President Rud (Langdon) has asked that we observe a special period of Thanksgiving and Meditation at our meeting on May 14th. This is in line with a request airmailed from Chicago by International President Ben Dean that observance of the cessation of hostilities in Europe and grateful remembrance for those who have paid the supreme sacrifice, be fittingly expressed at the next meeting.

FOR LABOUR— A NEW FEDERAL CODE

"The accomplishment of Labour's purpose will not be found in the regimentation of State Socialism. Canadian workers will do far better for themselves . . . to create a dynamic enterprise wherein, through their collective bargaining agencies, Labour may receive fair wages and an improved standard of living . . . Profits can be taxed, but a monopoly of power in the hands of a political group is impossible to control . . . Any government of which I am leader will see to it that Labour becomes a partner in enterprise and enjoys its rights . . ."

John Bracken

John Bracken believes that the rights of Labour can best be secured under a system of private competitive enterprise. He accepts and endorses the opinion expressed on this point by William Green, President of the A.F. of L., and Phillip Murray, President of the C.I.O., who stated on March 28th, 1945:

"The rights of private property and free choice of action, under a system of private competitive capitalism, must continue to be the function of our nation's peaceful and prosperous expanding economy. Free competition and free men are the strength of our free society."

To make these rights real and effective the Progressive Conservative Party will establish a National Development Board to include labour, agriculture, business and government.

The Board will have the responsibility of working out terms for full production and employment as well as the preservation of our natural resources and the construction of projects in the public interest.

The National Development Board will have power to encourage the establishment for each industry of an Industry Council, composed of representatives of labour, management and agriculture, as the case requires, to assist in the formulation and application of plans for full production and full employment in such industry.

John Bracken will establish a Federal Labour Code setting national standards and covering particularly—

- ✓ Genuine compulsory collective bargaining legislation.
- ✓ Effective machinery for certification of collective bargaining agent.
- ✓ Penalties against discrimination and unfair Labour practices.

✓ Outlawing of unions financed or dominated by employers.

✓ Minimum Wages.

✓ Maximum Hours of Work.

✓ Equal pay for equal work and equality of opportunity and treatment in other respects for men and women workers.

✓ Minimum age of employment.

✓ Holidays with pay.

✓ Extension of Labour-Management Committees.

We shall provide a uniform and comprehensive security plan for all Canadians including—

✓ Extended unemployment insurance coverage.

✓ Accident and sickness benefits.

✓ Children's allowances.

✓ Maternity benefits.

✓ Widows' benefits.

✓ Retirement pensions.

✓ Increased old age pensions at age 65.

Where social services are administered provincially, we shall provide grants large enough to ensure adequate standards of social security to all Canadians.

We shall ensure representation for Labour on Government Boards and Commissions. Important wartime wage orders and Labour relations codes shall be enacted by Parliament, not by Order-in-Council.

By these and many other progressive measures, the Progressive Conservative Party will ensure to Labour, as a partner in progressive enterprise, its full rights and responsibilities in achieving prosperity for all Canadians.
