Codfish Souffle. Recipes for Use of Codfish.

(By Edith M. Barber)

Our food tastes are formed in childhood. This is probably responsible for the fact that salt codfish is perhaps the most popular of any type of fish. Friends of mine from the interior of the country where fresh fish is seldom available often claim about their liking for creamed codfish and codfish cakes. At the same time they are quite likely to scorn fresh fish which those of us who were accustomed to its use during childhood value highly. Of course, I share the taste for salt fish also.

It was rather surprising to me the first time I visited the West Indies to find that one of the best liked and most typical dishes was this same salt fish, prepared, however, in a different manner. Cutting off shipments of this food from Canada has been a great hardship to the islands and we shall hope that supplies will be more liberal soon. They will be as welcome as was the removal of coffee from the ration lists to us.

In this country two types of salt cod are available. The whole salted fillets which once came in wooden boxes and the very shined shredded type which is packed in paper cartons. Some persons like one and some the other for codfish cakes. The fillets are chosen for creaming. Now that we must often use fish twice a week, instead of only on the traditional Friday, it furnishes variety to use fresh one day and salt the other.

It should be noted that the latest addition to the frozen food list and unrationed at that is a ready-to-use codfish mix. The business woman housekeeper will welcome this as she did the canned mix of an earlier date.

Dominion President of Legion Scores the Present Man-Power Muddle

Alex Walker, C.B.E., Urges More Practical and Just Plans be Adopted for Man-Power and Fighting Services. Visit of Dominion President a Big Event for North.

President Alex Walker, C.B.E. of the Dominion Command of the Canadian Legion, B.E.S.L., on his official visit to Northern Ontario at New Liskeard on Monday, Sept. 20th, scored the Dominion government on what he termed the "man-power muddle," in his address to a crowded house at the Empire theatre, New Liskeard. The meeting was the termination of an eventful day for Legion branches in Northern Ontario and followed a banquet held previously, an account of which is reported elsewhere in this issue of The Advance.

Preceding the public meeting the Veterans marched to the war memorial led by the New Liskeard high school band, where Alex Walker, C.B.E. placed a wreath in memory of Ist. V. Pres. Col. W. C. Nicholson of the Dominion Command, who passed away on July 15th last after years of great service to the Veterans' cause. "Billy Mc", as he was affectionately known won high honours in France, being awarded the D.S.O. and the M.C. His last act on behalf of all veterans of World War I was the presentation of the brief for increased allowances for those in receipt of War Veterans' Allowance. He won a small raise in amounts paid. It was only fitting upon this occasion when every Legion branch in Northern Ontario was represented that the solemn tribute should be paid to one so deeply concerned in the welfare of his comrades.

The theatre was crowded when the Legionnaires took their specially reserved seats. For the first time in Legion circles the impressive Legion ceremony of honouring their fallen comrades was displayed to the public. The New Liskeard branch has made a special feature of this ceremony and it was duly and solemnly carried through. The chairmanship of the meeting was carried through ably by the Provincial President, Tom Magladery, of New Liskeard, who read out the names of the presidents and branches represented at the Rally. Each took his place upon the stage, along with several distinguished guests. These included Mayor Howard Walter of New Liskeard, W. Little, M.P., Temiskaming; W. C. Nixon, Wes McKnight, Horner Sutcliffe, presidents of Service clubs, etc. Col. Wilne, North Bay, District Commander W. Lewis of Sault Ste. Marie, zone commanders of Northern Ontario and last of all, the guest of honour and principal speaker, Alex Walker C.B.E., president of the Canadian Legion in the Dominion. Tom Magladery, had happy words for each in turn with his genial Irish wit.

The address of welcome was given in a splendid speech by Mayor Walter. Zone Commander J. Sumbler, welcomed all the Legion members present and the Dominion president was introduced by Tom Magladery, Ontario provincial president of the Canadian Legion, B. E.S.L.

President Walker, opened his address by an account of his present tour of Ontario, and stated that during this tour in which he had addressed several meetings he had found the Legion growing steadily. Touching on the Legion stand of three years ago for total man power effort, he stated that the present situation was a man-power muddle. "We have Major Powers calling for thousands of men for Air and Ground Crew work. Then we have Col. Ralston's statement of tens of thousands of men to be discharged." Instead of disbanding these men the government should remuster these men into the R.C.A.F.," stated the speaker in part upon this subject.

Rehabilitation of men and women of the services was given a very lengthy review. Points of which included the brief on Rehabilitation recently presented to the government. The Advance hopes to be able to publish portions of this document in the near future. President Alex Walker spoke on the inadequacy of the clothing grant at present \$35.00 and stated this should be at least \$125.00 for either man or woman. Rehabilitation grants should also be payable on a basis of grants for each six months of (active) service and made retroactive. No one should be discharged from the services until they could be absorbed into industry at a profitable wage was another point expressed by the speaker.

War Veterans Allowances were reviewed, the speaker outlining the proposed new increases and the stand of the Legion that the \$10.00 monthly in-

Importance of Aircraft Recognition Stressed in Address at Kiwanis Club

Air Cadet Pilot Officer W. Tansley, Guest Speaker at Kiwanis Luncheon, Gives Interesting Address on Vital Phase of Air Force Work. History of Timmins Kiwanis Club Being Gathered.

The guest speaker at the regular weekly luncheon of the Timmins Kiwanis Club at the Empire Hotel on Monday was Air Cadet Pilot Officer W. Tansley, of No. 10 Timmins K. Squadron Air Cadets. Following the address the previous week by Mr. Arch Gillies on aerial navigation, the address had particular interest and significance. Pilot Officer Tansley's subject was "Aircraft Recognition," and he pointed out that it is the first subject taught to Air Cadets. "It is very important," he said, "much more important than was at first recognized."

To illustrate the vital importance of aircraft recognition, Pilot Officer Tansley quoted two timely incidents in the present war. "One day at the beginning of the war," he said, "while an English training plane was flying over a certain part of England, they passed a monoplane. As the instructor thought this monoplane was another training plane he did not bother about it. It happened, however, to be a Messerschmitt 110. This enemy plane shot down our plane and machine-gunned the recruit and the English instructor while they were coming down in their parachutes." On another occasion, the speaker said, a Hurricane pilot, due to faulty recognition shot down an unarmed Hudson flying boat.

Pilot Officer Tansley pointed out the double fact that recognition not only had to be instantaneous but it had to be accurate beyond question. To illustrate the matter more clearly, the speaker showed moving pictures of different planes, explaining the different points by which they could be recognized. He noted that English planes were generally built much less streamlined than American planes.

The speaker explained the fact that thorough training is an essential for an airman. His life as well as his success depend on his complete knowledge and his skill and his ability to make use of knowledge and skill without any hesitation. As the Air Cadets are training for the Air Force, they have to have a wide and thorough grasp of all details. To pass his course an Air Cadet must be able to recognize at least forty different types of planes from three different views. He must also know all the terminology of aircraft. The best trained airman always have the best chance of winning. Therefore, a thorough training is essential.

London Daily Chronicle: Field Marshal Lord Milne has made a compelling appeal in the House of Lords for greater publicity for the army. He told of a battery in North Africa, of whom only five percent, survived, still holding their spot. "Why was this tale of heroism not made public? Scarcely a family in position, "a feat of arms which in another campaign, won four V.C.'s on the army. Must their doings remain un-

honored and unsung?
