**"NOW WATCH ME WIN THAT RIBBON!"**

SANDY SIMPSON has been patiently improving his dairy herd. He saw his chance to buy a pure bred bull — and the manager of his bank lent him the ready cash to close the deal. Now he's expecting great things of his new calf; already he sees her winning her class at next year's Fall Fair. A few more like her and he can also see his milk production rising — as well as a nice extra income from selling his surplus stock to neighbouring farmers.

Branch banks, in rural communities across Canada, help to build prosperous farms . . . and at the same time help increase the flow of food to family tables both at home and in distant lands.

THIS IS ONE INSTANCE of how Canada's 3,200 branch banks play their part in the daily life and work of Canadians.

**Yes, Pepsi-Cola gives more for your money! It's 8¢ and worth it! Here's why . . .**

Yes, Pepsi-Cola now costs eight cents — and that price is your best guarantee of a drink that is truly BIGGER and BETTER!

You see, the price you pay when you pick a Pepsi today reflects our refusal to lower Pepsi-Cola standards of value, purity and flavour in the face of greatly increased costs of production.

In refusing to lower these standards, we rely upon the Canadian public to recognize the true economy of buying only the best—the best in quality, the best in quantity.

For over 12 years, Canadians have agreed that Pepsi-Cola is tops—tops for refreshment, for purity, for value. They have enjoyed Pepsi-Cola's matchless, "hits-the-spot" flavour; they have bought 12 full ounces for the price of six.

Now, in common with Canada's housewives, we face the problem of rising costs. The increased costs they meet in their kitchens we see in our plants—multiplied many times. Compare, for example, the price of sugar in 1939 with what we must all pay today!

In spite of these costs, we continue to offer you the best. Rather than lower our standards of quality or quantity, we ask you to pay eight cents for a drink which is still BIGGER and BETTER.

Yes, Pepsi-Cola now costs eight cents. It still enables you to enjoy the very best in flavour, the best in purity . . . still brings you a lot more for your money!
