3rd Sunday at 7.00 p.m.
4th Sunday at 11.00 a.m.

John Landers' Home Damaged by Fire

Damage of several hundred dollars was caused by a fire which broke out in the home of John Landers, 136 Commercial Ave., Timmins, on Tuesday night.
Answering a call at 11.05 p.m. firemen found the kitchen of Mr. Landers' house filled with smoke. Occupants of the house were absent at the time of the fire, which firemen consider was caused when wood piled behind the kitchen stove ignited. The home was insured.

The Timmins fire department had answered a number of calls this week for chimney fires, a sure sign that Timmins householders are beginning to "turn on the heat" for the coming winter.

Teacher Puts Students "Hep" on Education

Education is NOT learning enough "stuff" to pass an examination. You say, "Well, all the time I have been wasting!" You can say that again if the opening sentence has been your idea. Mind you, passing examinations is an excellent idea, but if you are hep to what education is—the examinations are guaranteed to take care of themselves—and very nicely too, thank you.

But education is so very much more than that. You can be as popular as "Frankie" for awhile, but fashions change. You can be the hero of the football team, but old age creeps up. You can make a fortune, and lose it all in one poor investment. You can acquire an education, and neither fashion, nor age, nor luck, nothing under the sun can take it from you.

What is this education? Viewed in a purely practical light it is a very peculiar commodity. You are making a start at obtaining it by the absurdly simple process of being at school five hours a day, doing the odd (very odd) bit of home work and spending perhaps 20 dollars a year on books and supplies. And yet the wealthiest man on this earth could not buy one little slip of paper saying that his son or daughter had completed satisfactorily even as much as the work of Grade IX.

The beginning of education is the astonishing discovery that you have a mind—a unique possession. You are the only person who has that particular mind. What you do with it decides what you are. That should be a sobering thought. But I do not mean a long-faced, nose-in-a-book, no-time-for-fun kind of soberness. Educated people are not drips.

If you can walk right up to a tough problem in mathematics, or history, or any other school subject, look it right in the eye and say "I'm going to make you say uncle," and then proceed to do it—you have added a little bit of permanent stiffening to the backbone of the real you. If you timidly approach the problem, poke gingerly around it and say, "I give up. Maybe it won't be on the exam anyway," then your poor backbone will have forever to carry on without that particular bit

Visit Porcupine Lodge

About twelve members of Golden Beaver Lodge A.F. & A.M. visited Porcupine Lodge last Thursday evening for the visit of the D.D.G.M.
W.M. Clarence Anderson presided and there was also an initiation. At the close of the meeting a most tempting buffet lunch was served.

Accidents, Disorderly Conduct Get Quicker Police Attention

The newly inaugurated three-way radio set has "proved itself to be most helpful" Police Chief Gagnon states.
The set, officially put into service by the Police Commissioner on October 30th, is of an American make sold through the Marconi Company in Canada and is capable of three-way communication, that is, from station to car, from car to station and from car to car.

Operated on a frequency of 30.9 Megacycles and powered by 350 watts, the set has operated so far, free from static and in a most favourable manner, the chief claims.
To date the exact range of the set is still unknown. However, at a distance of twelve miles the reception has proved clear and flawless.
It is intended that all radio cars will be equipped with 25-plate batteries instead of the 15-plate batteries now in use, thus ensuring the consistency of the radio set.

The tower, a separate unit, erected by the Ajax company, of Toronto and Montreal, stands outside the police station next to the Fire Hall. It reaches a height of 115 feet, the antennae being 15 feet above the tower proper.

Chief Gagnon stated that the set would help in cases of disorderly conduct, etc., and other happenings, that require the immediate presence of the police.
It will also prove invaluable in regard to accidents, in that it will cut short the time ordinarily taken to obtain medical aid for those involved.
It is estimated that the police will achieve over 30% more work through the use of the new radio.

This advancement and aid to the efficiency of the Timmins Police Force, it is felt will undoubtedly prove itself to be one of the deciding factors in flushing Timmins clean of any criminal element.
Continuing their journey at 1.15 Friday afternoon, they reached their goal, nosing through the local subway at 11.30 Friday night, completing the trip in fine style. The car behaved in marvellous fashion and the boys say the trip was thoroughly enjoyed, adding that it was also rather cool.

