**Creative Banking
PLAYED A PART**

WHEN A MAN accepts his pay does he ever stop to wonder how it got into his hand . . . who hired the accountants, who sells the products, who ordered the machinery, who picked out the site and built the factory, who put up the original money?

Creative Banking probably had a share in making that weekly pay a practical reality in his hand. Creative Banking plus men of ability with the vision and the courage to borrow money and build it into factories or mines, or buildings.

At The Bank of Nova Scotia we're proud of our share in the development of industry in Canada, proud to have been associated with the men who have made those jobs, those wages and salaries so commonplace they're taken for granted.

Creative Banking helps create more work and better living for Canadians.

Let's do it together!
