

Dropped Between Stitches

I like best the simple things - A passing, redbird's crimson flame; A sunlit sea, where flowers abound; A brown and yellow pansy face, Laughing at me from the ground. An hour spent with some old-time friend; Trees whispering matins in the dawn; The joy remembering can bring, When all but Memory is gone. A cottage, small with lights aglow; The evening star above the dying west; A sheep-bell's tinkle through the dusk - I like these best.

-J. Earle Wycoff

Here's another reasonable suggestion we found: - "When about to purchase your winter's store of potatoes, make a test of one of the lot to see its quality. Cut it into halves and press together. If the halves are juicy enough to stick together, the potato is a good one. Then buy in quantity."

We hope you didn't have any unusual bad luck last Friday the 13th. Some never even thought about the "unlucky 13th" until after it was over, some thought of it but never attached any importance to it, while others didn't take any unnecessary chances with it. For those who still claim it is their lucky day—there will be two of them next year—in April and in July.

Did you get your ration book last Saturday? If you didn't, get yours, you have another chance. Central School will be open from 2 to 6 this Saturday (21st) issuing the new books. So put it on your shopping list this time.

Monday of next week is the opening day for the Seventh Victory Loan and it will continue for three weeks. Don't wait for a salesman to come and "sell" you on it—go to your bank as soon as you can after Monday and fill out your application. There isn't any doubt about this investment, nor is there any doubt about the justness of the cause it's for—so let's all dig down to the limit of our resources this time and let this be the Loan that will "give them the tools to finish the job" and get them back to their homes they've been fighting for so long.

A very sincere welcome is extended to Mrs. Donald Hardy and son, Brian, who arrived last week from Scotland. They are the wife and son of Sgt. Donald Hardy who has been overseas with the R. C. A. THE SEA WILL GIVE UP TREASURE

to men who think of tomorrow

SALVAGE SUBMARINE OF TOMORROW! . . . Already more than 40 million tons of shipping have been sunk in World War II. What a treasure trove of valuable metals and non-perishable cargoes may be reclaimed with these powerful undersea craft . . . equipped with salvaging cables and with decompression chambers for diving operations. They're coming . . . planned by men who think of tomorrow!

MEN who think of tomorrow are planning many startling post-war engineering enterprises. The salvage of deep sea treasure by giant submarines is one of the most practical . . . and profitable.

But until the day arrives when men and machines are free for such fascinating exploits, we have a lot of salvaging to do on the home front!

For instance, the need for waste paper has never been more urgent than it is now. Are you salvaging yours? . . . Gigantic quantities of explosives must continue to flow across the sea to our armed forces. That takes glycerine and

glycerine takes kitchen fats. Are you salvaging every drop you can?

There is no respite for anybody in the kind of a war we're waging. None for the soldier, none for those at home . . . None of us is through with the job until the last enemy flag comes down. And that means, among other things, buying more and more War Savings Certificates and Victory Bonds, and it means hanging onto them, too!

Tomorrow will come, as it always has . . . but it will be the brighter for the sacrifices we make today. Let us all be **MEN WHO THINK OF TOMORROW** . . . and get ready for it NOW!