Princess Alice Club Plans Xmas Dance

Members of the Princess Alice Club met recently at the home of Mrs. J. Hope, 64 Patricia Blvd. Guest of the evening was Mrs. C. Delahunt, of the Children's Aid Society, who gave a

of stiffening. You might easily collapse for lack of it later on.
You are fairly good at not believing some of the wonders of Science that I relate to you until I produce proof in the way of photographs to help me out in my closing statement but it is the truest thing I have ever said to you. There is excitement in a good ski-run, there is excitement in a first date, there is excitement in watching a hockey game, but from the bottom of my heart I hope that you will—all experience the most spine-tingling, soul-satisfying excitement of all that of seeking after knowledge for the sake of knowledge—for he who seeks shall find.
Nan Taylor

Vets Returning in Increasing Numbers

The number of men discharged from the services in the past two months is double those discharged up to the first of August. Mr. W. C. Shields, veterans' officer at the Timmins National Selective Service office told The Advance this week.
The general condition of the boys returning was quite favourable, and all seemed most eager to get back into civilian life and employment, Mr. Shields added.

The percentage of men entering the three services from the District of North Cochrane was roughly: Navy, 10%; Army, 50% and R.C.A.F., 10%.
Men entering the services from Timmins totalled 3,312; Cochrane, 4,262; Cochrane and district, 2,276; Smooth Rock Falls, 113; Ingoquois Falls, 189.

Parents, Teachers Enjoy Meeting in Central School

A varied and interesting program characterized the meeting of the Central Home and School Association held in the Central Public School under the chairmanship of Mr. W. H. Eastman, recently.
Despite unfavourable weather the attendance was good, and a warm welcome was extended to three members of Delora Home and School Association. Miss Elsie Clatworthy's class won the dollar prize for having the most parents present.

"Flying Bedstead" Is Magic Carpet; Arrives Safely

The source of the ear-shattering roar that sounds through the streets of Timmins practically every day has been located. It is a Model-T Ford of 1923 vintage owned and operated jointly by Tom Wilkins of Timmins and Bill Walley of Ottawa.
The boys, former members of the R.C.N.V.R., met and developed their friendship whilst in the Naval service and received their discharges together.
Before receiving their tickets to civilian life Tom and Bill decided to purchase a car with intent on making the trip to Timmins in same. The boys chose the Model-T which was not in running order at that time. Combining their mechanical talents and ingenuity, they soon had the car responding to their wishes.

Leaving Ottawa at 10.30 Thursday morning in the flying bedstead, graciously named "Grandma", the boys arrived at the Bona Vista Inn, five miles outside North Bay, at 10.45 the same night. The last 15 miles of the run were accomplished on three tires and one rim.
Continuing their journey at 1.15 Friday afternoon, they reached their goal, nosing through the local subway at 11.30 Friday night, completing the trip in fine style. The car behaved in marvellous fashion and the boys say the trip was thoroughly enjoyed, adding that it was also rather cool.

Past Matrons' Club Entertains Saturday

The Past Matron's Club of Arbutus Chapter No. 123, Order of the Eastern Star, met at the home of Mrs. E.A.P. Day recently to discuss final plans for their Afternoon Tea, Sale of Work and Home Baking which is to be held at the home of Mrs. Day on Saturday, November 10th, from 3 to 6 p.m.
Ladies of the district are cordially invited to attend this social afternoon on Saturday and need not be reminded that an enjoyable time is assured, as these Past Matrons' teas are becoming a popular event where many folk meet for a friendly chat over a cup of tea.

Many gift suggestions will be on sale, and there is always a most tempting array of delicious home-baked cakes and cookies.
Mrs. Ralph, presided at the meeting and other members present were: Mrs. E. Jackson, vice-president, Mrs. V. Morrow, Secretary-Treasurer, Mrs. N. Rutherford, Mrs. K. King, Mrs. Cooke, Mrs. M. Fisher, Mrs. B. McMillan, and the hostess, Mrs. V. Day.
During the evening the Past Matrons had a most enjoyable time delving into a book of souvenirs and treasured remembrances which have been collected by Sister Violet Day during her years in office in Grand Chapter and most especially the tokens collected while she was Worthy Grand Matron. These souvenirs have been most artistically arranged and the collection is most distinctive and unusual.
The next meeting of the Past Matron's club will be held at the home of Mrs. M. Cooke, Platt Veldt Property, Schumacher on Tuesday, December 4th.
