Education Week Observed Last Week at South Porcupine

South Porcupine, Nov. 15th. Special to The Advance.

Last week was Education Week, all over Ontario.

Our schools, both in South Porcupine and at the Dome, made special reference to it.

On Wednesday evening from 7 to 9 p.m. our public school was open to visitors.

They came in great numbers, not only the parents of school age children but others whose children have now passed the age of school and whose grandchildren are being instructed in the wonderful new and attractive methods now used by our progressive teachers.

The rooms were most attractive. They always are, but this evening special attention was given to the work of all the pupils from kindergarten to entrance and each student's desk and its contents were on display to admiring parents and friends.

Even the windows were embellished with the work of small fingers—in Miss Higgins' room a whole flight of wild ducks cut from paper flew realistically across the panes from cut out reeds; and on the walls and blackboards in each room were artistic murals of seasonable subjects.

The sandboxes were given much appreciative scouting.

South Porcupine H. S. Lad Loses Hard-earned Bond

South Porcupine, Nov. 15th. Special to The Advance.

The following incident should be given publicity from more than one standpoint.

Last week a fourth form High School boy who had employed the summer months gainfully by working at the Dome and saving his money, was patriotically moved to invest this money in a \$50 Victory Bond. He went to the Bank - received his bond in an envelope marked with his name - and went to school. On the way, in some manner the envelope and bond were lost.

There is no snow to hide an envelope. Somebody must have found it. To date no bond has been returned to this lad. If it came out of the envelope and the finder is honest he has only to phone the school or the police to find the owner.

We hate to think that anyone after knowing the facts would keep this bond.

The loss to this lad is great.

Dated at Porcupine, Ontario This 15th day of November, 1944

W. F. STRUTT Clerk, of the Municipality of the Township of Whitney.

The worst inflation came AFTER the war the last time . . . to be followed by disastrous deflation, unemployment and confusion. For Canada to manage successfully the change back to peace, maintain employment, and meet the world's competition . . . we must continue to have stable economic conditions. To protect the individual from rising costs of living and later unemployment we must continue to prevent inflation.

To prevent a repetition of the conditions following the last war **PRICE CONTROL MUST BE MAINTAINED** AS LONG AS INFLATION THREATENS US.

This can only be done if production is efficient and economical, costs are kept down and consumers refuse to pay more than ceiling prices.
