HIGH VACUUM Distillation : : : Furfural Process . . . M.E.K. Solvent . : . Catalytic Clay (part of this plant is shown above) these are each important steps in the famous Clarkson 5-point-process which makes the purest, most efficient lubricating oil known. Then comes the unique 5th step-the step that "alloys" the oil against oxidation; just as iron is alloyed against rust to make stainless steel. This step means that Peerless Motor Oil will stay on the job longer, keep engines cleaner, cut the repair costs.

FOR BETTER SERVICE and better products YOU ALWAYS BUY WITH CONFIDENCE -products like Peerless-change now to your British American Oil Dealer.

This Spring switch to B-A's sensational new 5-point-process PEERLESS MOTOR OIL

This year don't delay! Get your spring change-over early, before that dirty worn-out oil in your car causes serious damage! And when you change, switch to Peerless, B-A's new, Canadianmade, 5-point-process oil that's "alloyed" to prevent its fouling your car's engine . . . to help keep your repair costs down!

THIS YEAR IS CRUCIAL

It is particularly important, when most of us are driving cars which have already given abnormal service, that we give the engine every possible chance. Only by so doing can we hope to get through the driving season without trouble. That's why it's so important to know how Peerless Motor Oil does a better job.

Here in a nutshell is the reason: From selected lubricating crude oils, B-A eliminates everything except the purest, "oiliest" lubricating fractions. Then, by a special process, Peerless Motor Oil is "alloyed" against decomposition under the heat and pressure it meets in the engine of your car! For longer, safer car life switch now to B-A Peerless Motor Oil!

AT THE SIGN OF THE BIG B-A

Because "it's alloyed" Peerless Motor Oil keeps tractor engines in better shape!

TIME NOW TO replace old, worn-out winter grade oil with B-A Peerless Motor Oil. Delay may be disastrolust Drive in tomorrow to the sign of the big B-A1

THE BRITISH AMERICAN OIL COMPANY LIMITED
