Wm. Honer Marries Toronto Girl

A beautiful wedding took place last Thursday afternoon at 4.30 at the home of the bridegroom's parents Mr. and Mrs. Walter E. Honer, Dome Mines when their son, William was united in marriage to Mary, daughter of Mr. and Mrs. Fred Pearce of Toronto.

It was a bright sunny day and the house was lovely with its setting of very tall crimson and white snapdragons. The Rev. R. J. Scott of the United Church performed the ceremony and the groom's father played the wedding music.

The bride, who was given in marriage by her mother, looked beautiful in a pale blue suit with yellow roses and forget-me-nots.

Mrs. William Jamieson was matron of honor and looked charming in a dress of navy blue with white accessories and corsage of red roses. Mr. William Jamieson, cousin of the groom, was best man.

Immediately following the ceremony Mrs. Honer served tea, the table being centred with spring flowers and white candles. A wedding dinner was arranged at the Airport hotel for the happy couple and immediate families.

Mr. and Mrs. Wm. Honer will reside on Main St., South Porcupine.

Before leaving Toronto the bride was guest of honor at many showers given by her friends.

Kiwanians Hear Talk On Agriculture

The regular weekly meeting of the South Porcupine Kiwanis was held in the Airport hotel on Monday evening. The president, Mr. V. Evans, was in the chair.

The program was in charge of the Agriculture Committee. The guest speaker was Mr. H. L. Hanlan the Agriculture representative at Matheson.

Mr. Hanlan spoke on gardening and before his main address he gave some interesting details on farming in general. He told his audience that it was as long ago as 1623 that the first farmer obtained a piece of land in Ontario. At the present day there are 700,000 farms in Ontario.

He went on to say that there is less food in the world today than there has ever been. During the war there was thirty per cent less labor available but even then the farmers produced forty per cent more of farm products.

The supply of meat and grain in this country is today very low. In February, 1945, there was well over 361 million bushels of wheat in Canada. A year later there was just over 150 million bushels.

In 1944 there were more than 8% million hogs slaughtered and in 1945 less than 5% million.

The Canadian farmer can produce more than we ourselves need but export demands are very heavy. Mr. Hanlan quoted many figures to show that the countries where the people are the hungriest are the countries where the people live off the land.

He claimed that before the depression, when wheat was \$1.05 a bushel, that bread was 10c a loaf in Toronto and other big cities. During the depression when the farmers only got 35c a bushel, bread still cost 10c a loaf in Toronto.

Now that the basic price of wheat is \$1.50 a bushel bread in Toronto is still 10c a loaf - which calls for some explanation.

Mr. Hanlan then went on to discuss gardening, especially with regard to the lands its cultivation and drainage. He mentioned the plants by destroying the micro-organisms which dissolve the plant foods in the soil and processes them for the plants use.

Land should be well drained and fertilized. The best fertilizer for gardens is well-rotted barnyard manure, which holds the soil water high, keeps the soil loose as well as being high in fertility.

Commercial fertilizers are fairly satisfactory and should be not more than one ton to the acre, he said.

The chief plants for garden planting use in the North are: potatoes, carrots, beets, cabbage, parsnips, lettuce and radish and early varieties of these. He discussed perpetual seeding in some of these vegetables. A little seed of radish, lettuce, peas and beans should be sown every week for a continuous supply.

The address was very valuable to prospective gardeners and most interesting to listen to.

Other guests Kiwanians were Reg. Stevens of New Liskeard and Dr. D. W. Wilson, veterinary surgeon from Guelph, who is working in the Matheson area, blood testing cattle and who came with Mr. Hanlan.

United W. M. S. Hold Meeting

The W. M. S. of the South Porcupine United Church held its regular monthly meeting in the church last Thursday afternoon. The president, Mrs. E. Delle Coffery, was in the chair. Business items were discussed and the afternoon program consisted of the worship service, conducted by Mrs. Coffery and which contained an Easter message, and discussion of a book, which was taken by Mrs. R. J. Scott. Eight members and two visitors made up the group, who after the meeting was over, enjoyed light refreshments.

The alarming increase in Ontario deaths from cancer over the past 44 years is dramatically illustrated in the above chart, which is being circulated by the Ontario Cancer Foundation in connection with its \$2,000,000 appeal for funds. What has been accomplished by control of disease is shown by the steady downward trend in pneumonia and tuberculosis.

WHO HAS ALL THE MONEY HE WANTS?

Joe Green is a steady worker with a steady job. He has always met his bills. But now, because of sickness, he suddenly finds he is short of ready cash... tomorrow he will go to his bank and arrange a Personal Loan.

You may find yourself in the same position as Joe Green. Anybody may! Personal loans through your bank make it possible for you to anticipate future earnings. This is an essential part of its services.

Such loans may be obtained to meet financial needs of many kinds; to lay in ahead a winter's supply of coal, to pay municipal or other taxes in time to earn the discount, to provide for home repairs, to send a boy or girl to college, to consolidate debts—indeed for any sound reason.

Bank credit runs through all personal life and commercial life. It operates silently and unobtrusively. You take it for granted. That is the way Canadian banking works.
